FINANCIAL.

New York financiers are just becoming impressed with the remarkable earning capacity of the United States Steel Corporation.—Page 12.

The Wall Street market was dull yesterday, the most active operations being those in Missouri Pacific.—Page 12.

The Chicago grain market was quieter, being controlled to a large extent by weather reports.—Page 10.

Pittsburgh bank exchanges for yesterday were $179,000 larger than those for the same day last year.—Page 13.

The market on the Pittsburgh stock exchange yesterday was more active and considerably better in tone. United States Steels were features.—Page 13.

BOMB HELD FIRE.

Performer in a Strange Feat Hurled to Death Before Thousands of People.

LOUISVILLE, KY., July 2.—In the presence of 5,000 spectators witnessing an open-air performance of the "Last Days of Pompeii," on the common, opposite Churchill Downs tonight, James Dull, known as the "human bomb," received injuries which will probably result in his death.

It is Dull's part of the performance to be hurled high in the air by a bomb which explodes, releasing a parachute by which the performer returns to earth. Tonight the bomb was shot into the air as usual, but when it reached its greatest height it failed to explode and started to the earth with the victim unable to release himself. As the missile was within 100 feet of the ground it exploded and Dull was dashed to the earth. His back was broken.

Spain to Sign American Treaty.

MADRID, July 2.—The minister of foreign affairs, the duke of Almodovar, has been authorized to sign a treaty of commerce with the United States which will then be sent to Washington for the approval of the senate.

AIRSHIPS WILL ENTER CONTEST AT EXPOSITION

Conditions of $200,000 Prize Offer at St. Louis Were Made Public Here Yesterday.

SCIENTISTS ELECTED THEIR NEW OFFICERS

The election of officers of the American Association for the Advancement of Science at the Hotel Schenley last night closed the program of one of the busiest days of the convention. President Ira Remsen of Johns Hopkins university was elected president and Washington was finally determined upon as the next meeting place, the date being December 28, 1902, to January 3, 1903.

DR. IRA REMSEN,
President of Johns Hopkins University, Last Night Elected President of American Association for Advancement of Science.

At the meeting of section D, Mechanical Science and Engineering, held in the lecture room of the First United Presbyterian church yesterday afternoon, the rules and regulations governing the aeronautic competition being arranged for the Louisiana exposition, to be held in St. Louis in 1904, were announced to the public for the first time by Dr. Calvin Woodward of Washington university, St. Louis. The contests is for airships, balloons and kites, but the most interesting part of the whole affair will be the competition of the airships.

Two hundred thousand dollars has been appropriated by the fair board to be given in prizes to the successful competitors. The first prize will be $100,000 and there will be a number of minor prizes given.

Conditions of Contest.

There is no limit to the number of competitors, power used or mechanical principles involved. The balloons and airships must carry one passenger and the competitor must have made a trip of not less than a mile with a machine similar to his entry.

The entrance fee is $250 each, which will be refunded when the entry appears on the day of the race scheduled. To win the first airship prize the entire course must be traversed three times and the speed must not be over 20 miles an hour.

The course will be L-shaped and will in length be not less than 10 miles nor more than 15 miles. The contests will be brought off between June 1 and September 30, 1904, in St. Louis.

After he had presented the rules for the government of the contests Dr. Woodward read a paper on "The Proposed Airship Contests at the St. Louis Fair." In part he said:

"It is the expressed opinion of many, perhaps the conviction of most people, that nothing ever will be accomplished in the way of aerial navigations, that is, of permanent commercial or social value. It is admitted that balloons may furnish valuable positions for observations in war, but no airship will ever be able to make trips to and from carrying either freight or passengers.

Believes It Possible.

"With all due respect to such people, I am bound to differ. They beg the question. I freely admit that the problem has not been solved; that our appliances for the transformation and utilization of energy are at present inadequate; even the line along which progress is to be made has not fully determined; but I have no doubt of the result. It may, and probably will, take many years, but there is plenty of time, and even the wisest of us do not know it all.

"Scientific men sometimes nod. Prof. Lovering, afterward president of the A. A. A. S., when Cyrus W. Field was preparing to lay the first Atlantic cable, in a lecture to my own class at Harvard proved the utter impossibility of telegraphic communication under an ocean 3,000 miles wide.

"The executive committee of the Louisiana purchase fair believe that progress in aerial navigation is possible and they have proposed to stimulate it. They have decided to offer liberal prizes and to enforce conditions which will call out the best efforts of the best investigators.

Control Big Point.

"They specify no device or machine, they have everything on performance, on a return course which greatly exceeds any recorded maximum.

"The navigator of the air needs the buoyancy of a balloon attachment, while he elaborates his propellers, planes and guides. As these increase in efficiency the balloon attachment diminishes, until finally it may disappear altogether. Who can say it will not? I have no hope from the balloon pure and simple. I have at present small hope of a pure flying machine; but I have great hopes of a device which, while flying, accepts more or less aid from a buoyancy gas."

Not a Pittsburgh member of the American Association for the Advancement of Science was elected to office at the regular annual meeting, held in the ladies' parlors of the Hotel Schenley last night. Although this city has a very representative membership in the association and has done herself proud in the entertainment of the organization for the past week, she was not recognized by the learned and scientific members from other parts of the United States.

The New Officers.

This fact was also noticeable when the list of fellows was handed down yesterday afternoon. Not a Pittsburgh member was in the list. The election last night was conducted by the general committee of the association, which is composed of the members of the general council and additional members from the different sections. It resulted as follows:

President, Ira Remsen, president Johns Hopkins university; general secretary, H. B. Ward, president University of Nebraska; secretary of council, C. W. Stiles, Washington, D. C.;

THE RIGHT REV. E. TALBOTT.

BISHOP TALBOTT IS TRIED BEHIND CLOSED DOORS

Episcopal Inquiry Board Takes Testimony at Harrisburg.

SEALED VERDICT GOES TO OFFICERS

[SPECIAL TELEGRAM TO THE GAZETTE.]

Harrisburg, Pa., July 2.—With closed doors and all present sworn to secrecy, the board of inquiry heard testimony on the charges against Bishop Talbott of the Central Pennsylvania diocese of the Episcopal church today at St. Stephen's church, this city. The Rev. Dr. Ingram N. W. Irvine of Philadelphia, who accuses the bishop of conspiring with Mrs. Emma D. Elliott of Huntingdon to unfrock him while serving as rector of St. John's parish at that place, and with other offenses unbecoming a bishop, was the chief witness against the accused prelate.

Dr. Irvine was represented by Attorneys Harry W. Petriken of Huntingdon and Agnew McBride of Philadelphia and was called to give his testimony immediately after the board had organized. The charges were formally presented by the Revs. Andrews Harris and Daniel L. Odell of Philadelphia.

After hearing Dr. Irvine and other witnesses for the prosecution whose names are withheld by the board the investigation was concluded tonight and the verdict made up and certified to the secretary of the house of bishops. Bishop Talbott was not present at the hearing, which was merely to determine whether there was sufficient evidence for holding him for trial before a committee of bishops. Neither was he represented by counsel.

Despite the doubts that existed this morning as to the possibility of securing a quorum the board went into executive session at noon and elected the Rev. Dr. J. S. B. Hodges of the diocese of Baltimore as president and the Rev. Dr. F. C. Foley of Williamsport as secretary. Charles V. McConkey of Harrisburg was chosen church advocate.

The Central Pennsylvania diocese was represented on the board by the Rev. Dr. Foley, the Rev. Dr. D. J. Powers of Pottsville, Col. W. Fred Reynolds of Bellefonte and Hugh M. North of Columbia. The Philadelphia diocese was represented by the Rev. Dr. W. H. Rodine, rector of the Church of Our Saviour. The Rev. Drs. Hodges and Daniel M. Thomas represented the Maryland diocese and the Rev. Dr. J. Lewis Parks and the Rev. William R. Huntington the diocese of New York.

Dr. Irvine was unfrocked "because of improper language and conduct toward females," and with "scandalizing religion and the church."

Bishop Talbott's friends here say that the deposed minister had trouble in other dioceses in which he served before he was stationed at Huntingdon.

KING HEARS TROOPS AS THEY MARCH PAST

Monotony of the Sick Room Varied by Expressions of Sympathy from Soldiers.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

LONDON, July 2.—King Edward has passed another good day. The quiet and routine of the sick room was varied today by the excitement of listening to the music and cheers of the Indian troops as they marched past the palace and greeted Queen Alexandra on the balcony. King Edward demanded a full account of the review and the formal report made by the prince of Wales was supplemented by the personal narrative of the queen.

His majesty dictated a letter to the duke of Connaught, commanding him to compliment the colonial troops upon their excellent appearance, and to thank them for their expressions of loyalty and sympathy, which he had heard with pleasure in his sick room. King Edward was somewhat disappointed that he was not able to see the march past of the troops. He had hoped that this would be possible from an invalid couch in a window of the palace, but the doctors were unwilling that he should risk this exposure and excitement and his majesty had to content himself with hearing the troops without seeing them.

Big Fire in Philadelphia.

PHILADELPHIA, July 2.—Fire caused a loss of about $200,000 tonight in the woolen and cotton yarn district. E. Mitchell & Co. lost $125,000, Dreher & Co. $35,000, and Buchler & Paulson about $25,000.

SENATOR QUAY HEAVES GREAT SIGH OF RELIEF

Was Afraid Union Party Would Indorse Pennypacker.

MANY CALL ON HIM IN PHILADELPHIA

By CHESTER D. POTTER,
Staff Correspondent.

Philadelphia, July 2.—Senators Quay and Penrose left tonight for Pittsburgh. They will join with President Roosevelt and other notables in helping to make the Fourth memorable in the annals of the Smoky City. Friday evening the senators will be guests at dinner of Attorney General Knox. After the celebration Senator Quay will join his family at Beaver. Senator Penrose will return to Washington and wind up some official business, preparatory to his trip to Idaho, where he will hunt big game for several weeks.

Senator Quay arrived here from Washington yesterday. He stopped with Senator Penrose at the latter's Spruce street residence. A large number of Republicans from different parts of the state called upon him today. It is probable that the conferences related almost exclusively to the legislative and county fights, the nomination of Judge Pennypacker having disposed of any uncertainty which might have attached to the result so far as the state ticket is concerned. It is Senator Quay's opinion that Pennypacker's majority will be upward of 200,000, and he does not think it will be necessary to make any extraordinary efforts to compass this result.

NEW GENERAL HOSPITAL FOR PITTSBURGH

Scope of Reineman Maternity Institution to Be Extended.

$100,000 IS NEEDED FOR IMPROVEMENTS

Ground for the Necessary New Buildings Has Already Been Optioned.

PLACE FOR CLINICS OF WEST PENN STUDENTS

Pittsburgh is to have a new general hospital which will be one of the most complete and modern in the United States. The new institution will be known as the Reineman General hospital, and application will be made at Harrisburg in a few days for a charter.

The trustees of the Western University of Pennsylvania have almost completed the making out of the transfer papers for the control of the Adam Reineman Maternity hospital to the new hospital association which is now being formed to operate and manage the new institution.

Seven years ago, before the death of Adam Reineman, he gave to the Western University what is known as the Adam Reineman Maternity hospital to be controlled by the university. At their last meeting, held quite recently, the members of the board of trustees of the university decided that it was beyond their power to properly maintain and run the institution.

The Reineman heirs asked that the hospital be transferred to a new association and made a general institution, and their request will be complied with. Among the members of the new association are:

W. B. Wolfe, S. M. Wilson, John M. Hays, Frederick Lange, W. M. Rowe, John E. Boyle, Charles Gist, A. W. Duff, E. E. Duff, W. L. Crawford, J. M. Anderson, Dr. H. W. Heckleman, Dr. John Mahon, Howard Jackson, Otto Helmhold and Dr. J. Milton Duff.

The old Reineman hospital buildings in Millwood avenue and Beechwood boulevard, near Thirty-third street, Lawrenceville, will be used and the new association has options on an additional frontage in Millwood street of 357 feet. This property will cost about $25,000.

A fund of $100,000 will be raised to pay for the additional ground and the cost of the new buildings, estimated at $75,000. When the hospital is completed, about September 1, it will accommodate over 100 patients. The hospital will be undenominational and will be used more especially for women patients.

The members of the new hospital association held a special meeting at the residence of Dr. J. Milton Duff, at Fifth avenue and Dithridge streets, last night, and decided that at their next meeting, to be held on Saturday evening, executive officers and a board of trustees would be elected.

The students of the medical department of the Western university will hold a great part of their clinics in the institution of which Dr. J. Milton Duff will, in all probability, be in charge.

The addition of the Reineman General hospital to the list of Pittsburgh's hospitals will solve the problem of the Western university students being barred from the West Penn hospital last year.

TORNADO CUT WIDE SWATH THROUGH A WISCONSIN COUNTY

One Man Was Killed, Several Injured and Much Property Was Destroyed.

MANY NARROW ESCAPES

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Racine, Wis., July 2.—A tornado swept across this county from the town of Raymond to Husher, in the township of Caledonia, a distance of 10 miles and about half a mile in width, late today. One man was killed, several persons injured, 40 houses and barns were wrecked, 30 or 40 head of stock killed, hundreds of trees blown down, hundreds of acres of grain ruined and other damage done, estimated at $50,000.

The storm first struck the house of William Cook and blew it to pieces. J. J. Laing's house was wrecked, Mr. Laing badly hurt, but his family escaped. His barns were destroyed. The house and all of the barns and other buildings of Elisha Lower were completely destroyed, and it is reported that three persons were injured.

The only fatality reported is at the home of G. Thyson of Caledonia. His house was completely blown away. The family escaped serious injury except Mr. Thysen, who was instantly killed. A widow and seven children survive.

A son of Elisha Lower was driving a horse attached to a wagon loaded with farm implements. The storm carried the wagon into a field 100 yards away. The horse was killed and the young man injured.

OHIO FIRM GETS HAVANA FRANCHISE

Youngstown Men Secure Exclusive Concessions for Trolley Lines in Cuban Capital.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

YOUNGSTOWN, O., July 2.—Park & Hamilton of this city have received a cablegram from their representative in Havana announcing that franchises have been granted them to construct and operate electric street railway lines throughout Havana.

The concessions are said to be worth $25,000,000 and include all the franchises in Havana. The franchises give the right to construct an electric line commencing at a point where all steamers land and running through the heart of the city, also a loop that will traverse another important part of the city. Associated with Park & Hamilton are DeWitt Trumble & Co. of Chicago, G. F. Penhale & Co. of New York, H. W. Whipple of New York, H. W. McDonald & Co. of Chicago and W. J. Hayes & Sons of Cleveland.

GIVES BAILEY LIE DIRECT.

Judge Penfield Declares Texan's Act Is Simply One of His Spasmodic Displays of Asininity.

WASHINGTON, D. C., July 2.—Judge Penfield, solicitor of the state department, today made a statement in reference to the criticisms made of him by Senator Bailey of Texas in the senate day before yesterday in which, in the following language, he gives Senator Bailey the lie direct:

"Senator Bailey's charge that I refused to furnish an official copy of a contract enclosed in one of Gen. Clayton's dispatches is in its substance and spirit untrue, and he knew it perfectly well when he made the charge in the senate.

"Senator Bailey set out some months ago to remove Gen. Clayton from his office as ambassador to Mexico because Gen. Clayton would not take instructions from him instead of the secretary of state.

"Senator Bailey is one of those men who go hunting for trouble and this is simply one of the spasmodic displays of asininity in which he indulges at regular periods."

COMMITTEE'S WORK IS NOW COMPLETED

Success of Pittsburgh's Big Day Is Up to the People.

LAST MEETING HELD YESTERDAY

Arrangements for Policing City Were Presented and Approved.

CITY DECKS HERSELF IN NATIONAL COLORS

Everything is ready for the celebration tomorrow. At the last meeting of the committee yesterday the chairmen of the sub-committees reported all prepared. There is a deficiency of about $3,000 in the fund. Chairman Carr hopes that some patriotic citizens will make up the amount today.

Preparations have been made for magnificent decorations along the route, and work will begin this morning to put Pittsburgh in gala attire. Some of the buildings in Fifth avenue will be blazes of color and flags of all sizes will be displayed. Particularly along the route it is requested that citizens display flags in honor of the day and the distinguished visitor.

John Battles, superintendent of the bureau of highways and sewers, and his assistants perfected their plans yesterday, and in great measure the success of the procession will be due to them. Last night all the cross streets on the route of the parade were washed. Tonight Liberty street and Fifth avenue will be given such a cleaning as they have never had before.

Streets Well Guarded.

It will take seven miles of rope to bar off the cross streets on the line of march. This will be done tonight. There will be 600 white wings along the route. John S. Gillespie will have charge of 170 men, stationed at various points from the Union station along Liberty street and up Fifth avenue to the courthouse. S. W. Church, with 55 men, will have the line of march from Ross to Federal streets. William Kelser will have his 65 men from Federal to Magee streets. John Flinn will have 100 men between Magee and Gist streets. At the latter street E. S. McKim takes charge with 94 men, and cares for the route to Boston street. There J. K. Philips and E. H. Negley take charge, and they will have 110 men with which to care for the line from Boston street to the park. After the parade has passed the ropes will be taken down as rapidly as possible, so that the people will not be deprived of the streets any longer than necessary.

The police arrangements are equally as good. Director Leslie, Superintendent McAleese and Superintendent Denniel reported to the committee yesterday what has been done in the way of having detectives from out of town in various parts of the city, and they were warmly commended for their activity and plans to protect visitors and citizens. Almost the entire police force will be in the down-town streets and along the line of march. The men have been instructed to pay particular attention to the crowd and to look only casually at the parade, which will take care of itself.

The Police Arrangements.

As fast as the column passes certain points the men will be again distributed. The men who have been on duty all night will go to their homes, while the day men will go to various places about the city where they will be most needed.

The city detectives and the detectives from Allegheny will be everywhere. The visiting detectives have been assigned to places where they will be of the most service. Both the police and the white wings have been ordered to arrest every offender against the laws, the ordinances and special orders that have been issued by the police department.

Director Leslie and Chief Humphries had a conference in regard to the fire department, and Chief Humphries and his assistants have arranged that every fireman shall be on duty all day tomorrow. No man will be allowed off unless in case of sickness.

Fires Are Anticipated.

Because of the extra precautions that have been taken by the owners of buildings in the business portion of the city and because there will be little business transacted, there will probably be no fires down town, but in the outlying districts, where there will be little police protection and where the boys can get into back alleys to shoot fire crackers, there will, of course, be a few fires.

An organization was perfected yesterday that will be in the parade tomorrow. It is camp No. 2, Veterans of Foreign Service, and was organized in Braddock. Camp No. 2 is in Pittsburgh. The officers of No. 2 are: James Campbell, commander; Harry G. Grannis, vice commander; Oliver P. Benson, quartermaster, Charles O. Clark, adjutant. Sixty members were enrolled. The Union Veteran Legion yesterday decided to take part in the parade. They will take a position in Fifth avenue below Wood street.

The contributions yesterday were as follows:

Charles Walters	$ 05
G. R. G.	1 00
Walker & Wainwright	25 00
William Thaw, Jr.	25 00
Thaston & Co.	25 00

Striker Shot and Killed.

ROANOKE, VA., July 2.—Ezrill Jones, a striker, was shot and killed at Simmons Creek, W. Va., last night while trying to force himself through the guard. Jim Jones was asked to leave the premises, which he refused to do and, it is alleged, he fired at the guard a number of times. The guard returned the fire, killing Jones instantly.

"THEY'RE OFF."

TEACHERS ARE TOLD OF THEIR HIGH CALLING

Grave Responsibilities Emphasized by Well-Known Educators.

BIG CROWD AT THE ALVIN

First Day's Session of the Pennsylvania State Educational Association Pronounced a Great Success by Those Who Attended Sessions.

With a most interesting evening program, the Pennsylvania State Educational association closed yesterday the first day of its forty-seventh annual convention, which is being held at the Alvin theater. The special features of the evening's program were the addresses of the president of the association, Dr. J. R. Flickinger, principal of the State Normal school at Lock Haven, and of Dr. Charles F. Thwing, president of Western Reserve university at Cleveland. Like the day' meeting, the evening session was well attended.

Dr. Flickinger's address was a scholarly but brief statement of the yielding of the old school methods to the demands of the modern day; the passing of the idea that no one is an educated man whose work lies outside of the learned professions and, as he put it, the acceptance of the expert inspector of Bessemer

DR. CHARLES F. THWING.
President of Western Reserve University, Cleveland, O., Who Made the Principal Address Last Night.

pig iron as quite as valuable a man in the world as the student of the sayings of Socrates. President Thwing spoke for an hour to an attentive audience.

Dr. Thwing's subject was "The Teacher a Force in Civilization." In opening his address he said: "Dr. Flickinger's statement that the teacher is the mainspring of future progress and the bulwark of progress yet to be, is a comprehensive summary of what I have to say tonight. As I analyze civilization, there are four great forces and in all these forces the teacher participates more than the follower of any other vocation. These forces are the home, the church, books or literature, and individuality."

On each of these four forces Dr. Thwing enlarged with much eloquence, showing the close relation of the teacher's work with each. On the subject of religion in the school he spoke with considerable feeling. He said that in his home city of Cleveland a resolution of the school board authorizing the reading of the Twenty-third Psalm and the recitation of the Lord's Prayer had had to be rescinded on account of the popular clamor against the introduction of religion into the public schools. He said he believed that nothing but good could result from such exercises.

The Teacher and the Child.

Of the teacher as affecting the home he said that the children are the connecting link. "More of the waking hours of the child are spent with the teacher than with the parents in many cases," he said. "The teacher who is not thrilled with love for the pupils is not fit to occupy the position. The triumphs of the teacher are the successes of those who go forth from under the teacher's care. The value of a school depends not so much upon the curriculum nor on the schoolhouse, though it be of marble, as it does on the individual character of the teacher. Upon you lies the responsibility of training now the boys who will occupy during the next half century the great positions of the world."

In the interim between the two addresses the delegates were entertained by the singing of Miss Frank Huntley. After the addresses were completed it was decided by vote to hold the meetings of the department and the conferences this morning beginning at 8:15, instead of in the afternoon, in order to give the afternoon to the excursions planned by the entertainment committee.

The Morning Session.

There were about 1,500 teachers present yesterday morning when the forty-seventh annual convention of the association was called to order by W. H. Davis, and this morning there will probably be 1,000 more on hand.

Recorder J. O. Brown was unable to be present to welcome the educators to the city, so he sent a substitute in the person of Andrew C. Robertson, an assistant city solicitor. Superintendent Samuel Andrews followed and gave some interesting points in the history of the association. The responses were by D. J. Waller, principal of the state normal school at Indiana, and L. E. McGinnes of Steelton.

The first paper was read by W. M. Pierce of Ridgway. The title was "Supervision," and Mr. Pierce took the superintendent's standpoint. N. P. Kinsley of Franklin discussed the paper. J. A. Wright of Bedford spoke on county supervision.

T. B. Noss, principal of the state normal school, California, read a paper on "Weak Points That Need Attention." It was discussed by Daniel Fleisher of Columbia, Charles Lose of Williamsport, H. S. Wertz of Blair county and C. E. Dickey of Avalon.

In the afternoon the teachers went up the river on the Francis J. Torrance. Many of them stopped at Homestead and inspected the steel works.

The only other address of any consequence last night was delivered before section D in the Carnegie Institute by Capt. W. L. Seibert, United States engineer of Pittsburgh. His subject was "Structures and Bridges in the Philippines." Capt. Seibert was chief engineer of the Eighth army corps in the Philippines, and his address last night was exceedingly interesting and instructive.

Another important piece of business transacted by the general council of the association yesterday was the election to fellowships of 40 members of the organization. The total number of fellows is now 1,080. Anyone may become a member of the American Association for the Advancement of Science, but to become a fellow, members must be engaged professionally in research or have by their labors aided in advancing science.

Fellows Were Elected.

At the Denver convention held last year over 200 members of the association were elected to fellows, but the orders have been given to cut down the number of candidates, with a result that it is expected about one-fourth that number will be elected to the honor during the Pittsburgh meeting.

Yesterday afternoon Dr. D. T. McDougal, chairman of the committee on fellows, announced that the following members of the association had been elected:

John Abel, Jr., Baltimore, Md.; Samuel M. Bain, Knoxville, Tenn.; Carleton R. Ball, Washington, D. C.; Otis W. Caldwell, Charleston, Ill.; Charles Joseph Chamberlain, University of Chicago; Melville T. Cook, Greencastle, Ind.; Cogshall, Washington, D. C.; G. M. Duncan, New Haven, Conn.; Louise B. G. FREDERICK WRIGHT.
Who Told of the Geological Development Along the Ohio and Its Tributaries.

Science, called the third day's general session to order in the Carnegie Music hall at 10 o'clock yesterday morning. Nothing but routine business was transacted and no papers were read before the meeting.

The meeting adjourned shortly before noon and at 2:30 and 4 o'clock eight of the different sections held sessions in their several meeting places. Yesterday was another day of papers and almost 150 of them were read in the different meetings.

Before section E, Geology and Geography, which convened in the Oakland Methodist Episcopal church yesterday afternoon, G. Frederick Wright read a paper on the geological formation of the upper Ohio river and its tributaries.

At the afternoon meeting of the section of Social and Economic Science yesterday, Judge Simeon E. Baldwin of New Haven, read a paper on "The Change of Position, During the Nineteenth Century, of the Business Corporation."

Modern Corporations.

He said that one of the most far-reaching of modern political innstitutions was of freedom of incorporation under general laws. It had been practiced for a short time at Rome under the republic, but the empire put an end to it. The only form of Roman corporation, universitas, which survived to reappear in the beginning of modern society, was the university of scholars. Private incorporation at will under general laws, for business purposes, remained unknown for nearly 1,800 years.

"The modern corporation is individualistic.

It asks nothing from the state but to be left alone. The 'trust' at first was an abandonment of the corporate idea, for that of partnership. Now it is reverting to the corporate type.

"It brought a financial panic upon Germany in 1901. Stocks and bonds on the Berlin exchange fell in price to the aggregate amount of $500,000,000. One trouble was that they had formed corporations, to promote other corporations, and virtually to own them. We have fallen in the same way. What is to be the future of the trusts. One simple remedy, so far as they are constituted through corporations, would be that suggested by Edward B. Whitney, to limit the number of shares one corporation can own in another. It is quite enough for most corporations to do, to manage themselves.

Talk On Our Commerce.

The Hon. O. P. Austin, chief of the bureau of statistics of the treasury department, Washington, D. C., delivered a special address on "The Commerce of the United States, Past, Present and Prospective," before the members of section I, social and economic science, in the main lecture room of the Carnegie institute.

The address was accompanied by a large number of stereopticon illustrations. Mr. Austin pointed out the fact that the chief growth has come since the opening of the interior by railways and other transportation systems developed the great producing power of the country.

"The United States," he said, "is the greatest producer of the world, of the five great articles required by man for daily life, food, clothing heat, light and manufactures.

In closing Mr. Austin summarized his anticipation of the future of the production and commerce of the United States as follows:

"What of the future? What is the promise of this magnificent country of ours, this land of plenty, where are produced more of the requirements of life than in any other land, and which is now to become a perfect unit through the addition of tropical territory to give us the one class of material in which we have been lacking in the past?

A Great Prospect.

"In my mind's eye, I see a great, a wonderful development, far beyond that before which the world now stands in amazement. I see Niagara and the countless smaller waterfalls of the country furnishing electricity to be conveyed to cities and towns and hamlets and farms, to be utilized as light and heat and power.

"I see a great canal connecting the two oceans and putting our eastern and western shores in close water communication, and our great ports in direct touch with the markets of the entire world. I see another ship canal connecting the great lakes with the Atlantic, with ocean vessels landing at the docks of Buffalo and Erie and Cleveland and Detroit and Chicago and Duluth, and making that great producing section of the world a great ocean frontage.

"I see other canals connecting the lakes with the Mississippi and Ohio rivers, and a great system of light-draft steamers and barges carrying the products of those great valleys to the ocean steamships upon the lakes or the gulf of Mexico.

"I see a great railway line extending from Alaska at the north to Argentine at the south, connecting the railway systems of the two continents and bringing the markets and people of South and Central America into close relation with our own.

Future Is Bright.

"I see American steamships penetrating every sea, carrying American goods to every continent and island, and sending them to the interior of every country by American engines, in American cars, and upon American rails.

"I see an American cable across the Pacific, giving us facilities for instant communication with our islands in the ocean and with the orient, and those islands, supplying us with hundreds of millions of dollars worth of their products and taking hundreds of millions of dollars' worth of our products in exchange.

"I see the islands of the gulf of Mexico, one by one, knocking at our doors and coming under the American flag and furnishing us their tropical products, to mingle with those of the Islands of the Pacific. I see the American flag flying in the Caribbean sea, on the chief Islands of the Pacific, and over the gold fields of Alaska; stretching literally from the tropics at the south to the Arctic at the north, and from the Atlantic on the east to the Asiatic waters on the west, and carrying peace, prosperity and progress wherever it is planted. I see the products of the American farm and factory in every land, and with this accomplishment, increased prosperity for American producers and manufacturers and workmen, and increased happiness among all classes of American citizens.

THE WEATHER.

Rain.

The extensive preparations for the reception of President Roosevelt and the celebration of the Fourth of July in Pittsburgh will result in disappointment to patriotic Pittsburghers if the forecast of the Washington weather bureau proves true. The prediction for today and tomorrow is for rain, yesterday was the brightest day in two weeks, and during the day the mercury succeeded in reaching a maximum of 82 degrees. The minimum was 58, at 6 o'clock yesterday morning.

The Gazette weather service thermometers at Kaufmann's corner at the following hours yesterday, registered:

CONVENTION IS DELAYED IN THE HOPE OF PEACE

Democratic Gathering Not Likely to Be Called Until Next Week.

MALCONTENTS ARE ACTIVE

Chairman Thomas B. Alcorn Is Undecided as to the Date—Clark Makes a Move Toward Conciliating Martin and His Friends.

The Democratic county convention is not likely to be held this week. County Chairman Alcorn said yesterday that he had not decided when to call the convention, but that it was probable it would go over until next week.

There is war in the Democratic camp, and it is whispered on the wings of the midnight breezes that the delay in calling the convention is partly due to a desire to have things in more peaceable shape when that body convenes. Democratic county conventions have not usually been mild affairs, and the leaders seem to fear that this one will be more riotous than usual.

There is a certain contingent of the ring Democracy dead set against fusion, and although in a minority, its members are likely to attempt to stir up trouble in the convention. One move toward peace was made yesterday, when County Commissioner Clark conceded that the delegates elected by Alderman Martin in the Third legislative district should be seated in the convention, instead of the set put up by his friends.

Martin had threatened to stir up all kinds of friction and his friends, egged on by the ring faction of the Democracy, were loudly proclaiming their intention of nominating Democrats for the legislature in several districts in opposition to the fusion ticket.

Clark's move in extending the hand of conciliation to Martin may avert the storm. It does not make much difference to Clark whether the delegates from the Third district are his friends or not. He has plenty of delegates.

Caspar Mayer of Bridgeville, chairman of the Sixth legislative district convention, admits that the Democrats in his bailiwick are contemplating putting up an independent ticket, unless the fusion managers give them one of the nominees. As the fusion ticket is already on file at Harrisburg there is no possibility of their demand being granted, but the leaders are confident that they will stand by the fusion agreement.

Dr. Cadwalader Evans is expected to resign as general manager for the American Steel and Wire Company to take personal charge of the fusion county campaign. William B. Hays, who has been ill, will be head of the executive committee. The Third avenue headquarters will be the center of much activity and the Democrats will get into action in the near future.

The delegates who are to support James A. Clark for county commissioner caucused secretly last night, and it was given out that 35 votes were pledged to him. Thirty is a better estimate in the minds of the onlookers.

CHIEF MOURNERS GET TAR AND FEATHERS

Funeral Postponed to Administer Punishment to Dead Woman's Husband and Sister.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

STERLING, ILL., July 2.—The funeral of Mrs. John Seibert of Mount Morris was delayed today until the mourners could adjourn to a cornfield and administer a coat of tar and feathers to the husband and sister of the dead woman. When the funeral proceeded, but the two who were to have been chief mourners were absent.

The house was filled with sorrowing mourners when some of them discovered Seibert in another room hugging and kissing Mrs. Theodore Wolfe, his dead wife's sister.

The crowd quickly dragged the couple to the cornfield. A plentiful supply of tar was poured over the victims and feathers from a pillow were emptied on each. Then the two were driven from the village and ordered never to return.

BOYISH PRANK HAS A TERRIBLE ENDING

Lad Who Tried to Imitate Fire Fakir Fatally Burns Himself and Two Others.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, July 2.—Trying to imitate an Egyptian fire swallower, Harry Loughren, 12 years old, poured burning gasoline over himself and six other children tonight. The boy and one other child probably will die.

Of the others one only escaped injury, a girl, who dropped, without being hurt, from the porch, 30 feet from the ground, after tearing off her skirt, frantic to avoid another child, who was running toward her with clothing ablaze.

The boy's mother was burned so badly in stripping the burning clothing from him that she also may die.

After a hard struggle the flames were extinguished by neighbors who ran to the assistance of the children.

MANY BALLOTS TAKEN.

Mt. Albion Sub-District School Board Unable to Elect.

The Mt. Albion sub-district school board last night failed to break the deadlock over the election of a principal.

Sixty-four ballots were taken, making a total of 311. Last night's balloting developed nothing tangible.

Mr. Fracius and Mr. Kirkpatrick, who have during the former meetings voted steadfastly for Miss Rose McCleary, last night voted for other candidates. Twelve applicants received votes last night, but none the four required to elect.

QUAY SKIPS STONE.

Senator Quietly Passes Through Harrisburg Concealed in Sleeper.

HARRISBURG, July 2.—(Special.)—Senator Quay passed through Harrisburg tonight, en route to Beaver from Philadelphia, and contrary to expectations, he did not stop over to have a heart-to-heart talk with Gov. Stone. The governor is going to Pittsburgh at noon tomorrow to attend the Fourth of July celebration there, and it is reported in administration circles that he has an engagement to meet Quay at 8 o'clock tomorrow night at the Hotel Schenley.

SENATOR QUAY HEAVES GREAT SIGH OF RELIEF

details," said the senator this afternoon. "Nothing will be done until September, and perhaps not before October 1. My family went to Beaver last night. Mrs. Quay and my daughters have decided to spend the summer at Lake Placid in the Adirondacks. I shall spend a few weeks fishing and hunting in Maine, joining Mrs. Quay afterward at Lake Placid."

Senator Quay declined to discuss the meeting here yesterday of the Union party state committee. When it was referred to he smiled wearily and appeared greatly relieved when informed that there was no possibility that the Union party leaders would indorse Judge Pennypacker. Such action by Mr. Wanamaker's agents would be embarrassing, and no doubt would materially reduce the Republican gubernatorial majority. If Wanamaker refuses to turn his party in for Pattison the Republican leaders are hopeful that he will declare for Dr. Swallow, the only candidate he can logically support.

THE WEATHER MAN'S DOLEFUL FORECAST

He Tries to Dampen Ardor of Patriots by Prediction of Fourth of July Showers.

All preparations for Pittsburgh's greatest celebration of the Fourth of July have been completed by her patriotic sons, but almost at the last moment the weather man has fallen down in the part assigned to him, and according to his forecast for tomorrow there may be showers.

But aside from the prediction of the Washington weather bureau, the records of the local weather office show that on only 10 out of the past 29 years has the day been spoiled by rain. And on only seven occasions has the rain come so late that the grass was damp for spectators at the evening display of fireworks. Since the celebration of the day has been held at Schenley park the programs of amusements have been seldom interrupted by bad weather. The temperature has been warm every year in the last 20 except in 1882, when the maximum only reached 74 degrees and was kept down by heavy rain.

The atmosphere on the Fourth during this period has been in the great majority of cases very warm, the mercury keeping above 80 degrees on all but three days and these were within recent years. On the other hand, the mercury on the Fourth has hovered in the vicinity of 90, once, in 1898, going to 98 degrees. In 1900 and the year previous the Fourth was sizzling in Pittsburgh, and although rain fell during the day several persons were prostrated by the heat.

M'GOVERN MATCHED TO FIGHT CORBETT

Two Big Little Men Will Meet at New London, Conn., August 29 for $14,000.

[SPECIAL TELEGRAM TO THE GAZETTE.]

ST. LOUIS, July 2.—Late tonight Young Corbett and Terry McGovern signed articles to fight at New London, Conn., on August 29 for a purse of $14,000. Bill Crowley of Hartford, Conn., arranged the match. The Louisville representatives were badly disappointed over not securing the Corbett-Sullivan match, which they expected after it was declared off today.

Young Corbett leaves tomorrow for Denver, where he will spend two days before going to New York to train for the championship bout. Sullivan leaves in the morning for Chicago.

HAY GETTING POINTS ON CANAL BUILDING

Sees Number of Senators Who Favor Panama Project—Spooner Says Waterway Is Certain.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, July 2.—"There is absolutely no doubt of the earnest purpose of the administration to begin as soon as possible the construction of an Isthmian canal," said Senator Spooner of Wisconsin.

"Under the bill which bears my name a canal must be built. I had no other object in view when I framed it. The demand for the canal is universal. It would be very foolish to attempt to mislead the people. All the talk to the effect that the bill which the senate passed and to which the house agreed was intended to prevent a canal from being built is absurd. The conference today proved beyond a doubt the earnestness of the administration in inaugurating this great project."

Secretary Hay today held a conference with Senators Spooner, Hanna and Lodge preliminary to negotiations for the construction of the waterway. It is desired that the administrative and legislative branches of the government shall be in thorough accord in the canal policy. Mr. Hay informed the senators that the attorney general would appoint an officer to examine the validity of the title offered by the Panama Company.

MUST BE REPORTED BACK.

Councilmanic Business Referred to Corporations Committee to Be Returned.

A meeting of the committee on corporations was held last night and C. S. Crawford had a motion adopted that hereafter business of common council before that committee be reported back to common council and that from the select branch be reported back to select.

He also had adopted a motion making the clerk of common council the clerk of the committee instead of E. J. Martin, the city clerk. He explained that the latter had too much to do since select council had doubled his duties in the appointment of separate committees.

An ordinance granting the Duquesne Street Railway Company the right to lay tracks in Grant street, Seventh avenue, Liberty avenue and to connect itself with the Consolidated and United lines in Grant and Smithfield street at intersecting streets was referred to the committee having in charge the taxing of public service corporations. The Garrison Foundry Company and American Foundry Company ordinances for switch rights on South Ninth street and Hazelwood avenue were affirmatively recommended.

PROFESSOR'S BRIDE ARRESTED.

Charged With Robbing Brother-in-Law While Husband Is in Hospital.

PHILADELPHIA, July 2.—Mrs. Allena O'Malley, wife of Austin O'Malley, professor of English literature at Notre Dame university, South Bend, Ind., and William Herring of New York were arrested today on the charge of stealing jewelry valued at about $300, preferred by Mrs. O'Malley's brother-in-law, Dr. Joseph O'Malley, of this city. Pawn tickets were found in Mrs. O'Malley's possession.

The woman's husband is in St. Agnes hospital, this city, suffering from paralysis caused by ptomaine poisoning. The couple have been married only a few months.

"MY CURE WAS **ALMOST A MIRACLE."**

Says Mr. G. M. Hoy In Speaking of the Efficacy of Peruna For Catarrh.

Granville M. Hoy, Sheridan, Ind., is Past Grand, Independent Order of Odd Fellows, Lodge 601. In a recent letter he says:

"I suffered for years with liver complaint, causing me severe pains and a peculiar weakness across the small of my back, so that it was hard to stoop, and sometimes very painful to walk about. I had used so much medicine without deriving any help that I just let it go, until a neighbor was cured by Peruna. That led to my using it, and before I had used ten bottles I was cured. I consider it almost miraculous."—Granville M. Hoy.

CATARRH is liable to attack any organ of the human body. Many cases of kidney, liver and bladder diseases which baffle the doctors' skill are but catarrh of one or both of these organs. That Peruna is a cure for such cases the accompanying letters show.

Mr. W. L. Butler, 1628 Belleview Ave., Kansas City, Mo., Secretary and Treasurer of the O. R. C. of America, writes: "There is nothing like Peruna for liver and bladder trouble. A number of railroad men have used it when they were broken down from the constant strain which they are obliged to undergo, and were greatly benefited by its use. I have used it frequently for myself and family and would not be without it for the world."—W. L. Butler.

Mr. Wm. R. Lewis, 2133 H street, W. Washington, D. C., Assistant Steward of the Metropolitan Club, writes: "I began taking Peruna last summer for stomach trouble and catarrh of the bladder, and as it seemed to relieve me some, I kept on taking it for two months and I considered myself cured. I rejoice that I gave this medicine a trial."—Wm. R. Lewis.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

WHITE WOMAN FATALLY SHOT NEGRO HUSBAND

Was Jealous Because She Saw Him Talking to Colored Woman.

BULLET ENTERED LUNG

Charles Jackson Is Likely to Die at Any Moment from Wound Inflicted by Wife—Refused to Be Taken to the Hospital.

Jealousy led Maggie Jackson to shoot her colored husband, Charles, at their home at No. 3534 Butler street last evening. The wife, who is white, was locked in No. 5 police station. They quarreled at noon, and when he came home in the evening she walked downstairs with a revolver under her apron. "I am going to shoot you," she said, and sent a bullet through his lung. Jackson is expected to die.

Jackson and his wife have been married seven years. They have two children. Jackson is industrious. He has several express wagons and is proprietor of a restaurant, a barber shop and a small clothing store. All the establishments are in Butler street. They quarreled frequently.

Mrs. Jackson was jealous. On Tuesday evening she saw him talking to a colored woman. When he came home she upbraided him. He paid no attention to her, and when he retired placed his revolver under his pillow. Mrs. Jackson took this during the night and hid it.

At noon yesterday they had words with reference to the colored woman she saw him talking on the night before. Jackson left to deliver trunks at the Union station. His wife became enraged after he departed, went upstairs and remained there all afternoon.

When Jackson returned home he sat in the restaurant with his brother Mack. They were talking when Mrs. Jackson came downstairs. She hesitated at the foot of the stairway for a few seconds, and, walking up to her husband, drew the revolver.

The bullet entered his left lung. Jackson groaned and fell. His brother grabbed Mrs. Jackson and attempted to wrest the weapon from her. She is a strong woman, weighing over 200 pounds, and she overpowered him. Realizing the seriousness of her act, she threw the revolver on the floor and fell on the breast of her wounded husband.

She told him that she did not know the revolver was loaded and that she was only "funning." Jackson became weak and Dr. A. C. Clark was summoned. He was unable to remove the bullet and ordered Jackson to be sent to the hospital. Police Lieutenant Orth arrested Mrs. Jackson.

Mrs. Carrie Moore took charge of Jackson's children. Jackson is 32 years old and his wife is 27. Mrs. Jackson had previously married a white man and has several children. One of these is a girl, who is also married to a negro. Dr. Clark said that Jackson's wound might produce death at almost any moment. He refused to be taken to the hospital on account of his children.

PROSPERITY STRIKES ALL RAILROAD LINES

Only One Road Has Been in Hands of Receiver This Year, That For Short Time.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, July 2.—The Railway Age tomorrow will say: The year 1902 has been, so far, the most remarkable period in 50 years of railway history in respect to insolvencies and receiverships. Since January 1 only one operating railway, the New York & Pennsylvania, 52 miles long, has been placed in the hands of a receiver, and that one broke all previous records for brevity of stay, the appointment having been made in February and the road having been sold under foreclosure and started for reorganization in May.

During the 26½ years that the record has been kept, it has shown the appointment of receivers for 639 roads, covering 114,400 miles of lines and representing stocks and bonds aggregating the vast sum of $6,291,397,000.

In a single year, 1893, no fewer than 74 roads went into bankruptcy with 29,340 miles, and $1,781,000,000 of stock and bonds. But since that year of greatest financial calamity failures have rapidly decreased and reorganizations have gone on at equal speed, so that today the era of railway receiverships may be said to be ended.

THREE BROTHERS INJURED.

All Are Struck by an Electric Car and One Is Dead.

YOUNGSTOWN, O., July 2.—Three brothers, Mike, Simon and Luke Shakovic, were caught on the trestle of the Mahoning Valley electric line, near Struthers, last night, and in an endeavor to escape injury lay down on the edge of the rails.

Luke was struck by the car and died from a fractured skull; Mike's left arm was torn off, hip fractured and nose broken and is in a critical condition; Simon was knocked off into a gully 30 feet below, but escaped with slight injuries.

A. B. Chase Piano Generally Conceded to Be the Ideal Instrument.

many ways by which a piano is superiority over other instrument, the most unfailing mark of approval is the number of famous who prefer one particular piano to all others. It is a fact that upon some persons is of little weight in these matters of taste, but it is not so well informed things musical. But the pertinent thing to the A. B. Chase Piano is accorded highest praise in cultured circles. And this is explained. The A. B. Chase Piano is really an art piano for artists, and naturally its exquisite tonal appeals to those whose knowledge has been obtained under the favorable conditions.

Seldom hear this delightful piano without knowledging its position, for refinement about the A. B. Chase is unlike anything pertaining other instrument made. We believe where the A. B. Chase stands at the head of music, because we pioneer the entire field before deciding on the old piano as our leader. We for one reason only—simply is the BEST piano produced at any price. Our trade demands the best, and it has always been the aim of this store to supply the best goods comprised in the line of merchandise.

WHAT THE GUARD WILL GET TO EAT

FOR FIRST TIME IN ITS HISTORY THERE WILL BE FRESH FISH.

Commissary General Robbins Announces What Rations Will Be Issued at Gettysburg—The Time-Honored Custom of Burying the Cheese Will Be Observed.

An interesting circular has been sent out by Commissioner General Edward E. Robbins of the National guard of Pennsylvania. It refers to the supplies which will be issued during the coming encampment at Gettysburg, and imparts to the officers and men of the guard much information they have been anxious to acquire.

The commissary department is to be established on the camp ground in a building erected for the purpose, on Thursday,

COL. E. E. ROBBINS,
Commissary General National Guard of Pennsylvania.

July 10, and rations will issue forthwith to the advance details and provost guard.

For the first time in the history of the Pennsylvania National guard there is to be an issue of fresh fish. This ration will be handed out on Friday, July 18, at 4 o'clock in the morning. There will probably be a jubilation of some kind over this innovation.

There will probably be two of those ridiculous mock funerals on the occasion of the two issues of cheese that are scheduled. One who has ever witnessed one of these burial services will never forget it. The entire company parades with arms reversed and with slow and solemn step proceeds to the place of interment. The cheese is borne on a hospital stretcher, and after it has been buried the bugler blows "taps." Then the company joyfully disperses. The same fellows often go and spend their money for the strongest Limburger they can find and eat that.

In addition to the fresh fish and the cheese there will be fresh meat issues on Saturday. Ham will be issued twice. Soft bread will be issued on Friday, July 11, and the following Saturday, Tuesday, Wednesday and Friday. Hard bread will be issued on Thursday, July 10, and the following Monday and Friday.

There will be five issues of beans, eight of sugar, three of rice, eight of coffee, one each of candles, salt, pepper and flour—50 pounds of the latter to each company—seven issues of potatoes, three of onions, three of vinegar, three of tomatoes in cans, three of corn in cans, two of prunes and two of pickles.

The ration heretofore issued has been enlarged and extended, and the general staff is of the confident opinion that the issue is entirely sufficient for the subsistence of the troops without the purchase of additional supplies from private subscription or company funds, "a practice which it is confidently hoped will be discontinued." Heretofore in some companies each man has surrendered one day's pay to provide a table fund.

Company commanders are warned that the greatest care should be used in storing, cooking and serving the rations to the men, for "no difference how liberal and extensive the ration issue may be, it can easily be spoiled between the commissary department and the table."

Man From Verdant Village of Cleveland Loses Trip to Germany by Finding Two New Friends.

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW YORK, July 2.—Charles Miller, a carpenter and builder of Cleveland, O., came to New York today to board a ship for a vacation in Germany, the place of his birth. He found that his ship would not sail for several days and started out to see the sights of Brooklyn, and, falling into the hands of two smooth strangers, was soon relieved of his money and his steamship ticket and left to repent his folly.

Miller lives at 34 Berlin street, Cleveland. As soon as he arrived in New York he purchased his steamer ticket and started out to inspect the Brooklyn navy yard. At the Brooklyn end of the bridge he was accosted by a stranger, who, upon learning of Miller's destination, said he was bound for the same place and offered to accompany him. Miller was glad to have the stranger's company and they boarded a Flushing avenue car. On the car they met another man who had a seat beside them. Before long he informed them that he, too, was going to the navy yard. It did not dawn on Miller that the two strangers might be in league. He was greatly interested in the things they pointed out to him as the car moved along. Instead of stopping at the navy yard the men took Miller to Monroe street. After leaving the car and walking some distance one of the strangers produced a roll of bills. He said he was afraid he would lose his money.

"Put it in this bag of mine," said the second stranger; "I'll keep it for you. If you don't you might get robbed."

The other handed the money over. Then the second stranger suggested to Miller that if he had any money he had better put it into the bag for safe keeping. Miller produced $300 and his steamship ticket and placed them in the bag. In a very short time Miller's companions mysteriously disappeared. He tried to find them and, failing, informed the police. He said he would probably abandon his trip to Germany.

MANY ARRESTS GIVE JUSTICES VERY BUSY DAY

Seven Coal and Iron Policemen Held for Killing Italian Striker.

NEW TROUBLE AT DURYEA

Mining Engineer Fires Into the Air, and When Taken Into Custody Four Revolvers Are Found—Was Called a Scab by Foreigners.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Wilkesbarre, Pa., July 2.—A number of justices of the peace in Luzerne county were busy today giving hearings to men charged with inciting and participating in riots at coal mines. Early this morning Deputy Sheriff Eckert brought four men from Freeland, charged with engaging in a riot at that place. The prisoners were taken before Magistrate Pollock.

A number of deputies testified that the prisoners gathered in the road leading to one of the mines this morning and tried to intimidate employes. One of the men pointed a revolver at one of the deputies. The riot act was read and the mob refusing to disperse, the deputy sheriff and his posse put the ringleaders under arrest.

At strike headquarters it was claimed that the arrests were an outrage and that the men should have been given a hearing at their homes instead of being railroaded to Wilkesbarre. The magistrate held the defendants in $500 bail for trial.

Seven Policemen Arrested.

County Detective Phillips of Lackawanna county came down to Duryea this afternoon and going to the William A. colliery, placed seven of the coal and iron policemen on duty there under arrest. They are charged with shooting the Italian whose dead body was found outside of the barricade yesterday. The officers were taken to Scranton and arraigned before Magistrate Howe. They were held in $1,000 bail.

The Wilkesbarre alliance made their first arrest this afternoon. A member of the United Mine Workers named William Weitzer was arrested, charged with libelling merchants and others. There were 14 counts against him. Magistrate Van Horn demanded $7,000 bail.

There came near being a serious riot at the William A. colliery about 1 o'clock this afternoon. Charles A. Brown, a mining engineer, was on his way to the mines. A number of strikers were playing cards under a tree. When they saw Brown going toward the colliery they called "scab." It is said one of the men also threw a stone at the surveyor.

Fired Into the Air.

Brown pulled his revolver and threatened to shoot. The foreigners picked up stones to throw at Brown, and he fired his revolver in the air. This attracted the attention of the guards behind the barricade at the colliery and they came out. Seeing Brown was in danger, they fired into the air and the foreigners fell back. After it was thought the trouble had subsided Brown started to take an electric car, when he was arrested by Chief of Police Cosgrove of Duryea. He was taken before Burgess Burlington, followed by a large crowd of angry Italians. The police say they found four revolvers on Brown. The burgess placed the defendant under $5,000 bail, which he was unable to furnish. His counsel will ask the court for a habeas corpus hearing tomorrow.

HOPE FOR M'KEESPORT.

Councils Propose to Give City Land to Tube Works—Few Small Lots Remain.

There is fresh hope in McKeesport that the necessary ground will be secured for the extension of the National tube works, to cost $8,000,000. At the meeting of McKeesport common council last night a resolution passed first reading that the city sell the site of its garbage plant to the United States Steel Corporation for $1. The property under the terms of option of adjoining ground, is worth between $9,000 and $10,000. The resolution was presented by Charles E. Abbott.

It is generally understood that McKeesport councils will facilitate the deal. Aside from this property there remain of that required for the new tube mills only a few small lots in the "Bowery" district. The rest has been put under option by the citizens' committee headed by James Evans of the National Bank of McKeesport. This was done since the steel corporation interests surrendered the options held as being too high.

Committee Accomplished Little.

The principal work done by the committee on public works last night was the postponement of nearly all matters that came before it. Some of the bills were from Booth & Flinn for extra work laying water pipe on streets that have been regraded and repaved. A bill of T. A. Gillespie for $11,000 for extra work on a contract completed many years ago for laying a rising main to Highland reservoir, caused considerable talk. It was reported that A. B. Sheppard, superintendent of the bureau of water, had told some of the members that he had changed the contract. A committee of three will confer with the city solicitor and ascertain if the city is liable for the amount claimed.

Steamer St. Paul Reports That the Portland and Jaenie Have Not Been Sighted by the Revenue Cutter Thetis, as Rumored.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

SAN FRANCISCO, July 2.—The Alaska Commercial Company's steamer St. Paul arrived today from Cape Nome with news of the steamers Portland and Jaenie that does not agree with the report by the steamer Centennial two days ago.

The word now is that the revenue cutter Thetis was spoken in Bering straits on June 15; that she had then been out 10 days and had seen nothing of the ice-imprisoned vessels. Everything that the St. Paul tells of the ships is at variance with the Centennial advices. The fact that the former left Nome on June 22, two days after the Centennial left, would seem more reliable, and the boat belongs to the same people who own the Portland.

The whaling bark, William Baylies, arrived at Nome on June 20 and reports that natives of the Diomedes island told him that the whaling bark Belvidere, the steamer Jaenie and a passenger steamer supposed to be the Portland drifted through the straits between June 1 and 8, the whaler passing on the 1st, the Portland on the 5th and the Jaenie on the 8th.

MANUAL TRAINERS WIND UP SESSIONS

Ended Meeting Here With a Boat-Ride Up the Monongahela. Officers Elected.

With an excursion up the Monongahela river to Homestead the ninth annual convention of the Eastern Manual Training association came to an end yesterday afternoon. In the evening the 100 delegates dispersed to their homes. The excursion was made by this association jointly with the Pennsylvania State Educational association, which is meeting at the Alvin theater.

Yesterday's program included the reading of papers, the election of officers and a round table, conducted by the retiring president, Daniel Upton of Buffalo.

The election of officers for the coming year resulted as follows:

President, George H. Bryant, Newport, R. I.; vice president, E. H. Bending, Dayton, O.; secretary-treasurer, C. B. Connelley, Allegheny; executive committee, Daniel Upton, E. P. Chapin and Elizabeth A. Knappe.

The papers on yesterday's program were: "The Development of the Individuality of the Child Through Sloyd," by Gustav Larsson of the Sloyd training school of Boston; "Domestic Science and Domestic Art in the Development of Girls," by Miss Irene E. McDermott, teacher of domestic art in the Second ward schools of Allegheny, and "The Functions of the High School," by E. P. Chapin, principal of the Hackley manual training school of Muskegon, Mich. Mr. Larsson's paper was read by Prof. George W. Norton of Philadelphia in the absence of the former.

TENT IN READINESS.

Committee Has Completed Details For the Reception of Endeavorers.

The committee on arrangements for the convention of the Endeavorers next week has completed every detail. Yesterday the huge Tent Endeavor was erected. It will take some days to build the seats, but, if possible, a special service will be held in the tent Sunday night.

Monday evening there is to be a final rehearsal by the convention choir of some 500 voices, in charge of Director J. P. McCollum. Mr. McCollum has secured the services of several eminent soloists. Eight thousand tickets have been sent out for this rehearsal, which will be held under Tent Endeavor. A member of the reception committee will be found on every through train to direct the incoming delegates to their meeting places.

President Signs All Bills.

WASHINGTON, July 2.—The records at the capitol show that every bill presented to President Roosevelt was signed by him before congress adjourned. This is exceptional, as it generally happens that some measures are overlooked or forgotten in the hurry. The total number of bills introduced in the house during the recent session was 15,380.

Congressman Sibley Renominated.

WARREN, PA., July 2.—(Special.)—The Republican congressional conferees of the Twenty-eighth district met today. Joseph C. Sibley of Venango, and Dr. J. C. Weidman of Mercer, were placed in nomination for congress. Sibley polled the votes of Venango, Elk and Warren counties, while Weidman was supported by his own county.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble: too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

USUAL BLUNDERS ARE AGAIN MADE BY DEMOCRATS

Republicans Will Profit by Mistakes of Their Adversaries in the Senate.

SPOONER GETS LAST SHOT

Winds Up Session by Making Donkeys of Those Who Attacked the Army in Philippines—Minnesota Delegation in Trouble.

THE PITTSBURGH GAZETTE BUREAU, 498 Fifteenth St., N. W., WASHINGTON, D. C., July 2.

Now that it is all over and congress, with its record of act and omission takes its place in history, there is a disposition on the part of its members to sit down and think it over. Their next move is to go back to their constituents and stand for the things they have done that they ought not to have done and the things they left undone which they should have done. From a strictly political viewpoint it has been a peculiar congress. There was practically a failure to establish burning political issues. It looks as if the campaign will be a go-as-you-please free-for-all race. Every representative will have to work out his own salvation and make his campaign with a view to the peculiar exigencies of his own case. But the odds are in favor of the Republicans.

In a few delegations there may be some difficult problems to solve. The Minnesota delegation, for instance, starting home flushed with victory over the defeat of Cuban reciprocity, having been foremost in the ranks of those who rode down the president's recommendation, pick up the paper and read these words: "We favor reciprocity with Cuba as urged by President Roosevelt."

Just the verdict of the Republican state convention yesterday, that's all. However, these little embarrassments will occur some times.

On the whole, the Republicans are satisfied with the record of congress, and when speaking seriously with each other express their belief that they can carry the country on it. They were given advantage, their say, by several mistakes of the opposition, thereby, they claim, again exemplifying the old motto, "You can always depend on the Democrats to do the wrong thing at the right time." They refer to the miscarrying of the Democratic campaign in the senate against the army.

In this connection there was gnashing of teeth and pulling of hair among the Democrats of the house today when they read the closing proceedings of the senate yesterday, and saw that the young senators who have been conducting the raid against the army had taken off the Democratic coat for the Republicans to give another switching.

There was just one parting shot the Republicans were very anxious to give, and they say the other fellows veered ship enough to enable them to plump it right in below the water line. The Republicans wanted to get a record of the method of conducting the investigation in the Philippines, as pursued by the Democrats. Mr. Carmack in the last hours of the session afforded the opportunity.

Senator Spooner, alert, aggressive, partisan and competent, saw the opportunity and seized it. For an hour he gave the opposition a castigation such as is heard in the senate rarely. He was in fine fighting fettle and took the enemy as they came, one down and t'other up.

Before the ink was dried on the record this morning the Republican congressional committee was getting the Spooner speech ready for the printer and figuring on the number of millions of copies to distribute. Republican senators and representatives say that it was by far the most vigorous partisan effort made during the session, and Senator Spooner received many congratulations.

CHIEF ATTACK ON HIS MEMORY

WITNESS DECLARES H. M. BENNETT WAS VERY FORGETFUL.

Miss Kelly Sharply Criticised by Court for Reading George Hulick's Testimony—Case to Break Pittsburgher's Will Is Begun.

[SPECIAL TELEGRAM TO THE GAZETTE.]

LONG BRANCH, N. J., July 2.—Five hours were spent today hearing testimony before Judge Heisley, against probating the will of Henry M. Bennett, the Pittsburgh millionaire.

The first witness was Miss Kelly, the young woman who drew the will. She was subjected to a rigid examination. Upon cross-examination it was shown that the witness had read the testimony given by George Hulick at the first hearing, which testimony she had not been allowed to hear. The act was sharply condemned by the court. Hulick admitted having given a copy of his testimony to Miss Kelly and admitted also reading a portion of her testimony.

In the afternoon Jonathan Hays, who worked for several years for Mr. Bennett, was put on the stand. He swore that Mr. Bennett would talk about things and forget what he was talking about the next minute. He also testified that on different occasions Mr. Bennett would buy three times the quantity needed to do certain planting and that he expected a man to do three days' work in one. The case was here adjourned until tomorrow.

Miss Biggar was not present at today's hearing. Her presence," said Judge Heisley tonight, in speaking of the matter, "was not needed." The opinion prevails, and there is every reason to believe it to be a true version that Miss Biggar is in a sanatorium at Jersey City, although this fact was not made known today. A gentleman who is well posted said tonight:

"Miss Biggar is at the Hendricks sanatorium at Jersey City, and has been there for several days. I know this to be true."

STOCK COMPANY WILL SING "IL TROVATORE"

A Fine Production of Verdi's Well-Known Opera Promised at Duquesne Garden Next Week.

A rare treat is in store for the music lovers of Pittsburgh and vicinity, when Verdi's tragic opera in three acts, "Il Trovatore," is done by the members of the summer stock opera company at Duquesne garden next week. This is one of the great master's early works and is undoubtedly his greatest success. The story is rich in dialogue, and one that holds the attention from start to finish. As an evidence of the popularity of the summer opera company at the garden many requests have been sent in from out-of-town residents for boxes and seats to be reserved in advance for "Il Trovatore." Manager Comant, however, wishes to treat all alike and will make no exceptions; and the best that can be done is the reservation of boxes and seats two weeks ahead, for any of the operas.

Edith Mason, the prima donna, who has already established herself so strongly in the favor of the garden's audiences, and Miss Mary Carrington, whose excellent work in "Carmen" lately will be remembered, will alternate in the difficult role of Leonora. Mr. Thomas H. Persse will assume the role of Manrico, in which he has successfully appeared before. Mr. Piggott, as Count de Luna, will have an opportunity of again displaying his rich baritone voice and his good qualities as an actor. Other important parts will be taken by Mr. John J. Martin, late of the Bostonians; Mr. Charles H. Drew, Mr. Ivy Smedley and other members of the company.

In the Palm garden, after the regular operatic performance, there will be special vaudeville features of interest and merit, and the usual orchestral concert and selections by the Mendolin quartet.

The Iroquois club of the East End was a feature at the Duquesne Stock Company's production of "Wang" last night, the 40 members and their friends occupying the eight lower boxes on one side of the house. The boxes were decorated in the club colors and the names of the members of the club were introduced into the olio of the comic opera. Two hundred members of the American Association for the Advancement of Science were also in attendance.

STREAM OF CALLERS SEE THE PRESIDENT

His Summer Vacation Begins With His Start for Pittsburgh—Going to Oyster Bay.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, D. C., July 2.—There was a steady stream of callers at the improvised executive mansion today, but there was nothing in the president's manner to indicate that he was distressed at having congress off his hands. Senators and representatives about to leave the city called to impress upon the presidential mind certain requests which they feared might be forgotten in the rush and hurry of official business attending the expiration of a long and busy session of congress.

Among the conspicuous callers were Senators Hanna, Foraker, Fairbanks, Elkins, Scott, Burton and Bard. Also Representatives Mercer, Dayton, Mudd, Dalzell, Ryan, Jackson and a delegation of Maryland veterans. The president had no time to grant individual interviews, except in a few instances. Instead of inviting his callers into his private office, he came out into the office of Secretary Cortelyou and disposed of the crowd with neatness and dispatch.

Secretary Cortelyou was absent from the office the greater part of the day completing the arrangements for the president's summer vacation, which practically begins tomorrow, when he starts for Pittsburgh to remain over the Fourth of July. After leaving Pittsburgh he will establish the seat of government at Oyster Bay, where he will remain until he is ready to start on his trip to the west.

SERVED IN PULPIT HALF A CENTURY

The Rev. J. K. Melhorn Celebrated His Semi-Centennial at Homestead Last Night.

The Rev. J. K. Melhorn last night celebrated the fiftieth anniversary of his ministerial life in St. John's Evangelical Lutheran church, Fourth avenue, Homestead. A large crowd was present, including many ministers from Pittsburgh and vicinity. The celebration was held under the auspices of the Lutheran Ministerial association. Among those who made addresses were the Rev. D. H. Geissinger of this city, the Rev. W. H. Roch of Greenville, the Rev. G. H. Kemerer and the Rev. G. N. Seaman of Homestead.

Mr. Melhorn is vigorous and active, notwithstanding the fact that he is past 70 years of age. During his career he built eight churches and organized five congregations. For many years he was stationed in Fayette county, where he was obliged to preach three sermons each Sunday and ride horseback for many miles. He estimates that for the first 10 years of his ministry he traveled on an average of 13,000 miles a year.

He was born in Lancaster, Pa., and at an early age moved with his parents to Ohio. He was ordained at Dayton, O., and since then has been stationed at several churches in Fayette county, at Grace Lutheran church, South Side; at Freeport, St. John's Lutheran church in Homestead and elsewhere. The Homestead church was organized by Mr. Melhorn 30 years ago, with eight members, and it is now one of the most flourishing congregations in the borough. Since 1886, when he resigned the pastorate of the Homestead church, Mr. Melhorn has been acting as a supply in churches throughout the synod. He conducts services each Sunday at Morris Crogs Roads in Fayette county. He is a graduate of Washington college and tells many interesting stories of early church work in Pennsylvania.

APATHY CAUSES DELAY.

Trustees of Sewickley Presbyterian Church Discouraged Over Prospect for New Building.

The trustees of the Sewickley Presbyterian congregation have become so disheartened with the feeble efforts to erect a $75,000 church that they have decided to discontinue all plans. This step has been forced, it is claimed, by the unwillingness of over 45 per cent of the congregation to assist financially or encourage the work. Edward A. Woods stated to a Gazette reporter that it was useless to try to build a new church until the entire congregation awoke to the necessity of doing so.

"We have need of a new building badly," he said. "But when the trustees have 45 per cent of the congregation neither encouraging or approving their efforts why should we continue?

"We have but $30,000 subscribed to the fund. These subscriptions came from the families who have long recognized the fact that the present structure will soon be unsafe. We cannot ask those to aid us who voted against the proposition. However, the fund is still open; if these choose to subscribe, they may do so.

"The trustees were instructed at a congregational meeting held some weeks ago to erect a $75,000 structure. When the ballots were counted it was found that 47 voted to build and 39 against. An effort was made to make it unanimous, but on the second ballot the majority had gained but five votes, there still being 36 against erection. Until these 36 decide to come over to the majority the building of the new church will not be considered by the trustees."

Appointments That Fail.

WASHINGTON, D. C., July 2.—Following are presidential appointments to office during the last session of congress upon which the senate failed to act: Joseph W. Jones, pension agent, Columbus, O. Pennsylvania—Postmasters: Ira R. Burns, Bellwood; Caleb S. Brinton, Carlisle; Frederick Buehouse, Mechanicsburg; John W. Grier, Jersey Shore; Harriet F. Gault, Media; Edwin F. SHOT AND ROBBED BY BURGLAR GANG

Masked Thieves Wound One Man and Get Away With Five Hundred Dollars.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

M'MECHAN, W. VA., July 2.—A gang of masked burglars early today terrorized this town, cracking three safes, securing money and valuables worth $500, and wounding Frank Reece in the exchange of shots.

From two safes at the McMechen general store $60 was secured and $200 more was taken from the safe in Frank Reece's real estate office.

The robbers were discovered, a posse followed them and a fusilade from both sides ensued. Frank Reece had two fingers shot off and was hit in the groin by the robbers. His wounds are not dangerous. One of the burglars is supposed to have been shot, but his companions assisted him in escaping.

NEW B. & O. LINE.

Road to Be Built for Accommodation of Heavy Freight Traffic.

MARTINSBURG, W. VA., July 2.—(Special.)—The Baltimore & Ohio Railroad Company has authorized the building of a line from Wilson's Crossing, about five miles west of here, to Harpers Ferry, for the accommodation of heavy freight trains running east. The distance is about 25 miles and the projected road will give a gradual down grade all the way.

The new line will run about two miles north of Martinsburg and through the suburbs of Shepherdstown. The old line will be used for passenger trains.

A general passenger and freight service will be put on the road.

TO USE SILVER BRICKS.

They Will Be Laid in Pickering's New Addition to Represent Newspapers.

Silver bricks will be laid in one of the new buildings rapidly approaching completion. On Saturday noon they will be laid and there will be appropriate ceremonies.

For several months Pickering, the furniture man, has been building a large addition to his already mammoth store. The walls will be completed by Saturday noon, and as a fitting memorial of the success Pickering has attained through advertising he will have a silver brick for each Pittsburgh daily newspaper, and one for his advertising manager, laid high in the wall on the Penn avenue front.

The bricks will be of the same size as a clay brick and will be laid with the edge to the street, where they can be plainly seen by all who know where to look for them. Each one is appropriately engraved with Pickering's name, why it is placed in the wall, and with the name of the newspaper.

After the ceremony, which will be participated in by representatives of all of the newspapers, there will be an event of great interest to the public, as 100 large paper balloons will be let loose. To 20 of them will be attached envelopes containing orders for various articles of furniture. These orders will be honored on presentation at Pickering's, Penn avenue and Ninth street.

INCREASED CAPITAL.

Valley Trust Company Held Its Annual Meeting Yesterday—Officers Elected.

The capital stock of Valley Trust Company was yesterday increased to $250,000 and the surplus and undivided profits of the institution now amount to $73,000. After the increase of the capital stock Messrs. Leopold Vilsack, E. J. Frauenheim, E. J. Vilsack and Charles A. Fagan were elected to membership on the board of directors and the following officers were elected:

President, Leopold Vilsack; first vice president, W. R. Kuhn, second vice president, J. G. Vilsack, John R. Rush, the retiring president, and Joseph Keeling, the retiring vice president, continued their membership on the board of directors.

The company recently bought the property at the northwest corner of Penn and Sheridan avenues for $85,000 and it is the intention to begin the erection of a modern bank building at this point after the expiration of the lease of the present tenant. Until the completion of the building the company will continue to occupy its present quarters at No. 6010 Penn avenue.

EIGHT ESCAPE FROM PRISON

Criminals Turn Combination Lock on County Jail at Parkersburg.

ONE OF THE MEN RETURNED

[SPECIAL TELEGRAM TO THE GAZETTE.]

PARKERSBURG, W. VA., July 2.—Eight prisoners escaped from the county jail tonight by using a broomstick, a mirror and a piece of wire to turn the combination lock from the inside.

Martin Keeler, held for postoffice robbery, did the work. One of the prisoners who escaped returned and gave the alarm.

Among those who escaped were John Kule, indicted for murder, and George Fowler, his alleged accomplice; two postoffice robbers and Wesley Cuffence, charged with impersonating a government officer by representing himself as ex-Pension Commissioner Evans' son and demanding fees to get pensions increased.

HUNTED A HORSETHIEF.

Sheriffs of Three Counties Pursued a Fugitive Without Success.

OIL CITY, PA., July 2.—(Special.)—A hunt for an alleged horse thief, in which the sheriffs of three counties joined and which carried the pursuers into parts of Venango, Crawford, Forest and Clarion counties, took place today, and the fugitive is still at large.

On last Friday a stranger, driving a fine sorrel attached to a buggy, came to Oil City and attempted to sell the outfit at a price so small that he was suspected of stealing it and was placed under arrest. No evidence being secured he was released. Today Oil City authorities were informed that the horse and rig had been stolen from a doctor near Akron, O.

SAPOLIO

Eleven Little Youngsters Had a Picnic in the High Weeds.

There were several picnics in and about Pittsburgh yesterday. There were public school picnics, Sunday school picnics, family picnics and one very exclusive picnic. To attend some of them the participants had to get up early and go far on trains; others went on a boat and the pleasure seekers at another had a long ride on trolley cars. The exclusive picnickers went as did the old negro parson. When he appeared at the house of one of his flock he was asked: "Why, Parson Brown, I'se powerful glad ter see yo'. How did yo' come, by ther keers or by private conveyance?" The reply was, "I come by private conveyance, sister; I walked."

There were only 11 at this exclusive picnic, and there was nothing but pleasure for all of them. The oldest of the party was not over 12 and the youngest was about as many months. The others were of the ages between.

The picnic was held on the high bank of the approach to the Point bridge, opposite the end of Duquesne way. The children were those of the Point who probably have never heard of Highland or Schenley parks, and whose sole and only view of green fields is of the weeds and grass along this bank.

There in the high weeds the little children had their picnic. For a tent they had an old umbrella. They had games of different kinds, they played house and varied their amusement by rolling down the bank. There was no other picnic yesterday where there was so much innocent amusement.

About 3 o'clock they had dinner. There were several baskets of picnic food, and from the oranges and bananas shown the parents must have assisted in preparing for the pleasures. Eleven little dirty children went to their homes late in the afternoon, tired out, and last night there were probably 11 dreams of the pleasures of the day before.

REFERENDUM HAS MANY ADVOCATES AMONG LAWYERS

Judge White Would Consider Reference of Laws to People.

HIS PROPOSAL APPLAUDED

State Bar Association at Cambridge Springs Elects Officers and Delegates and Holds Annual Banquet. Supreme Court Again Criticised.

By JAMES HARTLEY MERING,
Staff Correspondent.

Cambridge Springs, Pa., July 2.—Judge Harry White of Indiana held the attention of the State Bar association at the afternoon meeting, when he introduced a resolution to continue the special committee on constitutional amendments and that it be directed to consider the advisability of an amendment to the constitution providing for the initiative and referendum in certain cases. The applause which greeted it shows an astonishing tendency toward the doctrine to take certain laws out of the hands of legislators and refer them direct to the people.

Judge White said he didn't commit himself to this policy, but that the association should become familiar with it. Some may think it populistic, but he did not. He said Illinois was considering the propriety of such a constitutional amendment.

"There is a discontent among the people," said the judge, "and, shut our eyes to it as we will, denunciation of the legislature finds utterance, sanction, and sympathy in very high quarters. It is wise for us to realize this discontent among the people. Some say corruption exists; I don't say that. We have all heard whispers that suspicion exists that unfair measures have been adopted that resulted in bills not in the interest of the people. Our president even says so in his caustic address. I am just talking aloud to myself, not advocating this. However, it is wise to consider."

Munson Elected President.

J. Ross Thompson of Erie moved that a committee of five be requested to consider the privisions of the act of general assembly, passed at its last session, relating to the retirement of judges permanently disabled and report what action, if any, is proper to be taken to carry into effect its requirements.

The following were appointed delegates to the American Bar association: J. P. S. Gobin, Lebanon; Laird H. Barber, Carbon; Lucian H. Alexander, Philadelphia; alternates, William H. Keller, Lancaster; Homer Green, Wayne, and William H. Luttrell, Philadelphia.

Attorneys John Marron, E. E. Kiernan, George H. Calvert, C. S. Crawford, S. S. Mehard, Gibson D. Parker, J. Boyd Duff, Rowland R. Ralph, William R. Blair, R. H. Jackson, Alex Gilfillan, William J. Brennen and D. F. Patterson were the new members elected from Allegheny county.

The Hon. Lyman D. Gilbert of Dauphin, nominated C. Larue Munson of Lycoming county for the presidency. This was seconded by the Hon. Rodner Mercur of Bradford, son of the former chief justice, and Mr. Munson was unanimously chosen.

Mr. Mercur presented the following names from the committee on nominations and they were elected: Vice presidents, John Stewart, Franklin; Joseph C. Buchher, Union; J. B. Colahan, Jr., Philadelphia; Charles P. Orr, Allegheny; Henry Leer, Clarks; secretary, William H. Staake, Philadelphia, treasurer, William Penn Lloyd, Cumberland; executive committee, George B. Orlady, Huntingdon; James R. MacFarlane, Allegheny; Montgomery Evans, Montgomery; Sidney R. Miner, Luzerne; William Wrighter Fisher, Philadelphia; William H. Keller, Lancaster; James Sharp Wilson, Beaver; Paul H. Gaither, Westmoreland; Harry J. Steele, Northampton; Watson D. Hinckley, Warren; William Alexander, Franklin; Victor Guillou, Philadelphia; George M. Gordon, Allegheny; Robert E. Umbel, Fayette; Alonzo P. Searle, Wayne; M. Hampton Todd, Philadelphia; William A. Wilcox, Lackawanna; Joseph M. Force, Erie; Charles H. Bergner, Dauphin; A. M. Holding, Chester, and John C. Ingham, Bradford.

Annual Banquet Held.

The executive committee will meet again December 30 at Philadelphia, when the president will appoint special committees.

Three hundred members filled the dining room in the Hotel Rider at the annual banquet tonight. The Hon. William U. Hensel was toastmaster. The following toasts were responded to: "The United States," the Hon. William Wirt Howe; "Lawyers and the Law," J. Ross Thompson; "People of Pennsylvania," A. P. Burgwin, Pittsburgh; "The Junior Bar," William Schaffer, Allegheny members, Charles P. Orr, George B. Gordon, Judge R. S. Frazer and others, were compelled to add a few impromptu remarks to the toast list. The Pittsburgh Legal quartet captivated the assembly with a number of songs, beginning with "We Meet Again Tonight, Boys" and ending with "Good Night."

The opposition of Allegheny and Philadelphia county members to the act making a compulsory non-suit a bar to recovery in another suit for the same course of action, and another scathing denunciation of the supreme court by Henry J. Steele of Easton, which wits applauded even by the judiciary present, were features of the third day's session.

William Macrum of Pittsburgh and District Attorney John Weaver of Philadelphia led the opposition to the non-suit act. The majority of the lawyers opposed it, and the association, regarding it as giving undue advantage to large corporations, refused to recommend it to the legislature.

Mr. Steele read a paper on "The Right of the Municipality to Abate a Nuisance on the Streets Without the Preliminary Action of the Courts." It was a study of the case of the Easton Passenger Railway Company against the city of Easton, in which the city passed an ordinance requiring all passenger railway companies to submit plans to municipal authorities before making improvements. This company ignored the ordinance and the city removed the tracks. The court below refused the company an injunction, and Mr. Steele says:

"On appeal the supreme court directed a perpetual injunction to issue against the city in an opinion characterized more by a vigorous denunciation of the city authorities than by judicial reason or authority."

LOCAL NEWS OF GREATER PITTSBURGH

The Oil Stove Exploded—The kitchen of the house of George Foster of Melrose was destroyed yesterday morning when the oil stove exploded. No person was hurt.

Passed Away in Jail—John Smith, whose name is supposed to be Frank, committed to jail on June 27 because of drunkenness, died in the institution early yesterday morning of heart failure.

Went Over Embankment—A pair of horses owned by James Robinson of Homestead went over an embankment near the Browns bridge yesterday and one of the horses was killed by being caught under the heavy wagon.

Firemen to Hold Tournament—The volunteer firemen of 24 boroughs about Pittsburgh will have a tournament at Kennywood park on Saturday. The proceeds are for a fund for firemen, who may be disabled in performance of their duty.

Army Post at Arsenal—Allegheny arsenal ceased to exist yesterday afternoon and is now nothing but an army post. A lieutenant and 20 privates arrived yesterday from Fort Porter, N. Y., and took charge. All government property has been shipped or disposed of.

Steamfitters' Officers—The Pittsburgs union of steamfitters has elected the following officers: Charles McNeil, president; William Condon, vice president; George Hayward, recording secretary; Gus Deering, financial secretary; Thomas Kane, treasurer; E. A. McGinn, business agent.

Stove Dangerous Missile—Mrs. George Smith of No. 715 Third street, Allegheny, did not make any fuss when her husband threw the sewing machine at her, but when he attempted to hurl the cook stove she resented it, and had him arrested. Yesterday he was fined $10, but she paid the fine.

Girl Charged With Perjury—Edna Wilson, colored, 18 years old, was committed to jail last night on a charge of perjury by Alderman W. F. Walsh on the information of Clarence Jackson, colored. It is alleged that she sued Jackson for annoying her, saying that he wanted to marry her. Jackson denied this.

Street Car Caused Mix-Up—A street car struck a garbage wagon at Penn avenue and Eighteenth street yesterday morning and threw it over on a huckster wagon. J. Webber, the huckster, was injured and his wife had her wrist dislocated. George Fass and John Kelmeyer were knocked down, but were little injured.

Bad Sanitation Is Blamed—John Burke, 3 years of age, son of Andrew Burke, died yesterday morning at his home, No. 164 Cass avenue, Allegheny. At No. 162 of the street a child is sick and three have recently died. Three Italian laborers living near are sick. The unsanitary condition of the neighborhood is said to be the cause.

Munhall Bonds Authorized—An ordinance was passed by Munhall council last night authorizing the issuance of bonds amounting to $70,000. The money is to be used as follows: $25,000 for a water system; $20,000 for a municipal building; $6,075 for fire equipment, and the balance for real estate. The municipal building will be erected near the corner of Eighth avenue and Andrews street.

Agreement on Coal Prices—Nearly all of the independent coal operators have agreed to maintain the minimum prices held by the Pittsburgh Coal Company and the Monongahela River Consolidated Coal and Coke Company. The prices fixed are on coal aboard cars at the mines, $1.45 a ton for 1¼-inch coal, $1.35 for ⅝-inch, $1.25 for run-of-mine, $1.05 for nut and slack and 85 cents for slack.

Fatal Spot for Family—The body of Austin Jordan was found on the tracks of the Pittsburgh & Lake Erie railroad yesterday morning. It is not known how he came to be killed, but he was at a picnic the day before and came home very late. Jordan was 24 years of age. Eight years ago he lost an arm near where his body was found. A year later his father lost his legs. A year ago a brother was killed there.

Machinist Found Dead—T. S. Murphy, aged 55 years and married, was found dead in his room at the boarding house of R. H. Douglass, at No. 1349 Washington avenue, Allegheny, at 2 p. m. yesterday. He was a machinist at the Pressed Steel Car Company's plant in lower Allegheny. He was not feeling well yesterday morning and did not go to work. He was subject to epilepsy. He had a wife in Altoona.

Fatal Fall from Window—John Spratt, 34 years of age, died in Mercy hospital yesterday morning at 2 o'clock of injuries received a short time before from falling out of a window. Spratt was a hostler for H. I. Neaman, a liquor dealer at No. 7310 Hamilton avenue, and slept above the store. He was in the habit of going to sleep in a chair, and it is supposed got up suddenly and fell from the window.

Aged Man Shoots Himself—John Winebrenner, 54 years of age and single, committed suicide yesterday morning at his boarding house, No. 1408 Sedgwick street, Allegheny, by shooting himself in the head with a pistol. He has not been in good health for some time, and was obliged to give up his work in the white lead works. He had a bank book showing a balance of $106 to his credit and $424 in cash, in a trunk.

Had a Narrow Escape—The shantyboats of Stanl Runski and Nicholas Moluski sank in the Monongahela river near South First street yesterday morning and the families of both men narrowly escaped drowning. During the recent heavy rains both shanties began to leak, and the men were engaged in caulking the leaks. Skiffs were procured, and after considerable trouble, the families were rescued just before the shanties went down.

Charges Son With Theft—Hubert Pirrung, a 16-year-old boy, was committed to jail by Justice of the Peace Jacob Steen of Lower St. Clair township yesterday on a charge of larceny made by his father. He claims that his son broke open a trunk and stole $20 from him several days ago. Young Pirrung ran away from home after the theft and went to Wheeling, where he was captured by a constable and brought back.

Diphtheria's Awful Work—The family of Harry Phillipi of Third street, Braddock, is sorely afflicted with diphtheria. Harry, a 3-year-old son, was buried yesterday, having fallen a victim to the dread disease. The father and the only remaining child are also seriously ill with the same disease and the mother is convalescing after a long illness from the malady. The attending physician has but little hope for the recovery of the father and child. The house has been quarantined by the Braddock board of health.

Two Stories Told—Charles Porter of Uniontown, Pa., complained to Supt. John McAleese of the police bureau last night that he had been robbed of $180 in a house at No. 528 Third avenue by Sadie Oliver and May Russell. Inspector Fred Will investigated the case and placed these women under arrest on a charge of being suspicious persons. The girls say that Porter gave them the money in amounts of $20 at a time. This is denied by Porter. The women will be arraigned for a hearing this morning before Police Magistrate Bernard McKenna.

Humane Society Meeting—At the regular weekly meeting of the Humane society yesterday Charles Lockhart was elected to life membership in the society. Contributions and fines reported during the week were as follows: Pittsburgh Ice Cream Company, $10; Thomas Archer, $3; A. Riccordino, $5; Clark Bros., $5; Allegheny Transfer and Storage Company, $15; Joseph H. May, $5; L. Marsick, $5; H. Drees, $10; H. C. Howard, $5; Agust Loch, $5; Diamond Mattress Company, $3; Marshall Bros., $5; Mrs. William E. Schmertz, Jr., $2; fines from Alderman P. F. Oyer, $80.

Employes to Celebrate—The employes of the Westinghouse interests in the Monongahela valley will be given plenty of time to celebrate the Fourth. The plants at East Pittsburgh and Wilmerding will suspend operations tonight and will not resume again until Monday morning. The plants of the Carnegie Steel Company, American Steel and Wire Company and other big mills at Braddock, Homestead and Duquesne will only suspend operations for one day. They will shut down early tomorrow morning and resume again at 5 o'clock Saturday morning. The rush of orders is said to be the cause of the short shutdown in most of the plants.

Rosenthal and Fried Summoned.

NEW YORK, July 2.—W. Wickham Smith, special attorney general appointed to investigate the silk importation frauds at this port, today issued a summons against A. S. Rosenthal and Samuel Fried of Rosenthal & Fried, to answer to an action by the government to recover $1,500,000. This sum, the government claims, is due because of undervaluation of imports with forfeitures.

William Vance Hays.

William Vance Hays, one of Findley township's most prominent citizens, died at his home June 29, 1902, in the 78th year of his age. When quite young his father, James Hays, Sr., purchased the old Hays homestead near what is now Hays station, on the Panhandle railroad. Here Mr. Hays received such educational advantages as the public schools of the neighborhood furnished. Mr. Hays was married to Miss Emily Lorain of Robinson township, Allegheny county, Pa. Soon after their marriage they moved to Findley township and commenced the work of founding their beautiful home on a farm conspicuous in the annals of the neighborhood as the birthplace of John Morgan, 1776, the first white child born in the township.

Mr. and Mrs. Hays reared and educated a family of three children: Joseph P., Lewis C. and Allena Grace, wife of Levi J. Stewart.

Because of his very high character, discriminating judgment and keen business foresight, his counsel was sought by all classes of his neighbors, and especially by the young and inexperienced, to whom his kind words and encouragement, not infrequently accompanied by material assistance, were ever a benediction. Although deeply interested in the affairs of government and a life-long Democrat, he refused steadily all political preferment, save such active to his township only as he deemed an imperative duty of good citizenship. From time to time he served with singular good judgment and fidelity all the important township offices in the gift of his neighbors. His judicial turn of mind and high sense of right made him a most acceptable justice of the peace, an office he held for many years. Mr. Hays was a consistent member and liberal supporter of the Valley Presbyterian church. His Christian life comported with his well rounded character—thoughtful, generous, unostentatious, charitable to the erring and lowly and always prompt to obey any call to duty.

R·I·P·A·N·S

For twenty years I had been a sufferer from bronchial troubles accompanied with a hacking cough. I at times suffered from extreme nervous prostration. About four years ago I began taking Ripans Tabules; and since then I have used them pretty constantly. I rarely retire at night without taking my Tabule, and I find they keep my digestive organs (which naturally are weak) in good order, and they also allay my tendency to nervousness and make me sleep.

THURSDAY, JULY 3, 1902.

FOURTEEN PAGES.

Taking an Unfair Advantage.

"No transfers on the Fourth of July" is taking an unfair advantage of the public. This order by the Pittsburgh Railways Company means that thousands of people must pay two or three fares to Schenley park instead of the ordinary one fare that is ample. Of course the excuse will be that conductors have no time to issue transfers to so many people as will be traveling on Friday, but it is a poor excuse. For that day special slips could have been prepared to obviate the time-consuming punch work. And of all days, getting to the park should have been made easiest for this holiday.

The traction interests which propose to make the people in this manner on Independence Day are the same that do not pay any revenues to the city for the immensely valuable privileges they enjoy. This fact cannot be forgotten by the citizen who is compelled to produce his second, or even third nickel, for his ride to the park. If the coin has to be multiplied for members of his family he is likely to feel doubly imposed upon. It is an imposition, and the traction managers will be wise to rescind that extra fare order while there is yet time.

Achievements Past and Future.

A number of important addresses were delivered before the various sections of the Association for the Advancement of Science yesterday. That of Dr. Calvin Woodward was notable for the fact that it was the first public statement of the terms of the airship contest at the St. Louis exposition next year—a contest that the speaker discussed as of great scientific import.

Another address that will attract attention was that of O. P. Austin, chief of the bureau of statistics at Washington. Mr. Austin is an optimist, but there is not a statement in his speech that is improbable. He spoke by the card of what has already been achieved in this country, and he was well within the bounds of reason in his predictions for the future. The country in which we live is the richest in natural resources of any upon the earth, and it is peopled by the most enterprising race, heterogeneous though it be in its origin.

An Educational Week.

These must be the days foreseen by Daniel, who said: "Many shall run to and fro, and knowledge shall be increased." Never were there so many conventions of one sort or another as there are in the present time. Never were the various investigative and educational forces so active. Never were the seekers after knowledge so alert to grasp the secrets of nature and to put them to use, and never were they more willing to impart to other seekers the knowledge they have discovered.

The runners to and fro in the search for knowledge have traveled in our direction, and no fewer than three educational bodies are holding meetings in this community this week. We have the sessions of the American Association for the Advancement of Science, the annual convention of the Pennsylvania State Educational association, and the meeting of the Eastern Manual Training association. All of these bodies are finding Pittsburgh a pleasant place of meeting. The weather changed for the better in time to make the outdoor gatherings enjoyable, and it is not too warm for comfort indoors. Pittsburgh feels that it is doing the fair thing in the weather line for its visitors, and is quite confident that the attractions it has to offer justify its selection by so many organizations as a meeting place.

Great benefit results from the annual interchange of ideas by teachers and students. The delegates add to their own knowledge and to the sum of the general information. It does them good mentally as well as physically to meet each other, for as "iron sharpeneth iron, so a man sharpeneth the countenance of his friend."

Putting On Holiday Attire.

Counting the work that will be done both night and day the city has only twenty-four hours in which to complete the elaborate preparations that are being made for the celebration of Independence Day tomorrow. This means that there is very much to be done in the last hours, but the seemingly perfect organization effected by the various committees in conjunction with the work of the city authorities and the citizens themselves indicates that nothing will be left undone to make the occasion a memorable one in the history of Pittsburgh. There is promise that one of the largest crowds seen in this city for many years will gather from the territory within the radius of a hundred miles or more of Pittsburgh. The chief magnet drawing the people will, of course, be the presence and address of President Theodore Roosevelt, who will be the guest of the city. The preparations made for giving the people a chance to see and hear the chief magistrate have been admirably arranged. The location of the speakers stand in Schenley Park is at the base of a natural amphitheater that will accommodate many thousands. In all the arrangements made the comfort and safety of the city's distinguished guest has been first considered, and the people, bearing this in mind, should cooperate with the committees and the police so that there may be nothing to mar these plans. The provisions made for the amusement and entertainment of the crowds apart from this central feature of the day have been elaborate and promise a day full of varied and exciting pleasure.

The authorities are determined to have a clean city in which to receive the President and their commendable brushing up of the streets along the route of the parade should be supplemented by the people in decorating their dwellings and places of business. Old Glory should be given full chance to display her beauties tomorrow. After all is said and done, this should be the keynote of the city's celebration—loyal, enthusiastic patriotism. With gratitude to the Creator for the past years of growth and development of the nation under the benign influences of liberty and independence and a grateful prayer for the future of the country we love so well the people of this great city should find occasion for great rejoicing in the historic celebration tomorrow.

Action is Demanded.

While the testimony taken before the committee yesterday concerning the "yellow book" was less sensational than that of some previous days, it was significant enough. It was of a character to justify the motion adopted urging the prompt passage by councils of the resolution to dismiss the director of the department of public safety. Supt. McAleese's admission that he passed the book in his bureau was of more force than his disclaimer of having indulged any threats, for the policemen who were on the stand averred they paid their assessments through fear of dismissal if they did not. The "yellow book" case is quite a complete indictment of the political methods in vogue. It calls for action prompt and effective.

Not a Billion-Dollar Congress.

A disposition is manifest in some quarters to refer to the present congress as "a billion-dollar" congress. That is a designation which came into use a few years ago, and some critics and commentators love to use it now, especially if they can by intimation accuse the party in power of extravagance.

But let us be fair, even to congress. The appropriations amount to about $800,000,000. Chairman Cannon, of the house appropriation committee, who has been officiating as watchdog of the treasury, figures that the appropriations total up to a few thousand over $750,000,000, not including the Isthmian canal, public building and river and harbor contracts. He points out, too, that for the fiscal years 1900-01 more than $113,000,000 was applied to the sinking fund—a sum greater than the whole amount applied to the extinguishment of the public debt during the fiscal years from 1891 to 1899 inclusive.

It will be seen that if the country is spending a great deal of money it has the money to spend, and at the same time it is reducing taxation and paying off the public debt. The United States is really economical in its expenditures, for it must not be forgotten, when the cry of "a billion-dollar congress" was raised, Thomas Brackett Reed retorted that this was a billion-dollar country. And the present congress, with a much bigger country than the United States was then, has appropriated considerably less than a billion dollars.

Mr. Fow and the Constitution.

The Hon. John H. Fow, a former Democratic member of the legislature from Philadelphia, and now a member of the state committee of the Union party, raises a constitutional point that has a bearing on this year's election. Mr. Fow, in a published statement, says that the constitutional amendment with regard to registration, although merely permissive as to law for personal registration, has already repealed the provision: "No elector shall be deprived of the privilege of voting by reason of his name not being registered."

Mr. Fow holds that the elimination of the clause from the constitution "means that no man can vote at the election next November without having his name on the registry list."

We think Mr. Fow is in error. There is no change made in the qualifications of electors. These will remain as provided in the constitution until the legislature acts. If a man can prove to the satisfaction of the election board that he possesses the necessary qualifications as to age, citizenship of the United States, residence in state and election district and payment of tax there is no power, in the absence of legislation establishing a registration qualification for cities, to deny him the right to vote. The elimination from the constitution of the words quoted by Mr. Fow removes a limitation of the legislative power, but does not in itself make registration a necessary qualification for voting.

Nevertheless as the presence of the voter's name on the registry list establishes his right to deposit his ballot, it is advisable that each voter attend to his own business to the extent of seeing that his name is properly enrolled.

Significant Increase.

Much attention is given the tremendous earnings of the United States Steel Corporation during this year. The statement for the quarter ended June 30 showed an increase over the corresponding three months of last year of more than $11,000,000. This, of course, reflects the prevailing prosperity of the country, but it does more. A careful analysis of the increase in earnings for the three months just passed with the first quarter of this year will lead inevitably to the conclusion that the difference has been principally in the ability of the railroads to care for the traffic offered them.

During the last three months of last year and the first three months of this year the output of Pittsburgh mills was greatly restricted by the inability of the railroads to move cars. The Gazette presented figures, obtained at great pains, to show what that restriction amounted to. The statement of earnings of the United States Steel Corporation is confirmatory of these statistics. Since the first of April the railroads have been doing better than during the earlier months of the year. The United States Steel Corporation has also been doing better. For nine months demand has been in excess of supply, and for six months of that time the supply was reduced by failure of the railroads to meet the situation.

Thus the increased net earnings of the big steel company are gratifying, both as indicating a continuance of general prosperity and the betterment of shipping facilities in the Pittsburgh district. In the abstract they are to be marveled at, for they make a new record in the earning power of industrial concerns.

Venerate the Flag.

Just at this moment it is well for all to remember the act of assembly providing a penalty for misuse of the American flag. The bill was passed at the session of 1897 and is to be found in the pamphlet laws of that year, being No. 27 in the volume. The law reads as follows:

An act to protect the American flag from insult and degradation.

Section 1., Be it enacted, etc., That any person or persons who shall wilfully and maliciously take down, pollute, injure, remove or in any manner damage or destroy any American flag or flagstaff which now or hereafter may be put, erected or placed on any private or public building or place, or in any public or private highway or any public or private grounds, or use said flag for advertising any business or trade whatsoever, shall be guilty of a felony, and upon conviction thereof shall pay a fine not exceeding $500, or suffer imprisonment not exceeding six months, or both, at the discretion of the court.

Approved the 29th day of April, A. D. 1897. DANIEL H. HASTINGS.

Judge Harry White's suggestion for a committee of the state bar association to consider and report upon an amendment to the constitution providing for the referendum in legislation is worthy of attention. No harm can come from a general discussion of the subject, and it is possible benefit might be derived from the adoption of a limited referendum, confined to certain classes of legislation. The principle is now in force in respect to amendments to the organic law.

So far the mosquito has been too busy getting ready for his July and August campaign to give much attention to the efforts on the part of science to destroy him.

Senator Bailey's apology for his conduct is all well enough, but the country is getting tired of having to apologize for ruffianism in its legislative halls.

There seems some doubt as to Mr. Bryan's future political course, but the consensus of opinion is that it will follow the middle of the road.

Science is not only being advanced hereabouts this week, but according to the opinion of some of its friends it amounts to a regular boost.

Even Boston has been surprised into attentiveness by the non-partisan Democratic platform enunciated at Erie. It is such a peculiar thing!

But, then, the magazines are sure to come in later with the coronation reflections that failed to connect with the current news.

And then, too, King Edward's fortunate recovery may be expected to figure to some extent in the Fourth of July oratory.

HAS GOOD EXCUSE FOR BAD THOUGHT

Mobs at Rush Hour on Brooklyn Bridge Suggestive of a Lynching.

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square,
NEW YORK, July 2.

It was not strange that that colored woman the other day thought there was a lynching at the entrance to the Brooklyn bridge. She had come to it at the "rush" hour in the afternoon. The disgraceful scenes of turmoil to which New Yorkers have become accustomed attack this simple negress from the south as something terrible. There was only one thing to warrant it, so far as she knew, and that was a lynching. What severer comment could there be on the conditions at the bridge than this? This has been the frequently expressed opinion in this city today, brought forth on account of the proposal by William Barclay Parsons of a plan to relieve the congestion, and to enable people living in Brooklyn to get to their homes without being compelled to go through a rough and tumble fight every afternoon. Mayor Low approves Mr. Parsons' suggestion, and it may be carried out. It is the first time the chief executive has declared himself favorably impressed with a plan to improve bridge conditions, although a dozen, at least, have been offered in the past few years. The idea of this last plan in the main is to put the whole business underground. This has been suggested before in many ways, but never with so much particularity as in the plans examined by the mayor and the rapid transit commission yesterday. Unfortunately, there is little in the suggestion to promise relief immediately. The changes would take years to make, and would be contingent to some extent on the building of bridges and tunnels across the East river. What is demanded is something to relieve the disgraceful conditions right now. The number of persons having occasion to cross the bridge every morning and afternoon is increasing daily, and in spite of the discouragement offered to prospective Brooklyn residents by the rush and crush in Park row. The cost of the change is the least consideration, for it is estimated at less than $3,000,000, a mere bagatelle when the benefits expected are considered.

Coney Beautified but Spoiled.

Now that Coney island has a regular park, the question arises whether the frequenters of old Coney would not rather go up and down the Bowery, where the "steeplechase" and merry-go-rounds are, than be compelled to keep off the grass in a park under the watchful eye of the city police. The park is a beautiful piece of artificial landscape, of course. It has been carefully laid out, graded, trimmed, and intersected with numerous gravel walks. But, after all, one can go to a park in Manhattan, and it seems hardly worth while to travel to Coney Island to find one's self in a pleasure ground where "sitting up" is not allowed. The park of 70 acres at Coney Isuand is beautiful with a splendid view of the Atlantic from every part of it, but it is a self-evident fact that most of the habitues of Coney prefer the old-fashioned sands down by the iron Pier, where the fakirs and bathhouse men and photographers hold high carnival, to the rather stiff and straitlaced park, half a mile away.

All Devotees of St. Patrick.

It is no news to Pittsburgh femininity that green is the prevailing color this season. Fashion reaches Pittsburgh as quickly as any city on this fair continent, and no doubt there are green veils, neckties, shirt waists, ribbons and hosiery there, just as in New York. Still, I may be permitted to remark that the throng of shoppers and afternoon promenaders along Fifth avenue, Broadway and Twenty-third street would look like a St. Patrick's day procession but for the fact that the masculine parader under "the hat my father wore" is absent, while the dainty summer girl, in a flowing green veil, is repeated a dozen times in every block.

Summer Exodus Despite Coolness.

The number of residences in Fifth avenue and the cross streets where fashionable people live that are boarded up for the summer is greater than one might think without paying especial attention to the matter. In spite of the unwonted coolness of the summer, there has been the usual exodus from town of people who do not care to be found in New York as the Fourth of July draws near. Many went to Europe for the coronation, but a great many more are in country homes within a radius of 100 miles, while a large proportion of the total is at Newport. This makes little difference to the tradesmen that depend for business chiefly on the moneyed class. All the merchants know is that there are small supplies needed at houses where the weekly order was tremendous during the town season, and that the volume of business has contracted painfully in the last few weeks. Of course it could not be expected that wealthy families would remain in town for the benefit of their grocer, butcher or baker, but it is a sad truth that their going away makes a great difference in the receipts of tradesmen who supply daily necessaries. Florists, jewelers, dressmakers and drygoods merchants do not feel it, because their wares are sent to their regular customers wherever they may be, if they are within reach of New York at all.

Two More Pittsburghers Sail Away.

Miss Nancy Carnegie and E. K. Bennett are Pittsburghers sailing today for Southampton on the St. Louis, in addition to those mentioned in this morning's Gazette. They had among their fellow-passengers John D. Rockefeller, Jr., and his bride, who are beginning a belated honeymoon trip to Europe. Mrs. Rockefeller was Miss Aldrich, a daughter of Senator Aldrich. John D. Rockefeller, Sr., came all the way from Cleveland to bid the couple Godspeed. "Pat" Sheedy, who does not call himself a gambler nowadays, but says he is a merchant, also sailed on the St. Louis. He said he was going to Buenos Ayres to look after some emerald mines in which he has money.

Unfurling Old Glory.

One of the indications of a goodly celebration of the Fourth which the ordinary observer sees as he moons about New York is the number of flagstaffs going into place in the fronts of new skyscrapers. From the Battery to Harlem, wherever there is a new building in process of erection one sees that flagpoles are fixed into sockets ready for the unfurling of "old glory" on Friday. On the great Macy building in Herald square, as well as on its nearly equally gigantic neighbor to be occupied by the Saks concern, there are scores of flagpoles. Workmen have been busy with them all day. By tomorrow night the bright new flags themselves will be bent to the staffs, so that they can be raked out to the breeze on Independence Day. There will be a brave display of bunting all over New York on the Fourth if the weather is anything like as fine as it has been today. Father Knickerbocker is preparing for a holiday, and he intends that it shall be a good one.

Sad Tale on Philanthropical Burke.

Portraits of John M. Burke, the philanthropist who is giving his fortune to charity, show that he resembles Chauncey Depew. Mr. Burke is 80 years old today, it is said, and spent the day in bed at his home in West Forty-seventh street. It is here that he ceases to be like the genial senator, even if he resembles him facially. Who can imagine "Our Chauncey" going to bed for a day, even at 80 years of age?

Where Ping-Pong Comes High.

Ping-pong has been scheduled here at its relative cost compared with billiards and pool. A walking advertisement in Herald square this afternoon and evening held aloft a sandboard which told the world that at a certain establishment in the vicinity it could play billiards at 10 cents an hour, ping-pong at 50 cents and pool at 60. Why ping-pong should be more expensive than billiards, and pool than either, does not appear. But there are the figures.

Burglar Uses His Pistol.

One of those appalling experiences that are not impossible to any family occurred in Brooklyn this morning, when a man was shot down in his bedroom by a burglar, who contrived to escape. The case is a peculiarly sad one. The victim was awakened by his wife with the assertion that a burglar was in the room. In less than a minute the husband was dying with a bullet in his head and the burglar was firing from the house. The police believe that an organized gang of midnight thieves are operating in Brooklyn. Pittsburgh had a similar case only a few months ago, and can realize what excitement has been caused in this city by this morning's crime.

Mr. Marquis Will Feel at Home.

An evening paper has this: "The Rev. John A. Marquis of Pittsburgh is to come to the Fifth Avenue Presbyterian church of Manhattan. It won't be much of a change. The rolling clouds of the smoke of bituminous coal that will obscure his vision and blacken his linen will make him think that he is at home as soon as he reaches here."

Gotham's Queer Idea of Pleasure.

A lot of New Yorkers went over to Good Ground, L. I., this morning to listen to the proceedings in the case of Louis Disbrow, charged with the killing of Clarence Foster and "Dimp" Lawrence. It was not that the New Yorkers had any personal interest in the case. Just simple metropolitan curiosity, which exceeds that ordinarily found in a "jay" village, took these people over to Good Ground, although, as one of them declared to me, "the trip over there is very pleasant on a bright day." Rather a ghastly idea, it seemed to me, to go to a hearing in a homicide case for a day's outing.

The Sloane-Field Nuptials.

New York will send 120 guests to Lenox on Monday to be present at the wedding of Mrs. Lila V. Sloane and W. B. Osgood Field on Tuesday. This is one of the important weddings of the month, and is particularly interesting to Pittsburghers, because these young people are well known to society people of Pittsburgh. After the wedding on Tuesday Mr. and Mrs. John Sloane will give a lawn fete for Ambassador Porter. The guests will include the attendants at the wedding. Mr. Sloane has engaged the Tenth regiment band of Albany to provide music for the occasion.

Six Weeks' Peace for Molineux.

Roland B. Molineux may possess his soul in patience in the Tombs for six weeks at least. His attorney, Bartow S. Weeks, and Mrs. Weeks sailed today for London on the steamship Menominee. They are going on a vacation. Mr. Weeks said that nothing would be done in the Molineux case until the middle of next month, when he hoped to settle it speedily. Molineux takes it all coolly, and those who have seen him lately say he has settled down to life in the Tombs as if it were the most natural thing in the world to be shut in a stone cell for two years or so.

Three More Tammany Men Headless.

Mayor Low today chopped off the official heads of three Tammany officeholders who have had a pretty good thing of it for a long time. They were members of what is known as the "change of grade commission," one of those pleasant little boards which can do as much or as little work as they choose without anyone being the wiser. There had been no warning of the coming decapitation, as the mayor's original intention had been to abolish the commission, which has been generally referred to as a sinecure among politicians. He gave the Tammany commission until May 1 to finish up their work. They found they were unable to finish their work in that time, and asked for an extension of time to July 1. This the mayor granted, and when they found they could not finish then, they asked for still another extension. The mayor refused this, and without further ado he appointed a new commission, consisting of two Republicans and one Citizens Union man.

Prosecution Sometimes Persecution.

Here is the cruel way things go in the Ghetto sometimes. A corps of inspectors attached to the street cleaning department today arrested 20 old women, who, they alleged, were selling drygoods and other articles of wearing apparel and food from baskets in Rivington, Sheriff, Willett and Pitt streets without first obtaining licenses. They were taken to the Essex market court, where they were charged with obstructing the streets. Magistrate Poole imposed a fine of $2 each. The ages of the prisoners ranged from 55 to 65 years. The inspectors who appeared as complainants said Commissioner Woodbury of the street cleaning department had instructed his inspectors to enforce the law. Besides, the old women could not help themselves, anyhow.

THE FRIEND OF THE FAMILY.

He's here all the time, or it seems so to me;
We never know when to expect him.
He's a family friend, so in decency we
Can't afford to suppress or neglect him.
It would not be so bad if he'd just make his call
And depart, but he seldom displays
The remotest intention to go home at all.
So He stays.

Yes, he stays and he drones on of this and of that—
All inconsequent, tiresome and prosy.
He has dropped in, he says, for a nice, quiet chat
And a time he denominates cozy.
He's a most monumental, colossal old bore,
And he tinges with darkness our days.
If he'd just come and go we would not feel so sore,
But he stays.

When we want to go out and we've got on our things,
Or we're company more entertaining.
So certain our friend of the family rings,
And he's always the last one remaining.
He's a source everlasting of infinite woe,
And it says in one of his ways
That the others may come and the others may go,
But he stays.

POLICE RAID DRAWS CROWD

Three Alleged Atlantic City Gambling Resorts Visited and Proprietors Held.

[SPECIAL TELEGRAM TO THE GAZETTE.]

ATLANTIC CITY, N. J., July 2.—A squad of police, acting under the directions of the county prosecutor, raided three alleged gambling resorts at 1 o'clock this morning. The places visited were at St. James place and the boardwalk, conducted by Antoine Zittelli; No. 117 South Virginia avenue, conducted by Samuel E. Stout, and No. 137 Atlantic avenue, kept by Warren M. Crowley. The latter waived a hearing and furnished bail for the next term of court. Zittelli and Stout, after a preliminary hearing, were held in $200 bail each for court. Several visitors at Crowley's place were required to furnish bail of $200 each to appear as witnesses.

Crowell Out of Danger.

Fred J. Crowell, who was shot four times yesterday by the English boy, is out of danger and propably will be removed from the hospital tomorrow. The bullet supposed to have penetrated his kidneys merely inflicted a flesh wound. It is feared that the injury to one of his hands will permanently incapacitate him as an organist.

Preparing for Y. M. I.

Capt. B. J. Cauley of Pittsburgh, member of the board of grand directors of the Young Men's institute, arrived here today and engaged the Oddfellows hall for the annual convention of the Y. M. I., beginning August 22. There are 28,000 members of the order in New York, Pennsylvania and New Jersey, 4,000 being in the Pittsburgh district.

Many New Arrivals.

Beautiful weather continues here and many visitors are arriving. Late arrivals at the hotels include the following:

Chautauqua Season Opens.

CHAUTAUQUA, N. Y., July 2.—(Special.)—The 29th session of the Chautauqua assembly was formally opened this morning by Vice Chancellor George E. Vincent. In the course of the opening address Dr. Vincent said:

"I think it is well to bear in mind one or two things as we resume our Chautauqua work. The first thing I should like to insist upon is that Chautauqua is not a resort, it is as its name now legally indicates, an institution, and an institution is a very different thing from a resort. A resort is where the individual goes for something which he expects to get out of the place; an institution is a place where the individual forgets himself in a large common life, which lives on generation after generation, which gains power from those who love its life, and which goes on uninterruptedly. Chautauqua is an institution, and every individual who comes to Chautauqua and enters into the spirit of the institution feels that he is taking part in a great work. He comes not to get what he can out of it, but to contribute what he can to it, and by living the larger life which the institution provides, he thereby lives the larger life for himself. It is only those who gain this idea of Chautauqua who know what Chautauqua really is. The co-operation of each individual in order that the pleasure of all, the profit of all and the inspiration of all may be secured.

"And the second thought is that the institution grows, gains, becomes permanent just in proportion as people possess this relation to it, and not the relation of those who merely resort to a place. Therefore, there is a sense of obligation upon everyone to contribute in every way to the success of the life which we lead here in common. Remember that those who are in control of the machinery of Chautauqua, so to speak, are not those who are responsible, primarily, for Chautauqua. If Chautauqua is worth while, it is worth while because it has the support of a large, enthusiastic body of members."

The usual full day's program was carried out, including two lectures, a concert by the assembly soloists, and an evening of readings by Miss Katharine Evarts of Boston.

At the close of the evening's entertainment the signal fires were lighted. This beautiful open illumination includes the lighting of bonfires one to each mile of the 44 miles of shore around the lake.

A Century's Loss in Gambling.

From the Manchester Weekly Times.

It is for obvious reasons impossible to arrive at the exact amount of money squandered in betting every year; but not long before his death, it was stated on the authority of Mr. Mulhall, the most famous of latter-day statisticians, that during the last hundred years no less a sum than £3,000,000,000 had been won and lost on the turf and at the card table; and there are many well-qualified judges who would say that this rather an underestimate than an exaggeration.

This total is estimated to equal in weight 66,000 race horses. It would, if portioned out among our army in South Africa, give them each a load of 2 cwt of gold. It would require 10 strong locomotives to pull. A century's betting money would form a rectangular column of sovereigns 10 feet square and more than twice as high as St. Paul's cathedral. We could pave with sovereigns the 365 acres of Battersea and Finsbury parks. Invested, the sum would have yielded £90,000,000 a year. And so on. The calculations and illustrations are ingenious and suggestive.

Easy to Understand.

From the Cincinnati Commercial Tribune.

Pennsylvania Democracy in its platform "waives all expression of opinion on questions of national policy that might divert attention from the pressing problems of our own state." A dodge like that is funny enough to divert even C. Fred Wms.

Not Real Americans.

From the Indianapolis Journal.

THE DEATH ROLL.

James I. Earle.

James I. Earle, 68 years old, an old-time riverman and prominent in Union Veteran legion circles, died at his home, No. 25 Third avenue, of heart disease, at 9:40 o'clock Tuesday night. The deceased, a son of Henry Baldwin Earle and Jane Douglas Earle, was born at the old family mansion, Market street, January 27, 1834. His father at the time was extensively engaged in the drygoods business in Pittsburgh. James Earle was for about 20 years employed by the government in the distribution of supplies to the Indians on the reservations, using the Missouri river as base of operations. He served during the war in the Sixty-first regiment, Pennsylvania volunteers, under Col. Rippey, at the close being sergeant of his company and at the time of his death he was major of encampment No. 1, Union Veteran Legion. For the past 14 years Mr. Earle was employed in the cashier's office of the Pittsburgh Junction railroad. The deceased is survived by his wife, who was Miss Carrie Ryan, and by five of 10 children, Mrs. Robert Giles, James, Harry, William and Carrie. His brother, John, is the well-known artist of this city, and another brother, George Shiras, is city ordinance officer. A sister is the wife of the Hon. Samuel A. Riggs, a circuit judge of Kansas, Mo. The Rev. Dr. Grange of the Church of the Ascension will officiate at the services at the house, while encampment No. 1, Union Veteran legion, will be in charge at the grave.

Edward Connor, Sr.

Edward Connor, Sr., one of the best-known contractors of Pittsburgh, died suddenly early yesterday morning at his summer home in Snowden township, near Pinleyville. Mr. Connor had been in failing health and yesterday morning, when his wife awoke, she found her husband dead. Mr. Connor was one of the leading contractors of Western Pennsylvania for 20 years, being well known throughout the oil and gas fields and among the traction companies. He was engaged extensively in the laying of oil and gas mains and also in the construction of traction roads. Mr. Connor was born in Belfast, Ireland, 57 years ago. He came to Pittsburgh when 18 years old and for many years was a resident of the Eleventh ward. He was an active member of the Fourth Avenue Baptist church of this city, and of True Knights commandery No. 2?3, Knights of Malta. Mr. Connor is survived by his widow, Mrs. Mary E. Connor, and six children: Joseph P., Edward, Jr., Ida F., Mollie J., Margaret N. and Harriet J. Connor, all of whom live at home.

Mrs. Patrick O'Neil.

Mrs. Rose Ann Laylor O'Neil, 41 years old, wife of Patrick O'Neil, died yesterday at the family home in Wood avenue, Braddock, of cancer, for which she underwent an operation about two months ago. Mrs. O'Neil was born in County Carlow, Ireland, and was a resident of Braddock for 20 years. She was a member of the St. Thomas Roman Catholic church, Braddock, and of branch No. 173, Ladies' Catholic Beneficial association, of Braddock. Mrs. O'Neil is survived by her husband, who is a sergeant of police at the Edgar Thomson Steel plant, and by five children.

Henry E. Hudson.

JOHNSTOWN, PA., July 2.—(Special.)—Henry E. Hudson, for 50 years a railroader on the famous Old Portage railroad, died here today, aged 78. He was a pensioner of the Pennsylvania railroad and a personal friend of Andrew Carnegie when the latter was superintendent of the Pittsburgh division of the Pennsylvania. Recently Mr. Carnegie made Mr. Hudson a pensioner at $25 a month. He was a native of Loretto. He was a passenger engineer for many years, having first served as fireman and conductor.

Mrs. C. W. Cochran.

Mrs. Mary J. Cochran, 50 years old, wife of Charles W. Cochran, a member of the firm of Langenheim & Cochran of Pennsylvania avenue, Allegheny, died yesterday morning at the family home, No. 1207 Fayette street, Allegheny. Mrs. Cochran was a daughter of Judge Reed of Wheeling, W. Va. She is survived by her husband and two children.

Lawrence I. Rickard.

ALLIANCE, O., July 2.—(Special.)—Lawrence I. Rickard, one of the veteran business men of this city, died at the General hospital in Cleveland Tuesday night from the effects of an operation for appendicitis. He was born in this city July 4, 1850, and resided here all his life. For 30 years he was in the grocery business. He leaves a widow and one daughter, Mrs. S. S. Cox of Marion, O.

A. W. Meeker.

ALLIANCE, O., July 2.—(Special.)—A. W. Meeker, aged 73, a veteran railroad man, died at his home here last night. He was recently placed on the retired list by the Pennsylvania company owing to age. For 15 years he held the office of yardmaster here.

Obituary Notes.

Word has been received in Pittsburgh of the death and burial of James O'Donnell, a former Pittsburgher, at Beaumont, Tex. He was found dead in bed last Thursday.

PERSONALS.

E. L. Schlott, an electrical engineer of Berlin, Germany, was a passenger last evening on the Pennsylvania limited en route to Chicago. "American manufacturers are offering fancy salaries to German engineers in all branches of that profession to induce them to accept positions in this country," he said. "Within six months over 40 leading engineers of Berlin have taken positions with the Carnegie and Westinghouse companies alone. This shows what a premium foreign talent commands from American manufacturers."

"The people of Pittsburgh and the newspapers are to be congratulated for the successful meeting of our scientific associations," said Prof. F. W. Putnam of Cambridge as his train pulled out of Union station last night. "Our welcome was most cordial, and my visit to Pittsburgh will long be remembered. Our entertainment this afternoon was perfect in every way, and was the most pleasant feature of the visit."

B. H. Brobst, assistant manager of the Hotel Lincoln, returned yesterday from Arizona, where he has been rousing it for several months. He comes back to Pittsburgh with his health completely restored.

Lawrence Williams of Chicago, president of the Oliver Type Writing Machine Company, returned home last night. Mr. Williams said that all manufacturers complain about the injury the coal strike is doing to business.

Col. W. H. Dewey, a mining operator of Idaho, is in Pittsburgh. Col. Dewey is a candidate for the United States senate and his boom has been taken up by his friends in Canyon county.

Col. W. H. Andrews of Harrisburg, Pittsburgh, Washington, D. C., and New Mexico last night went to Washington. When seen at the Union station Col. Andrews had no news to divulge.

N. C. Shaffer, state superintendent of public instruction, arrived in Pittsburgh last night from

PUBLIC SAFETY COMMITTEE IS ASKED TO ACT

Investigators Want Something Done on Demand for Leslie's Removal.

M'ALEESE WAS ON STAND

His Testimony Indicated Where Yellow Book Money Went and He Acknowledged Having Tried to Get Men to Sign, but Denied Force.

The yellow book investigators, after listening to the testimony of Supt. John McAleese of the police bureau and other witnesses yesterday, passed a resolution calling on the public safety committee of councils to meet next Wednesday night and take action on the demand for the removal of Director A. H. Leslie.

Much to Supt. McAleese's surprise and the lobby's disappointment, few embarrassing questions were asked him yesterday. Very few of the statements made by former witnesses concerning Superintendent McAleese were discussed by the individual himself, because the committee did not ask him much about them. The superintendent was frank, and his expected rupture with the committee did not materialize. The committee found yesterday where the money went that was collected in the spring. It was paid to John Bradley, chairman of the finance committee of the Allegheny county Republican executive committee.

Superintendent McAleese was on the stand before the committee for probably 20 minutes. President Charles S. Crawford of common council was handling the witnesses for the Citizens end of the committee, and Select Councilman W. J. Zahniser did the questioning for the machine.

McAleese on Stand.

In the direct examination Mr. Crawford asked Superintendent McAleese concerning the yellow book and Superintendent McAleese said he sent the books out to the stations. That he had not received any particular orders from any person to send the books. He also said that later when he found that the men were not signing the book he called the books in without being directed by any person to do so.

Mr. Zahniser then took the witness and asked him concerning the talks that he made to men at the different stations about the book. McAleese said he had asked the men to sign the book, but that he did not compel them to.

Mr. Crawford then said that it had not been his intention to go into the matter of these visits, but that as Mr. Zahniser had done so he would ask Superintendent McAleese whether it was in the line of his official duty to go to various station houses and talk about the book. Mr. McAleese admitted that it was not in line with his official duty to do so, but that he often talked to the men on matters that could not be considered in the line of his duty.

Expressions Were Used.

Mr. Crawford then asked him whether he had used the following expressions in talking to the men: "I know of men in this city who would give $100 to have steady positions such as you men have"; "I think you men had better sign, but it makes no difference to me, as I have a farm to go to"; "J. O. Brown is a friend of yours." The superintendent admitted that he made such statements and explained the circumstances under which they were made.

Some difference arose between Superintendent McAleese and Mr. Crawford as to whether the superintendent had tried to persuade the men. McAleese admitted he talked to the men about signing, but said that he did not try to persuade them. Chairman Harry A. Lamb also sparred with the superintendent for a time about the meaning of the word "persuade," and finally in exasperation blurted out: "Well, you wanted to get the money, that was the object of the talk, was it not?"

"Most assuredly," said the superintendent, "I was anxious that the men pay."

Democrats Unknown.

"Do you know of any Democrats in the department paying?" asked Chairman Lamb.

"I do not personally," said the superintendent, "but if the Democratic party was in power in the city administration, and I was in my present position, I would certainly expect to contribute or get out."

Superintendent McAleese said he assured the men that those who had not signed would not lose their positions and would not be molested.

The best witness of the afternoon was Joseph Murray, patrolman, No. 8 station. Murray testified that he signed the book because he was convinced that if he did not do so the department of public safety would find some way to get rid of him. He said he thought his position depended upon his signing the book.

Other Testimony.

Patrolman Owen Waters, No. 8 station, gave an account of being called to the public safety building by Superintendent A. H. Leslie when he was superintendent of police, for not paying his subscription after signing the book. Waters went there but did not see Leslie. Saw Sol. Coulson and Coulson demanded to know what was the matter with him. Waters then promised to pay his $5 the next month.

Chief Clerk Elias J. Johns of the department of public safety admitted passing around the books in the public safety building, collecting some of the money and turning it over to John Bradley.

Miss M. G. McLean, who was secretary for several years to J. O. Brown when he was director of public safety, was called, but did not appear. Twelve patrolmen were examined and abundant testimony afforded that the men signed the book because they heard they would lose their positions.

On motion of John Lauler the committee then adopted a resolution requesting the public safety committee to hold a meeting next Wednesday night and take action on the resolution, demanding the removal of Director A. H. Leslie.

Society

THE garden tea yesterday afternoon at Lyndhurst was the culminating social event in honor of the visiting scientists and their wives. Mrs. William Thaw extended the hospitality of her beautiful home, and the afternoon sessions of the American Association for the Advancement of Science and affiliated societies were closed early that all might go to Lyndhurst.

The tea, continuing from 3 until 6 o'clock, was one of the most delightful informal affairs of the season. Mrs. Thaw received in the drawing-room, and standing with her were Miss Julia M. Harding, chairman of the entertainment committee of women; Mrs. William J. Holland and Mrs. Mabel Loomis Todd, the well-known lecturer and investigator on astronomical subjects, wife of Prof. David P. Todd of Amherst college.

The decorations were simple, consisting entirely of plants and flowers from the conservatories of Lyndhurst. The flowers within the house were confined to the tea tables, in the dining-room, the library being called into use for the serving of tea. Center pieces of wild flowers with delicate ferns adorned the tables. Upon the board piazzas were some of the rare tropical plants which have contributed to the charm of the conservatories of the Thaw estate. Lemonade was served upon the lawn.

Mrs. Thaw asked the members of the entire entertainment committee, composed of women, to assist her yesterday afternoon and nearly all were present.

Hospital Lawn Fete.

The ladies having charge of the arrangements for the annual lawn fete to be given for the benefit of St. John's hospital in Allegheny, have their plans well laid. The entertainment will be conducted on the unoccupied property in California avenue, near High Bridge, Bellevue, on the afternoons and evenings of July 10 and 11. Mrs. A. F. Schwerd is general chairman, and the sub-chairmen are as follows: Supper, Mrs. C. H. Newhart; ice cream, Mrs. George Bole; lemonade, Mrs. F. Beckert; candy, Mrs. W. D. Sharp; commonsense, Mrs. W. Harris; prize stand, Mrs. S. Kruger; cigars, W. D. Sharp and C. M. Burgoyne; fish pond, Mrs. E. Keil.

The officers of the Ladies' Aid society, under whose auspices the lawn fete will be conducted, are the president, Mrs. L. Mohrof; vice presidents, Mrs. C. H. Newhart and Mrs. H. N. J. Schuh; treasurer, Mrs. F. A. Schwerd; corresponding secretary, Mrs. C. S. Lindsay; recording secretary, Mrs. K. Pritchard.

Erecting Booths.

Workmen invaded the quiet grounds of the United Presbyterian Home for the Aged yesterday, and the sound of the hammer and saw brought the greater number of the residents of the home out upon the porches. Active preparations were being made for the big lawn fete and garden party, which will be held there this afternoon and evening. A large platform has been erected upon the lawn 100 feet from the front door of the home, and just before the flagpole. An arc light has been placed above it and will light the entire grounds. At the side of the house the supper tables are being arranged and here and there the bare skeleton of a booth has been erected, which today will be decorated with bunting and presided over by bright women in the interests of the home.

Mr. and Mrs. Schwab Will Celebrate.

Mr. and Mrs. Charles M. Schwab will celebrate the Fourth of July in their usual custom at their summer home at Loretto. Their celebration this year, however, promises to eclipse any yet held by them and their house guests for the day will number many of their relatives as well as friends from Pittsburgh and vicinity. Arrangements have been made for a day and night fireworks display. The fireworks will contain many large set pieces and special designs. Representatives of a New York firm have been at the home preparing for it, for several days. Among the guests at the home on Friday will be a large number of children, for whose entertainment special pains have been taken.

Treating the Boys.

The "Just For Fun club," Wilmerding's newest social organization, composed of 30 prominent society girls, gave a banquet to friends at the Hotel Hoffman at East McKeesport, last evening, that was unique. Invitations were issued by the young ladies a week ago and last evening each of the girls acted as escort to her gentleman friend. One of the members of the club acted as toastmaster at the supper. The affair was skillfully planned and admirably conducted. The members of the club promise many more novel events.

Wedding in October.

The wedding of Miss Carrie Motooth Gray, daughter of Mr. and Mrs. Crosby Gray of Bellefield, and William S. Boyd of Adrian, Mich., will take place in October. Their home after their marriage will be in Monessen, where Mr. Boyd is located. The engagement was announced a few weeks ago to the friends of the young people, who are well-known in social circles in Bellefield.

Entertaining for Two Guests.

The Misses Aull entertained very informally yesterday afternoon at their home in Fifth avenue, Oakland, their guests of honor being Miss Margaret Chalfant of Etna, and Miss Elizabeth Dauler. The porches were enclosed and several of the card tables were placed there. The guests included the younger girls.

Sunday School Picnics.

The Sunday school and congregation of St. Stephen's Episcopal church, Sewickley, held their annual picnic yesterday at Rock Point.

The annual Sunday school picnic of the Fourth Avenue Baptist church will be held this year at Idlewild, Monday, July 14, having been chosen for the day of the excursion.

Large Box Party at the Garden.

The Iroquois club, composed of 20 young men of the East End, gave a large box party at the Duquesne garden last evening. With their guests they occupied the lower and upper boxes on one side of the house. The boxes were decorated with the club colors.

GERMAN VETERAN ENDS TROUBLES

ANTHONY KENITZ HANGED HIMSELF IN HIS OWN ATTIC.

Had Distinguished Himself in Wars Against Austria and France, but Rheumatism Made Old Age Time of Suffering—Discovered by His Wife.

Crazed by long illness, Anthony Kenitz, a veteran of two German wars, 65 years old, committed suicide by hanging himself in the attic of his home at No. 21 Hartford street, South Side, on Tuesday afternoon at 4 o'clock.

Kenitz was a well-known character in the South Side. He had been troubled with rheumatism, which he contracted during the French and German war, and during the last two years had been unable to work. For two weeks he was out of his mind and required constant watching. His wife left the house Tuesday afternoon to go to the store, and when she returned he was missing. She went to the attic and found him hanging to a rafter. As the family was unfamiliar with the law in cases of violent death, the coroner was not notified until yesterday.

Kenitz was born in Alsace-Lorraine in 1837. He served in two of his country's conflicts, with Austria in 1866 and France in 1870. He had a splendid war record, and received three medals for bravery. He was employed in the mills of Singer, Nimick & Co., and with the exception of the time when the mills were shut down during the riots in 1877, had not missed a day's work in over 32 years. He is survived by a widow and three boys, John, William and Stanley. John and William are in the regular army in the Philippines. He was a lifelong member of St. Adelbert's church, South Side.

WAR COLLEGE BOARD.

It Will Convene in Washington July 21—General Young to Be at Its Head.

WASHINGTON, D. C., July 2.—Lieut.-Gen. Miles, commanding the army, today issued a general order announcing that the secretary of war has detailed the following named officers as members of the war college board:

Maj.-Gen. S. B. M. Young, Brig.-Gens. William H. Carter, Tasker H. Bliss, Maj. Henry A. Greene, United States infantry, assistant adjutant-general, and Maj. William D. Beach, Tenth United States cavalry.

Other members of the board, ex-officio, are Brig.-Gen. George L. Gillespie, chief of engineers; Brig.-Gen. J. Franklin Bell, commandant of the general service and staff college; Col. Wallace F. Randolph, chief of artillery, and Col. Albert D. Mills, superintendent of the military academy.

The order issued today directs the war college board to convene in this city July 21.

Another order issued today provides that the general service and staff college at Fort Leavenworth (Kansas) will be opened September 2 next and details Brig.-Gen. J. Franklin Bell as president of that institution. Gen. Bell is now on duty in the Philippines, but will be relieved July 4.

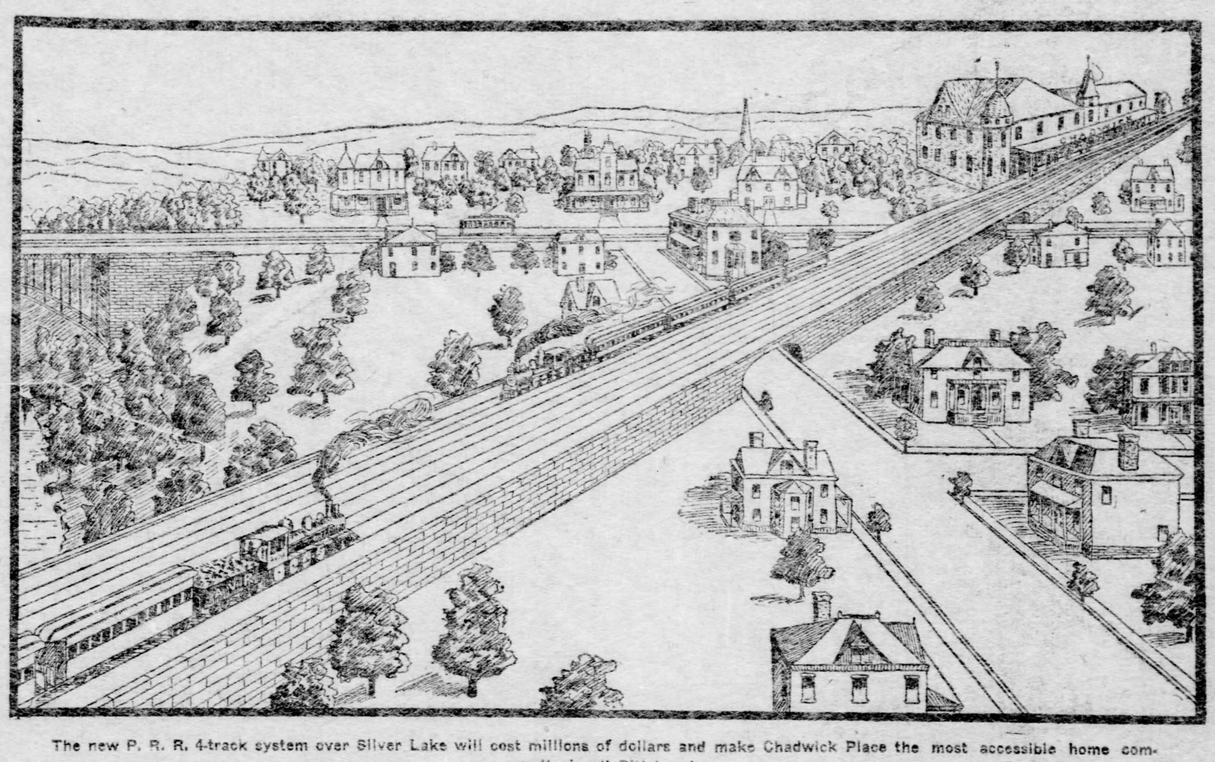
Don't Forget That the Great Postponed Sale of Lots at

CHADWICK PLACE

OCCURS

FRIDAY AND SATURDAY, JULY 4th AND 5th



The new P. R. R. 4-track system over Silver Lake will cost millions of dollars and make Chadwick Place the most accessible home community in all Pittsburgh.

The money-making possibilities at this remarkable sale mean that investors must be quick to act!

Let all who want to see $15 to $50 start the turning of a fortune for them, remember last Saturday's unprecedented rush for these lots—let them not forget the tremendous buying excitement that took place last Saturday while the rain was pouring down in torrents, compelling a postponement of the great sale.

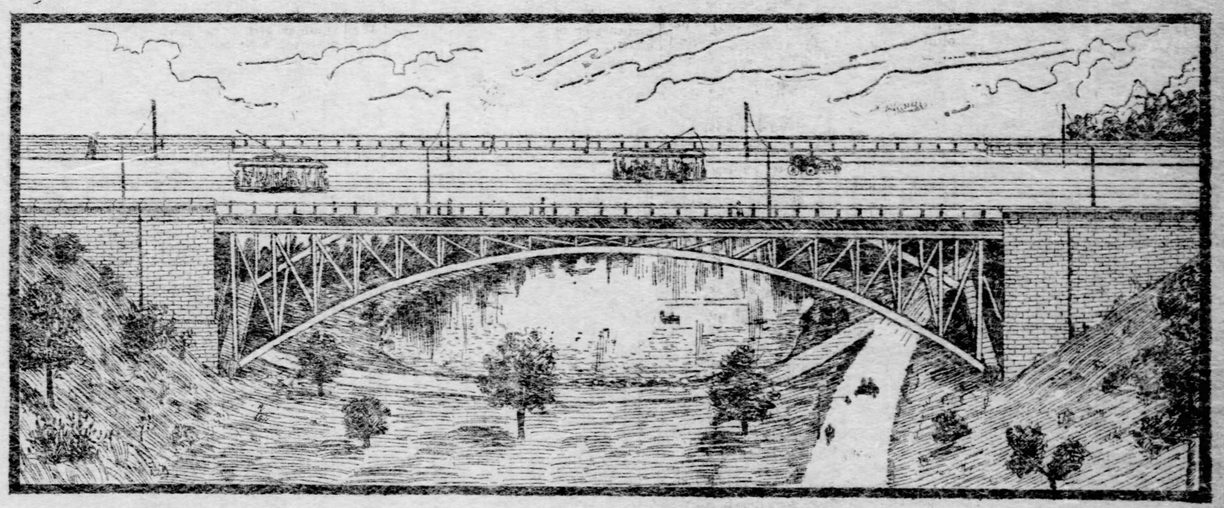
Let them bear in mind the marvelous stampede of investors to Somerset street to pick out the choice sites, commanding splendid views of Highland Park with its reservoirs and beautiful drives.

Let them take note of the fact that many of these desirable locations, level as a billiard table, with ample building restrictions, next door to lots on Lemington avenue that have been embellished with fine colonial residences, can be snapped up at $400 and $425 by persons who get on the grounds with the early-risers.

Some of the fine Somerset street lots, in fact, can be bought at this first great sale at $375—a price that is positively sensational when you consider the money that is being asked for adjoining property which, in less than a year, won't begin to stand as high in the market as these very Chadwick Place Lots.

Look around and see if this is not true. Ask what the increase in value has been on neighboring property that has changed hands. Inquire what has made three-fourths of the people who live out this way rich. Let even a blind man visit Chadwick Place next Friday or Saturday, and he will hear enough from the persons standing next to him to convince him that it will not take eyes to see how to make money out of this wonderful property.

It is positively the first time in the annals of the entire real estate business that it was ever possible to buy high-class realty with city conveniences and improvements at anywhere near the prices ruling at this sale, and the only time that a man could get in and buy valuable East End frontage, where families of the highest refinement are living, at a figure really lower than is being asked for lots in cheap suburban plans, where the increase in population is less than 11 per cent as against 328 per cent for this immediate neighborhood, in which nearly 600 houses of quality have been erected in less than a year and an increase of more than 5,000 effected in population.



View showing the new Steel Bridge spanning Silver Lake and Beechwood Boulevard, near Chadwick Place, on route of Traction Cars that pass the property.

The stirring building boom on the very property itself—gone on for four months uninterrupted and unadvertised, without an effort having been made to sell a lot—tells the story of the future in store for Chadwick Place better than any words which could be put in the newspapers.

While the company has been making arrangements for this very sale, the property has been building up.

Investors have become interested! It has been difficult to hold them back! Even now 100 magnificent pillared-porch, reception-hall residences, built of German mottled, buff, and wire-cut repressed brick, are dotted here and there all over the plan—many finished and others in course of erection.

200 lots could have been sold to speculators and contractors without the formality of a public sale, but the policy of this company is to sell to individuals—to let the masses of the people in on the ground-floor prices—then to raise prices up somewhere in conformity to the figures being asked by owners of adjoining realty.

The BOARD OF DIRECTORS will meet to consider this question as soon as the new Lincoln Bridge, spanning Silver Lake and the Boulevard, en route to the property, has been completed.

You can get a pretty good idea of the class of residences which will distinguish Chadwick Place, and preserve its character as a high-class home-site, by examining the new houses on Lemington Avenue, made perfect with complete sewerage, water, electric lights, and both gases.

If you would like to have a home of your own, and pay for it like rent, tell one of the salesmen. He may be able to submit you a proposition or find a builder who would be willing to build you a lovely home just the way you want it, and let you pay for it in payments. There's a disposition to throw everything possible in the way of the man who wants to stop the constant drain of paying rent and put what he is now losing into a home of his own.

Or, if you have $15 to $50 to invest, and will have $5 to $12 to pay each month until the full amount—$200 to $500, or whatever the price of your lot may be—is paid, you can buy two lots, and these will earn in two years enough money to pay for the building of a house on one of them. We have an instance where a young man, single then, did this on adjoining property one-fourth of a mile farther out than Chadwick Place. This young man is now married, and living with his family in a house that was built solely from the savings he, in less than 19 months, earned from two well-chosen lots, not as finely situated as any of those in Chadwick Place.

WE PAY YOUR CAR FARE.

Perfectly level lots commanding magnificent views, situated near the car line and railroad stations, will go in this first great sale at

$150	$190	$200
$250	$260	$275
$300	$325	$350
$375	$400	$425
$450	and	$500

The Terms Are **10 Per Cent Down; Balance $5 to $12 a Month. 10 Per Cent Discount for Cash.**

The title is perfect, having been examined and guaranteed by the Fidelity Title & Trust Company of Pittsburgh.

Read These Directions Before Starting For Chadwick Place:

You can take traction cars at the corner of Wood street and Fifth avenue and get to the property in 28 minutes. The cars marked "Lincoln and Liberty Avenues" and cars bearing signs reading "East Liberty via Center Avenue" run direct to the plan without transfer. If you take the cars marked "Penn Avenue via Frankstown" you can transfer at Lincoln avenue. Wilkinsburg people can also transfer at this point.

Until the grand new Lincoln Avenue Bridge is finished passengers on the car line will have to transfer at bridge to cars in waiting at other end. The bridge is rapidly being pushed to completion; the American Bridge Company will have the structural steel work ready for erection as soon as the abutments are up.

League Games Today.

Brooklyn at Exposition park.

That bunch of Heinies from Cincinnati threw another scare into the 2,200 spectators over at Exposition park yesterday afternoon and made the champions hustle good and hard to beat them out by a score of 3 to 1. It was the Pirates' tenth straight victory over John T. Brush's team, and it was a very happy moment for President Dreyfuss, who would rather have a win from the Reds than half a dozen victories from any other team.

It was another case of where blood will tell, and when it came down to a pinch the Heinies, as was expected, fell all over themselves and allowed runs where none should have been scored. Capt. Tommy Corcoran was guilty of a double offense in the sixth inning and presented the champions with their first run, while Steinfeldt was the second offender, and his misplay in the eighth inning put the Pirates on the road to two more tallies. There was no good excuse for these plays as the players had plenty of time to make perfect throws, but it was a display of the same old Grand Army game which the Reds have been producing all season.

It Was a Pitchers' Battle.

The contest was a pitchers' battle between Doheny and Hahn and the Pirates came out first best, as but two hits were scored off Doheny, while the champions touched Noodles up for seven safe bingles. Had the Pirates' game been perfect the visitors would have been shut out, but it was battery blunders in the third inning that allowed them a score. Three bases on balls and two passed balls were sufficient to produce one tally, and it took good playing to keep other scores from coming in.

The game could hardly be called an interesting one as there was a lack of activity on the part of both teams which may have been due to the sultry weather conditions. The Pirates fielded in great form, there not being a semblance of an error, but it was different with the Reds, whose misplays came at times when they proved most beneficial to the champions. This was a bit tough on Hahn, whose box work was excellent and deserved a victory.

Reds Were First to Score.

The Reds were the first to get a score and it came in the third inning when Eddie Doheny for the time being lost the location of the plate and Harry Smith took to allowing pitches to get away from him. Steinfeldt and Peitz, the first two batters up, were presented with free gifts to first, and Hahn in an effort to sacrifice sent a liner to Leach, but Tommy dropped the ball and Hahn was called out just the same. Dobbs then forced Peitz out at second, and a moment later a passed ball by Smith allowed Steinfeldt to score the Reds' only run.

It was well for the visitors that they saved themselves from a shut-out, for after that one inning they never had a chance for a score. The very best they could do was two hits, one an infield single by Beckley in the fourth inning and one good, healthy single to center by Dobbs in the sixth inning. Sacrifice hitting got these players as far as second base, but there they remained.

And the Pirates Got Runs.

The champions' first run, which was scored by Beaumont in the sixth inning, was a gift, pure and simple, with two out. Beaumont drove one down to Magnon, who made a wild throw to Beckley, allowing the runner to reach first. Wagner then drove one to Corcoran, who not only fumbled the ball but made a double error by throwing wild to Beckley. The ball went to the right field bleacher fence and Beaumont had no trouble scoring on the misplay. Wagner going to third, Honus could easily have scored on Bransfield's pretty bunt, but he failed to take the chance.

Manager Fred led off in the eighth with a pretty single to center and Beaumont followed with a bunt which Steinfeldt cleverly fielded, but his throw to second to head off Clarke was wild and Fred went to third. Wagner singled and Beaumont tried for third but was called out on a close decision, Honus taking second on the play. Bransfield drove a hot single to left and Wagner crossed the plate. Ritchey and Leach were easy outs, thus ending a fatal inning for the Heinies. The score:

NOTES OF THE GAME.

Big Jake Beckley put a pretty play in the fourth inning when he made a neat pick-up of Steinfeldt's low throw and nipped the put out on Ritchey. The crowd gave Eagle Eye a great hand.

Harry Smith was away off in his work in the third inning when he had two passed balls, one of which gave the Reds their solitary run. Harry must have been thinking of his sister's wedding presents.

A box car on the P. & W. tracks just back of the left field fence furnished a first-class stand for a small army of urchins who got their peep for nothing and rooted like whitewash for the champs.

The Wagner who is playing short for New York is not Al. Wagner, the brother of Honus, but a youngster who was picked up by Owner Freedman from the Murray Hills, a strong amateur team of New York.

"Peeps" Poole, during the preliminary practice, came near knocking Honus Wagner's block off with a line drive. Honus dropped flat on the ground and it was well he did, or it would have been a candidate for some hospital.

Ned Hanlon and his Brooklyn team will be here today for a series of four games, including two on the Fourth with the championship scored red for gamer may be looked for. The Brooklyn team is playing great ball and has a strong hold on second place.

Hank O'Day stands by his decision on Bransfield at first base on Tuesday and says he had a supporter in a well-known Liberty street merchant who sat right back of first and says that Beckley had the ball and touched first before Kitty reached there.

"Wake up and get in the game," yelled Manager Clarke in the eighth, when Bransfield loafed on the way to second while Ritchey was being fielded out at first by Pitcher Hahn. Kitty evidently thought two were out at the time and was not in need of his hurrying.

That Cincinnati bunch can play good ball until it comes down to a pinch and then one or the other of them is sure to go up into the air. They did it on Tuesday in the ninth inning and again yesterday in the eighth. Some people might be mean enough to call it a yellow streak.

The Pupxattawney team wants to borrow Pitcher "Peeps" Poole of the Pirates for the Fourth of July. The Punxsy manager called on President Dreyfuss yesterday, but was referred to Manager Clarke. Homestead wanted to borrow Wid Conroy, but the latter's terms of $10 per game were too light for Manager Risher.

Heinie Peitz in the eighth inning turned a trick on Wagner while Umpire O'Day was looking at him and yet not a word was said. Peitz was on first when Hahn drove the ball at Leach and Tommy threw to second. Peitz wanted to stop a double play and he told Wagner. A nick was made, but it availed nothing.

During the Reds' aerial trip in the eighth inning Noodles Hahn most lost his head, but kept plugging away like a good fellow. After Steinfeldt had made a bad throw which started the Champion on the road to ruin, Noodles pulled himself together for a moment, and walking over to the Reds' third baseman borrowed a chew from his plug. It was a neat way to steady down the infielders and it had its effect, but the game had been done.

Eddie Doheny was there with all kinds of speed and curves yesterday and his work outside of the third inning, when he gave three bases on balls, was clean cut and pretty. Doheny had a pretty bender working and it was funny to see big Jake Beckley wobbling around the home plate trying to get at the bender. Big Jake was twice a victim on strikes and the crowd guyed him unmercifully.

WON IN THE NINTH.

Brooklyn Made a Strong Finish on the Quakers.

BROOKLYN, July 2.—Hughes played a magnificent game in the box for the Brooklyn team at Washington park today until the eighth inning, when a wild pitch allowed the Philadelphians to score one run. Brooklyn, however, batted in two runs in the ninth, with two men out, and thereby won. Score:

WAGNER'S TOUGH LUCK.

Honus Is Having a Hard Time of It With His Dogs.

Honus Wagner, member of the Pittsburgh baseball team, is having hard luck with his valuable canines recently. First, one of his dogs, valued at $100, was shot for trying to take a bite out of a woman's arm. Another dog has been stolen. Wagner paid $45 for the last dog, just before he left on the recent western trip, and an additional $5 was expended for a collar. It was a valuable black and tan and highly prized by Honus, who is making every effort to catch the thief and recover the dog.

Honus has purchased a barber shop in Fourth avenue. Carnegie, buying out John Leonard's old stand, and claims he will run the chairs himself during the winter. In the meantime, the shop will be in charge of his brother, William.

State Normals' Field Sport.

CLARION, PA., July 2.—(Special.)—The field day exercises of the Clarion State Normal were held this afternoon at the fair grounds. The 100-yard dash was won by D. P. LAWSON TO RIDE AGAINST FREEMAN

McFARLAND NOT YET WELL ENOUGH TO TACKLE THE BIKE.

Freeman Is Here and Is in Fine Shape for a Hard Race—Lawson Has Recovered from Injuries Sustained in Race at Washington.

The card for the big meet on the night of the Fourth of July at the Colosseum track in Allegheny will be a 20-mile straightaway motor-paced race between Gus Lawson and Howard Freeman of Portland, Ore. Floyd McFarland was to have ridden against Freeman on July 4, and this was to have been his first race since his serious injury on one of the Boston tracks. His physicians, however, refused to allow him to ride, because his arm is not yet strong enough. The management of the Colosseum at once telegraphed to Lawson and arranged that he take McFarland's place. Lawson has entirely recovered from the effects of his fall at Washington, and is riding faster than ever. He has the reputation of being one of the best pace followers in the cycle game. His riding is of the kind that makes the race interesting and exciting, and he is certain to be a great favorite here.

Lawson will arrive today. Freeman arrived yesterday morning. He is already well known here through his performance in the contest with Champion, the speedy Frenchman, in which race all records from one to ten miles were shattered. Freeman, a few weeks ago at the Colosseum track, beat Benny Monroe, who rode such a fine race against Leander on Tuesday night.

The amateur events for the big Fourth of July meet will be a one-third mile and a two-thirds mile handicap. All riders must have their entries in by 8 o'clock tonight. The races tomorrow night will begin promptly at 8 o'clock.

GOOD TIME MADE AT READVILLE

Carthage Girl, Debut and Mrs. Brown Won the $500 Purses at Boston's Opening.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

BOSTON, July 2.—The harness racing season began at Readville today and some unexpectedly good work was done by well-known horses. The fastest heat was 2:09½ by Carthage Girl in the 2:12 pace. She started three lengths behind the field and not until the three-fourths pole was reached did Merrifield drive her out. She then won out by half a length.

In the first heat of the 2:21 trot Easter opened out a big lead and threatened to distance the field. At the three-fourths pole, however, Priola and Silver King came up strong, both nearly beating out Easter to the wire in a whipping finish. Mrs. Brown afterward was an easy winner. Summaries:

THE FIGHT PREVENTED.

St. Louis Police Took a Hand, As Did the Missouri Governor—May Meet in Louisville.

ST. LOUIS, July 2.—The board of police commissioners today decided that the prize fight scheduled for tonight at the West End club, between Young Corbett and Dave Sullivan cannot be held, as it comes under the statute prohibiting such exhibitions.

President Haughton of the West End club announced he had granted Corbett and Sullivan permission to fight, in case the fight should not take place.

A telegram from Springfield says: Governor Yates is determined to prevent Young Corbett and Sullivan from fighting in Illinois. He wrote the sheriff of St. Clair county, opposite St. Louis, and also of Cook county, directing them to prevent the fight at all hazards, and informing them that the state military forces will assist if necessary.

Robert Gray, representing the Southern Athletic club of Louisville, came here today to secure the Sullivan-Corbett fight for his organization. He stated he will guarantee the fighters the same purse, $5,000, that the West End club offered.

President Haughton announced officially this evening that the Corbett-Sullivan fight is off.

THE YACHT RACES.

Tecumseh Won Two Events and the Massasoit One.

BRIDGEPORT, CONN., July 2.—In the second series of the races to select a challenger for the Seawanhaka cup, postponed from yesterday, the Tecumseh won two and the Massasoit one. The course was two miles to windward and return. Every finish between the two winners was very close.

The race was between the Tecumseh and the Massasoit. It was a close finish, the Tecumseh winning by 4 seconds.

TURNERS' FIELD SPORTS.

Pittsburgh Athletes Made a Fine Showing.

EAST LIVERPOOL, O., July 2.—(Special.)—Crowds today attended the field sports of the Pittsburgh district turners. Prize winners in the various events will be announced tomorrow. Martin Weitzell of the South Side, Pittsburgh, made the best record at standing jump,

Fine Athletes for Schenley

BEST ATHLETES WILL CONTEST AT SCHENLEY

Entry List Shows Over One Hundred First-Class Men in the Events.

ANOTHER NEW FEATURE

Howard Freeman Will Go After the Track Record Behind His Big Motor Machine—The List of Contestants Is a Big One.

Another strong attraction was added last night to the program for the president's meet at Schenley park July 4. Howard Freeman, who came here to train for his match at the Colosseum Friday night, has consented to go behind his big pacing machine and make the track record look sick. If the track conditions are fairly good there is no question as to his ability to make a mark that will stand for some time. His pacing team will take the big tandem to the park today and train for the trial.

Freeman is in fine condition, and all that he needs is to become accustomed to the earth track, as he has been flying over the board courses ever since the season opened. The arrangements for the trial were made by President Dreyfuss of the Pittsburgh baseball club, who is also an enthusiastic admirer of the motor pace game and believes that the exhibition will make a big hit. The entries for all events are as follows:

FINAL MATCH TODAY.

Miss Christy and Mrs. Elliott Rodgers the Winners in Sewickley Golf Tournament.

The final match in the women's handicap tournament for the cup offered by W. N. Kerr, will be decided this afternoon on the Edgeworth course at Sewickley, between Mrs. Elliott Rodgers and Miss Lucy Christy, playing from scratch.

Yesterday afternoon Miss Christy, scratch, defeated Mrs. C. I. Shannon, two strokes handicap, by 3 up and 2 to play, while Mrs. Rodgers defeated Mrs. Joseph Rohrbacker, 5 strokes handicap, by 2 up and 1 to play.

On Saturday the handicap match play tournament against "bogey," for the R. D. Haworth cup will be played by the men.

This afternoon, on the Logans Ferry course, at Logans Ferry, are scheduled the semi-final matches for the handsome governor's trophy, with the final play tomorrow.

Country Club's Big Tournament.

The chief event in the eyes of the local golfers at present is the big open tournament of the Allegheny Country club, to be held over the new course at Sewickley, July 9, 10 and 11. As the course is one of the best in the country and the play immediately preceding the national tournament at Chicago, there will be a strong entry of golfers from the east. The entries close Saturday night and such players as John Reese, Arthur Reese, Charles Hitchcock and Robert Watson are already entered.

A Busy Schedule For Fourth.

The Allegheny Country club members will be busy tomorrow with play for four cups, which have just been offered as additional events to the schedule. In the morning there will be 18 holes of handicap for cups offered by Henry Sproul and W. N. Kerr, in the afternoon match play against "bogey" will decide the ownership of trophies offered by Henry Sproul and H. M. Byers.

AMONG THE AMATEURS.

The J. J. Smiths play the R. E. McCartys on Saturday, July 5, at Carnegie.

The Pingarry Juniors will play two games with the Duff A. C. on July 4. Charles Jordan, the Juniors' star pitcher, will pitch the morning game.

The Duquesne Heights A. C. will play the Woodlakes on Fourth of July morning. All D. H. A. C. players must report for practice Thursday evening.

The Fisher A. C. will journey to Glassport on the Fourth of July to play the Glassport Juniors. The battery for the Fishers will be Verner and Murray.

The Keystones will play the Third Ward A. C. of McKeesport two games on the Fourth of July. They would like to hear from Sharon, Pa., for a game on Sunday.

Allentown is without a game for Saturday and would like to hear from some good team having grounds for that date. Call up 25 Hill (Bell) and ask for Wangeman.

The Wagner Juniors will play Osborne A. C. tomorrow morning on the latter's grounds and on Saturday afternoon they journey to Crafton to play the team of that place.

All players and rooters of the D. M. C. A. C. ball club are requested to report at the depot on Friday, July 4, at 1:30 p. m. sharp. The game will start at 2 o'clock.

The Highwood A. C. will play the Spencer Tigers on July 4, morning, at the Highwood A. C. grounds at 10 o'clock. The Highwood battery will be Towns and Rapp.

The Kingsleys are without games for Fourth of July and would like to hear from strong out-of-town teams having grounds. Telegraph F. S. Forrest, room 411, Union station.

Any strong team wanting two games on the Fourth of July, please address Thomas McKay, Park 396, between 6:30 and 8, or call at Brook's pool room, 295 Atwood street.

Oakmont plays Aspinwall two games on Friday and one on Saturday. Both games on Friday will be called at 2:30 o'clock, instead of 4:30, on account of the rain at Edgewater park.

The Colonial A. C. would like to hear from all 12 to 13-year-old teams for a game on July 5 and 12 or 19. Address Thomas Puker, care Heyl & Patterson, No. 51 Water street, city.

The Locust A. C. has organized for the rest of the season and would like to arrange games with all 11 to 12-year-old teams. Address Philip A. Laux, 1443 Nixon street, Allegheny.

The Hildales will play Sharon tomorrow. They play at Tarentum Saturday, and wish to play part of their Friday date. Address H. D. Smith, City Hall, Allegheny. Bell 'phone 62 North.

The Millvale Juniors will play the W. E. Fuller team tomorrow morning, and a good game is expected, as the Juniors only succeeded in defeating this team by a score of 5 to 4 after a very close game.

The Oaklands have no game for Saturday. Any good out-of-town team can have same by addressing John McGee, 205 Atwood street. The Oaklands are playing great ball lately and will make the other teams hustle.

Cottage players are requested to report at Union station at 7:30 sharp the morning of July 4. The team will play at that time for Weilsburg, where they will play two games. Irwin and Edwards will do the pitching.

The Ready Reds defeated the strong Rainmaker second team in a well-played game by the score of 7 to 6. The Reds would like to hear from all 13 and 14-year-old teams. Address M. Cosgrove, No. 53 Independent street, West End, city.

The Frank and Kneeland team plays Pittsburgh Typographical Southern Avenue park Saturday. They still have July 26 open. Any first-class team with grounds may have this date. Address G. H. Camp, No. 905 Irwin avenue, Allegheny.

The Fairbank Manors will play the J. J. Hueksteins on the morning of the Fourth and the Keystone A. C. in the afternoon. Any other 16-year-old teams desiring games for the sport day of Geo. Heppes, Jr., 29 Ravine street, Troy hill, Allegheny.

The Century Athletics will play Etna A. C. at Etna tomorrow afternoon. The following players are requested to report at Rush house, Etna, at 1:30: Raenal, Thompson, Dyke, Nix, Young, Brown, J. Stauffer, F. Stauffer, Clark, Tillman and Chubby. Take Millvale and Etna cars.

The National Tube Grays of McKeesport would like to arrange a game with some good team for Saturday afternoon, July 5, at McKeesport. Address Jack Hall, Bell 'phone No. 221, between 8:30 a. m. and 5:30 p. m. today, sure, and ask for H. J. Campbell, manager.

The Beaumont Stars cancel their games with St. Mary's Cadets for July 4, because they could not get grounds. Would like Harry Beale, manager of Ben Avon team, to call up 926, both 'phones, and ask for O. J. Stock, about two games for July 4 on Ben Avon grounds.

Allentown A. C. players must report for practice Thursday evening at 6:30 at Bailey's field; also at 6 p. m. on the morning of the fourth at the above place. Meeting of officials Al. Ott, Tragesser, Thomas, Burit, Tragesser, Charles Ott, O'Donnell, Rollins, Cromer, Quinn and Greenewald.

The Hazelwood L. A. C. lines up against the strong Westinghouse team on Saturday and owing to cancellation they are without a game for the Fourth of July. Any good amateur team wanting a game for that date, having grounds, please address Thomas Lowry, 4922 Hazelwood, Pittsburgh, Pa., or telephone 926 North, P. & A. 'phone, and ask for Harry Roeper.

Harvard A. C. will journey to Canonsburg on the Fourth to play the strong team of that place, and on the following Saturday will play Sewickley Y. M. C. A. at Sewickley. The following Harvard players will please report at Union station on the morning of the Fourth in time to take a train at 7 o'clock: Swartz, Chapman, Pehl, Claffee, James, Schiebele, Holmes, Smith, Kennedy, H. Knapp, P. Knapp and Baumbach.

Brown A. C. has no games scheduled for the Fourth, but will play the Westinghouse Independents on the 5th on the West Homestead grounds. Manager Siegel at 2:30 sharp. The Browns would like to hear from all 12-year-old out-of-town teams for games in August. Mars, Coal Valley, Dawson, Economy, Canonsburg, Rochester and Beaver Falls preferred. Address Charles Kratz, East Pittsburgh, or 1913 Bedford avenue, Pittsburgh.

The Standards will play Bridgeville two games July 4 at Bridgeville. The following players are requested to report at the corner of Ohio and Chestnut streets at 6:30 a. m., without fail: Bertges, Gans, Schutte, Huber, Voight, Bir, Matz, MacMahon, Brehm, and Khall. Lawrence Miller, the pitcher, is also requested to report July 5 and 12 are still open. For games address Harry Engemann, 856 O'Hara street, Allegheny.

The Fairbanks play three games at East Liverpool July 4 and 5 and expect to give the Ohio boys a hard tussle. Drebel has retired from Grove City and will again be found behind the bat. Wayne station, Federal street, Allegheny, not later than 6:10 Friday morning: Drabel, Probst, Kommer, Cabell, Puffer, Mangold, Bardsang, Lippert, Hollerman and Carney.

The Soffels will play two games at Carnegie on the Fourth with the J. J. Smith team. Players who are to report at Fifth and Market Friday morning at 8:30 a. m. are Kennedy, Carter, Kuner, Matthews, Harmon, Wilson, Brown, Lickenbaugh, Deckenbaugh, Reynolds, Curry and Pasierius. The Soffels have July 5, 12 and August 16 open and any uniformed team having grounds can have any of these dates. Address Samuel Dyer, care P. & L. E. railway, city.

The Woodlake A. C. play the strong Duquesne Heights A. C. on the morning of the Fourth on the Woodlake grounds. Red Foreman or Bill Negley will be on the rubber for the home team, while Carrol will be at the receiving end. All the following Woodlake A. C. players must report tonight (Thursday) for practice: Doran, Beerman, Carroll, Negley, J. Buerger, Thorn, Bradley, White, Wilson, Miller and Diemer. On Saturday the Columbia A. C. will be the visitors at the Woodlake grounds and a good game is looked for, as both teams have been playing gilt-edge ball lately.

The Dwyer A. C. will play the Eagle A. C. two games on July 4 at 10 a. m. and 3 p. m. on Dwyer A. C.'s grounds. The Dwyer A. C. will line up with the following players: Hoey, first; Martin, second; Harkins, shortstop; Cassidy, catch; Shafer, third; Bender, middle; Heckathorn, right field; Coyne, left field; Vincent, third and pitch, and Verner pitch. Any good team can have games after August 2, such as Our Boys, Oakmont, Brickville, Natrona and Aspinwall offered. Would also like to arrange a game with Homestead for some week-day. For games address Philip M. Dwyer, No. 6140 Butler street, Pittsburgh.

VAIL'S CLEVER WORK.

Shut Out Johnstown Team in Fine Style.

ALTOONA, PA., July 2.—With faultless fielding behind him Vail, in the box for the locals today, was invincible, outclassing the stern rivals from Johnstown very easily in every department and shutting them out. Dougherty, Smith, Nallin and Dowling excelled in fielding. Hinton, Martin and Lee batted timely, with several runs scoring on their hits. Score:

GAPEN'S HOME RUN.

Pittsburg College Pitcher Won Game for Charleroi.

CHARLEROI, PA., July 2.—(Special.)—Gapen, the Pittsburg college twirler, won today's game for Charleroi from Homestead. With bases filled in the ninth and the steel workers one run to the good Gapen laced out a corking hit, to left that was good for four sacks. It ended the scoring, but the locals had made enough to win. The steel workers played a poor game in the field, though Kenney's work was above the average. For the locals the best playing was done by Llewellyn, Goussic and Naylor. Osborne of the second team pitched a great game for Charleroi. The same teams play here tomorrow. The opposing pitchers will be Gapen and Pearson. The score:

Charleroi	0	1	0	1	2	0	2	0	5	—11
Homestead	0	0	2	2	3	0	2	0	0	—9

Loucks Struck Out 16 Batters.

MOUNT PLEASANT, PA., July 2.—Scottdale Y. M. C. A. and South West played a hotly contested game of ball on the local park this afternoon. In the ninth Scottdale, by some timely hitting, aided by loose fielding, scored 4 runs. Loucks, the W. & J. player, seemed to be the whole show for the visitors. During the seven innings he pitched he had 16 strikeouts, and his two-baggers drove in runs across the plate. Score:

Dave Fultz to Coach Brown.

PHILADELPHIA, PA., July 2.—(Special.)—David L. Fultz, perhaps the most versatile athlete ever graduated from Brown university, will coach the lafayette college football team this fall. Final arrangements were completed yesterday whereby the popular outfielder of the Athletic baseball team will go to Easton and assume charge of the Lafayette players immediately after the American league championship is over. Prof. F. A. March, Jr., graduate athletic director at Lafayette, conducted the negotiations with Fultz.

Glassworkers' Field Day.

A field day and athletic sports was held by the employes of the D. C. Cunningham Independent Glass workers. A ball game, foot race and high jump constituted the program. The ball game between blowers and snappers resulted in a score of 7 to 6 in favor of the blowers. Batteries, Dan Hawkins and P. Pemberton for blowers, and William Seeder and John Burns for snappers. The foot race was won by William James, manager for D. C. Cunninghams. The high jump was won by Andrew Hawkins, cutter.

Cubans Defeat East Liverpool.

EAST LIVERPOOL, O., July 2.—The All-Cubans won today's game from East Liverpool as the result of three costly errors and nonsupport of the local pitcher. The score:

Harvard's Champion a Winner.

PHILADELPHIA, July 2.—Beals C. Wright, the Harvard champion, today won the round robin lawn tennis tournament on the courts of the Germantown cricket club. Dwight F. Davis, the St. Louis expert, took second prize. The exhibition given by the four players entered in the tournament was again of an exceptional character. The tournament was brought to a conclusion by a match in doubles which was not concluded when darkness fell.

The Beaver Falls Champions.

BEAVER FALLS, PA., July 2.—(Special.)—The North End Athletics of this place were last night awarded the championship and prize in the Glove Printing Company's county baseball league, having won seven of the series of eight games played. Stripes of Beaver Falls were second, College Hill, third; New Brighton, fourth, and Mt. Washington, fifth.

HUFF COMPANY ENTERS DENIAL TO THE CHARGES

Henry C. Bair Alleged That He Bought Stock Under Misrepresentation.

THE CASE INVOLVES $9,000

The Defendant Company Denies Allegations That He Was Shown Statement of Business That Indicated Profitable Operation.

Fraud is denied in the affidavit of defense filed yesterday in the case of Henry C. Bair against the Charles W. Huff Company, to recover upon stock held in the defendant company.

The plaintiff alleged that he purchased $9,000 worth of stock and wants his money back because of misrepresentations.

The defendant denies that the company or Charles W. Huff falsely and fraudulently exhibited to the plaintiff a statement of the business of the company, purporting to be a true one, which showed the business of the year was profitable.

It is denied that by these representations the plaintiff was induced to purchase the stock.

Moreover, the defendant asserts that the stock was bought by the plaintiff at his own solicitation, and after he had inspected the building and examined the plant.

TRANSFERS ARE ASKED.

Ten License Holders Want Privileges to Sell Liquor Turned Over to Others.

In quarter sessions court yesterday 10 applications for liquor license transfers were made. They are as follows: John A. Richter, No. 1516 Fifth avenue, to George J. Wall; Michael F. Diskon, No. 4839 Butler street, to Michael Kolbauski; John A. Garvey, No. 176 Forty-eighth street, to John L. Stephens; S. Micholski, No. 1108 Braddock avenue, Braddock, to George Szeck; George C. Auel, Nos. 409-411 Braddock avenue, Braddock, to Duncan Campbell; Wilhelm Borgman, Nos. 27-29 Fourth avenue, Carnegie, to Stanley Celkouski; Samuel Moranz, Nos. 530-532 Heisel street, Homestead, to Frank Hamrak; J. W. Ellis and Timothy Burley, No. 350 Helen street, McKees Rocks, to J. W. Ellis; Robert Carson, Jr., No. 502 Federal street, Allegheny, to C. F. Graff and Robert Carson, Jr.; Louisa E. Schopter, Plank road near Three Degree road, to A. L. King.

The license of P. J. Connolly, deceased, Nos. 410-412-414 Fifth avenue, McKeesport, was transferred to Mabel L. Connelly.

NEW TRIAL WAS DENIED.

Judge Acheson Gives Verdict for $4,775 Against Hocking & Duncombe Coal Company.

Judge Achison of the United States circuit court overruled the motion for a new trial in the case of S. M. Hamilton & Co. of Baltimore against the Hocking & Duncombe Coal Company.

It was an action to recover about $7,000 damages on a breach of contract. The defendant operates a coal mine in Somerset county and it was asserted by the plaintiffs that the defendant agreed to furnish them with a certain amount of coal at $7 per ton. Part of the coal was shipped and suit was entered to recover damages for breach of contract.

A verdict for $4,775 was given the plaintiffs and the court ordered that judgment be entered for the plaintiffs upon the verdict.

IN RAILROAD FIGHT.

Partial Hearing in Case of Castle Shannon Against the West Side Belt Line.

Judge Marshall Brown yesterday held a partial hearing in the matter of the bill in equity of the Pittsburgh & Castle Shannon Railroad Company against the West Side Belt Railroad Company.

The plaintiff company seeks to restrain the defendant company from crossing its line at two points in Baldwin township, and the testimony heard was upon the feasibility of the project.

It is also alleged that the plaintiff company intends to adopt a standard gauge track and to accommodate this the defendant has not allowed sufficient clearance under its trestles.

Suit was entered by John Foglia against Frank Torchia to recover $270. The plaintiff says that he deposited $670 in the defendant's bank, drew out $170 and the defendant refuses to give him the balance.

Mary Buchner, wife of William Buchner, of Snowden township, yesterday filed a petition to be declared a feme sole trader, declaring her husband is able to make $100 a month in a mill, but refuses to work, and she has had to support herself and three children.

N. G. P. GETS MEAT AT REDUCED PRICES

Contracts Awarded for Encampment Supplies at Lowe. Figures Than in Former Years.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

GREENSBURG, PA., July 2.—The fresh meat question has been a difficult problem for the state authorities in the preparation for the national guard encampment at Gettysburg. After considerable figuring with all the leading packers the commissary department was agreeably surprised in being offered the best quality of meat at a price below that paid in other years.

The contract was given today to Swift & Co.'s Harrisburg house for 47,500 pounds of fresh meat for 7½ cents a pound. Other bids ranged from 9½ to 11½ cents. Armour & Co. got the contract for 21,375 pounds of No. 1 hams at $12 90 a hundred. A Baltimore firm got the contract for 11,875 pounds of fresh fish at 7 cents a pound. The contract was also let for 80,000 pounds of new potatoes at 1⅜ cents a pound. The bids were received and contracts awarded by Commissioner General Edward E. Robbins of this place, and have been forwarded to Harrisburg for approval. The contracts provide that refrigerator cars shall remain on the encampment grounds.

HARRISBURG, PA., July 2.—A general order was issued by Maj.-Gen. Miller today that the encampment at Gettysburg shall be known as Camp George G. Meade.

No sutlers or peddlers will be permitted in the camp unless authorized by headquarters. Ladies and children will not be permitted to remain over night within the limits of the camp. Lieut.-Col. L. F. Loree, ordnance officer, is appointed provost marshal.

THE DUBOIS RACES.

There Was a Fine Turnout for the First Day.

DUBOIS, PA., July 2.—(Special.)—A large crowd for an opening day attended the races of the Dubois Driving Association summer meeting here today, and they were repaid with a splendid afternoon's entertainment. The weather was ideal for racing and the track, which has been improved until it is one of the best half-mile tracks in the country, was fast, and every heat furnished a spirited contest, the winners being driven out. FOUNDRY IRON PRICES SHOW GRADUAL RISE

Consumers Are Buying Way Into Next Year at Prices Above Bessemer.

LIFT IN TUBE QUOTATIONS

Slow Coke Deliveries Continue to Handicap Valley Furnaces and May Force Many of Them Down by Sunday—Very Few Mills Closing.

The urgent foundry iron market continues to force prices up. Sales in the week past of several round lots in the No. 2 grade for deliveries scattered through the first half of next year were at prices about $1 the ton above the price of Bessemer iron. It is a notable condition from the fact that Bessemer should be about $1 a ton higher than foundry iron. The condition arises from the fact that in the strengthening markets consumers of foundry iron rushed in with contracts for a longer period ahead than at any time before. Until this year foundry iron has almost always sold only for immediate requirements.

The sales of the No. 2 grade for next year delivery were at prices for delivery in Pittsburgh, ranging from $22 to $22 25 the ton. Sales for delivery in this quarter were at $23 25 the ton. Of Bessemer iron there have been no sales of even car lots in the past week. The price holds nominally at $20 50 to $21 at the valley furnaces, but with the stacks running light there is no assurance of deliveries before next year.

Some Pipe Mills Advance Prices.

The independent producers of steel and wrought iron pipe have started to demand prices about 5 per cent above those of the leading producer. The pipe mills are behind and all have a large volume of business ahead. However, it is unlikely that the leading producer will meet the advance at any time soon.

The advance announced last week on prices of medium and light-weight rails is not being met by all the producers. Western mills are offering rails in Pittsburgh at near the old prices, while the heavier producers near here are adhering to the advanced prices. There is no agreement in this business.

Few of the mills are closing this month for inventory and repairs. In years past this period has been taken up for this, while the wage scales with the organized workers were pending. The plan of the Republic Iron and Steel Company and most of the concerns of the United States Steel Corporation of entering a scale with the workers which is practically continuous accounts for this.

Furnaces May Be Forced Out.

The furnacemen are anticipating the possibility of having to bank fires by Sunday because of the slow deliveries of coke. During the first two days of this week the deliveries were good. Yesterday they fell off, and although it is planned to continue operations in the coke-producing region over the Fourth it is expected that so many of the men will quit then and on Saturday as to again complicate matters.

Prompt coke at the ovens is still worth $2 50 the ton with little available. Furnaces in the east, cut off from their supply of fuel by the anthracite strike and the West Virginia strike, are demanding Connellsville coke, but it is said they are getting little of it. There has been talk of the miners' organization attempting to regain its foothold in the region, which their leaders now regard as a strike factor. Such attempts have amounted to nothing in recent years. The coke workers are now getting far better wages than in the years when the mine workers' organization flourished in the region.

No Room for New Business.

Merchant furnaces have no room for new business in Bessemer iron. No sales are reported as made during the past seven days. The nominal price remains at from $20 50 to $21 the ton at the furnaces. Shortage of coke deliveries prevailing the stacks running near their capacity indicates higher prices very soon.

Foundry iron sales in the past week include the following: 1,500 tons of No. 2 for delivery in the first half of next year at $22 to $22 25 the ton; 700 tons of No. 2 for delivery in the last quarter, at $23 25 the ton; 700 tons for this quarter delivery at $22 25 the ton.

In forge iron there were few transactions, some being held off by demand of prices of $22 and also for prompt delivery. Not over 1,000 tons, or delivery in the third quarter, was sold at $21 25. The price of domestic ore in the Pittsburgh district is being held at $22 50, with none selling, while the foreign product is offered here at $20 the ton.

The billet market is inactive and the price for a prompt supply is about $35 the ton.

Wire Mills Running Light.

The wire and wire nail mills are running light and sales of rods are few and far between. The price holds nominally at $36 50 the ton.

Since the first rush of consumers to place orders for rails for next year delivery there have been few transactions in standard sections. The advanced prices on the lighter sections are not being held by all. Quotations are as follows: For 25-lb. ton and larger lots in standard sections, $28 a ton; for 16-lb. rails and 20 for less than carlots; $28; for 25-, 35 and 40-pound rails in carlots, $25; for 25-pound, $40; for 20-pound, $42; for 16-pound and $45 for 12-pound Girder rails and T rails for traction use are from $38 to $40 a ton.

The demand for sleigh is running well ahead of the supply. Sheared sleigh is extremely scarce. Prices on steel skein are $2 the 100 pounds and upward, and on iron as high as $2 40.

Mill rolls are holding the price of muck bar at $37 and have little to offer.

Some Steel Bar in Two Months.

There is some merchant bar available in Pittsburgh in 60 days, but in the main the mills are engaged till the end of the year. The base price is $1 60, the 100 pounds being quoted for business this year, but on prompt business $1 85 and even $2 the 100 pounds is being offered. Some mills will not quote below $1 70 for any period. Pittsburgh produces sold about 5,000 tons in the week past.

Some tonnage of steel plates of sufficient proportions and satisfactory specifications is available here after two months. Sales in the past week by Pittsburgh producers amounted to about 12,000 tons. Base prices are as follows: Tank plates, $1 60 for 100 pounds for plates up to 100 inches in width, and 5c extra per 100 pounds for wide sizes; flange plates, $1 70 for 100 pounds; stiffbottom steel, $1 90 for 100 pounds; locomotive firebox, not less than 82 higher; 2-16-inch plates, $1 a ton extra; eccentric plates, $1 80 for 100 pounds.

Most of the structural mills have their output engaged for the rest of the year. Some will take no new business at the mean prices ascend of next year. Sales by Pittsburgh producers in the week past were about 10,000 tons. Base prices remain: Beams, channels, angles and sizes, $1 90 the 100 pounds; angles, 3-inch and less, $1 70; tees, $1 65 for the 100 pounds; beams, 15 to 24 inches, $1 70 the 100 pounds.

Cheaper Galvanized Sheets.

The leading producers of galvanized sheets continue to sell on immediate business at lower prices. None of the sheet mills are very busy. The prices on black sheets range from $2 10 the 100 pounds in the No. 28 gauge.

The tube price remains at $4 the 100-pound box with prompt deliveries offered. Few of the mills are closing for repairs.

Steel hoop prices are $1 90 the 100 pounds for lots of 200 tons and over, and $2 for lesser lots.

Prices on fine merchant and crucible steel remain as follows: Tire steel, $1 80 for 100 pounds; toe calk, $2 25; spring steel, $2 25; blow slabs, $2 25; rolled lay steel, $2 50 to $2 75; tool steel, $7 and upward, according to quality; cold-rolled chatting, 45 and 50 per cent off the list.

Prices on old material continue as follows: No. 1 melting stock, $21 to $21 50 the ton; No. 1 cast scrap, $18 50 and $19; No. 1 wrought scrap, $20 50 to $21; turnings, $15 50; borings, $12 to $12 50; old steel rails, $21 50; old iron rails, $26; steel rails for re-rolling, $24.

Hardware and Tube Prices.

Hardware prices are unchanged as follows: Carlots and larger amounts of wire nails to jobbers, $2 05 a keg; $2 10 in less lots and $2 20 out of stock to retailers; No. 9 plain wire, $2 65 for 100 pounds to jobbers, $2 10 in carlots; $2 20 in less than carlots; No. 9 galvanized wire, $2 50 in carlots to jobbers and $2 50 in lesser lots; cut nails are $2 05 in carlots and $2 in heavy orders to jobbers; steel horseshoes are $2 25 for 100-pound kegs, and iron $2 60; carriage bolts, 60 and 10 and 5 per cent off to jobbers; machine bolts, 50 and 10 and 2½ per cent off list.

The leading producer continues to hold discounts on steel and wrought iron pipe to jobbers as follows:

PIG IRON SITUATION BECOMING SERIOUS

Anthracite Coal Strike Badly Cripples Schuylkill and Lehigh Valleys. Supply of Coke Too Slow.

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, July 2.—The Iron Age will tomorrow say:

So far as the immediate supply of pig iron is concerned the situation is becoming more and more serious and is affecting more particularly the foundry trade. The Schuylkill and Lehigh valleys are crippled by the anthracite coal strikes and are not getting their supply of mountain coke as fast as they ought to. In Virginia a number of stacks are idle, owing to the scarcity of coke in the Virginia and West Virginia coal fields, which are also causing cessation of work with the blast furnaces of the Ohio valley. Some of the Tennessee furnaces are in trouble, too, and now comes the struggle over the question of the wages paid to miners in the Birmingham district, which according to our dispatches from there, has already caused the banking of six blast furnaces in the district. The steel trade is not affected as to supply of raw material, except as to spiegels and the make of basic pig and low phosphorus iron.

This, of course, is a splendid opportunity for the importers of foreign foundry pig iron and we hear of considerable sales of Scotch, English and German pig iron and some quite liberal offerings as to quantity. The very large amount of foreign material which has been contracted for has, however, crowded the freight carriers and it is understood that the regular lines are filled to September, which, of course, will affect the question of prompt delivery which is the essence of the transactions.

Chicago continues to report heavy sales of pig iron for the first half of 1903, one consumer being credited with having taken 75,000 tons. On the other hand there is a growing disposition among furnace interests to discourage booking for 1903 until the situation is more clearly defined. The southern railroads have warned the producers that while they will protect them on freight rates up to January 1, they will be unable to do so after that date. The result is that buyers of 1903 pig iron must assume the risk of an advance in freights.

In the steel trade sales of foreign material continue to be made in moderate lots, including basic billets and steel bars for 1903 delivery. Further sales of steel rails for 1903 delivery are reported and it is figured out that thus far there have been placed in that territory about 455,000 tons. The eastern mills have not booked nearly as much, but have taken good orders. The Pennsylvania Company have not yet ordered their requirements beyond one parcel of about 20,000 tons booked some time since. It is generally admitted that considerable tonnage must be carried over into 1903 over bookings the mills will be unable to roll on contracts for the quantity are obviously subject to many contingencies. The sheets run from 300,000 to 400,000 tons.

The policy pursued by both railroads and manufacturers as to rails of booking early at prices now prevailing for 1903 delivery, followed also in the case of bridge material and it is understood that a large tonnage has already been secured. The business in structural shapes goes on at a heavy rate and there is a very large volume in sight. Deliveries continue exceedingly unsatisfactory and imported material is snapped up at prices far above the official level.

The closing of large contracts for ships on the lakes will bring into the market some additional large orders for plates and shapes. We have not heard that they have been already placed.

THE WEATHER RULES SUPREME IN GRAIN PIT

Signs of Clearing Had Influence Enough to Check Advances.

SHORTS WERE COVERED

July Deal in Corn Comparatively Neglected—Oats Opened Higher, Provisions Were Dull, but Steady. Wheat High During First Hour.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Chicago, July 2.—The grain markets were distinctly quieter today, although nervousness over the weather and crop damage was still apparent. Signs of clearing weather west were influential in checking advances. The July corn deal was neglected. July wheat closed ¼c higher, September wheat ⅝c lower, July corn 1⅜c up, September corn ⅛c lower, September oats ¼c down. Provisions closed 2½c lower to 2½c higher.

When trade in the wheat pit began there was more rain to consider, showers having fallen liberally during the night. Commission houses bought, and September during the first hour advanced to 75¾@75⅝c. This proved to be the highest point of the day for this option. Shorts seemed to be pretty well covered, thanks to their strenuous exertions of yesterday, and scattered reports that the weather was getting clearer in the west found the market ready for a reaction. Local bears sold liberally, and St. Louis added to the pressure.

Pressure Finally Eased.

The quantity disposed of was not heavy, but September gradually receded to 75¼c. Here the pressure eased and thereafter the market ruled steady. At one time September got back to 74⅝c, but the close was ⅝c under yesterday at 74@74⅛c. The high point of July wheat was 77⅛c. This option ruled comparatively stronger than September, owing chiefly to the action of an important house which sold September and bought July. July, however, participated in the easier tendency and following the bulge worked down to 75¾@75⅝c.

The decline was largely due to profit taking, and when this let up prices steadied and the close was ¼c over yesterday at 76⅛c. Seaboard clearances were 329,000 bushels and primary receipts 420,000 bushels, compared with 3,532,000 last year. Local receipts were 39 cars, 1 of contract grade: Minneapolis and Duluth reported 227 cars, making a total for the three points of 261 cars against 305 last week and 171 a year ago.

July Corn Deal Neglected.

The July deal in corn was comparatively neglected. Not more than 150,000 bushels were handled during the entire session. The smallest packages of this option were sufficient to cause wide fluctuations. This market, like wheat, ruled strongest early, while the effect of last night's showers was the chief consideration. The trade in September was only fairly active, and during the afternoon it became quite dull.

The "it looks like clearing up" messages, which were eagerly scanned, joined with the natural tendency to take profits while they were sure, kept the September price down. July stayed well up because the firm which has the supply tucked away did not choose to sell it any cheaper. July sold between 74c and 76¾c and closed 1⅜c higher at 75⅝c. September sold between 62⅝c and 63¾c, closing ⅛c under yesterday at 62⅜c. Receipts were 86 cars. There were transferred to public elevators 111 cars of contract corn.

Oats Opened Higher.

Oats opened higher with the other markets, but developed an easy undertone earlier than the leaders. The easiness was due chiefly to liquidation by interests which bought freely yesterday. There was also selling in sympathy with the other cereals. There was a good scattered trade in the mill. September sold between 35c and 36¼c and closed steady, ¼c lower at 35¼c. Receipts were 166 cars.

Provisions were dull but steady in the absence of selling pressure. What business there was was almost entirely in the way of changing. September pork closed 2½c higher at $18 57½, September lard 2½c lower at $10 70, and September ribs unchanged at $10 67½.

Estimated receipts tomorrow: Wheat, 45 cars; corn, 105 cars; oats, 110 cars; hogs, 32,000 head.

CRAFTON BRIDGE PLAN OF LOTS.
REAL HOMES—Not simply houses, but four walls and a roof to make a home. Surroundings, scenery, sunshine and fresh air are all requisites necessary for the pleasant and healthful home. It is these natural qualifications that are made the most desirable Plan of Lots so popular among those who understand what a cheerful home requires. Of the 54 lots in this plan, many of them have been sold, and only a few remain for those who appreciate them at once. The prices are very low, surroundings considered, as Crafton is the only residential breathing spot within quick and easy distance of the city. Do not wait a day; here is a good thing; get particulars and terms at once.

BIG FINANCIERS GAIN CONFIDENCE IN STEEL SHARES

Late Report of Corporation Remarkable in Industrial History of World.

GREAT EARNING POWER

Profits for Fifteen Months Are More Than Those of the Pennsylvania Railroad Company in Two Years. Rapid Growth of Reserve Fund.

[BY PRIVATE WIRE TO THE GAZETTE.]

New York, July 2.—The statement of the United States Steel Corporation for the six months ended June 30 last was favorably commented upon in financial circles today. The report is regarded as one of the most remarkable ever issued by an industrial or railroad corporation, and served to strengthen confidence in the steel shares. The fact that the United States Steel Corporation has earned nearly $150,000,000 net in the first 18 months of its existence is sufficient to convince the most skeptical of the wonderful earning power of the corporation.

For example, the United States Steel Corporation earned in 15 months $32,000,000 more than the Pennsylvania Railroad Company earned in the past two years. In this connection it is interesting to note that the Pennsylvania railroad has a greater earning power than any other railroad system in the world. The steel corporation's earnings are all that are required to convince one of the large percentage of the iron and steel industry controlled by it. Taking the last three months as a basis for calculation, the steel combine is earning at the rate of $150,000,000 a year. If this rate is maintained the corporation for the current fiscal year will be able to show undivided profits applicable to depreciation or reserve fund, new construction of surplus, of over $94,000,000.

Big Sinking Funds Certain.

While the earnings of the combine during the past three months are not likely to be maintained, it is a safe prediction that after providing for sinking funs, payments of dividends, interest, etc., it will be able to show undivided profits for the second fiscal year of not much less than $15,000,000. This sum, added to the undivided profits for the first fiscal year, will give the combine a grand total of something like $70,000,000, a sum sufficient to pay dividends on the common stock on the present rate of interest for nearly three and one-half years.

While the average monthly earnings of the corporation in the current fiscal year will be less than the average reported in the last three months, there is no getting around the fact that the earning power of the combine is increasing rapidly. This is shown by the fact that the earnings in either April, May or June, 1902, exceeded the earnings of the corporation in any month in the first year of its operations.

"The statement is made that the more favorable showing is due to increased prices of finished steel, but people who keep in close touch with the situation are all aware that this argument is not sound. The United States Steel Corporation has maintained prices at a very low level since its organization, and at no time have any announcements of advancements been made. The company is taking business on the same price basis as in the first year of its operations, and there will be no change in prices during the year 1903, according to officials of the combine. The corporation has advanced wages of its men and has been buying material from outside sources at advanced prices, but earnings have increased instead of decreased, as one would be likely led to suppose.

Results from Economy.

An official of the company today pointed out that the improved showing of the steel combine in the matter of earnings was due largely to the benefits derived through carrying out the policy of concentration and economy adopted by the management when the United States Steel Corporation was organized.

"The economies arising from the combination," said the official, "are just beginning to be felt, and will become more noticeable with the age of the corporation."

The Federal Sugar Refining Company filed papers in the state of New Jersey today increasing its capital to $50,000,000. The amended charter provides for $25,000,000 of preferred stock bearing 6 per cent cumulative dividends and $25,000,000 of common stock. The incorporators are Everitt Jackson, New York, president of the company; P. J. Smith, secretary, and Charles T. Bingham, treasurer. C. A. Spreckels, son of the Pacific coast sugar king, Claus Spreckels, is interested in the new company.

Regarding the charge that he is the arch-conspirator in the stock market attack against the United States Steel, Francis B. Cutler says:

"It is true that the New Jersey litigation was instituted by a gentleman who has been associated with me for a number of years (in the interest of his family), and it is true that I gave him my impression that the conversion of part of the preferred stock into bonds should mar the vested rights of dissenting holders of similar stock. It is not true that I gave the opinion that the 15 judges of the court of last resort in New Jersey would decide for the steel company.

All a Matter of Opinion.

"My statement was: There are 15 judges. Superior lawyers on the one side are firm in the opinion that the conversion is legal and equally as conscientious lawyers on the other side hold the opposite opinion. It is not possible, therefore, to tell how the majority of a large jury of 15 learned judges will decide.

"I have always regarded the steel company as the most worthy business corporation ever formed—the best founded in value, the most far-reaching in strategic force, the most nearly self-protective against commercial depression. The directors and largest stockholders have voted that the risk from foreclosure is so slight that the company can afford to assume the risk in view of the ultimate benefits which will accrue to the other preferred stockholders and common stockholders in the absence of foreclosure. The arguments against the conversion are all based upon the alleged inability of the corporation to pay the new fixed charges in time of depression. The directors and largest stockholders think otherwise. Far be it from me to pursue, criticise or annoy, although I have held the opinion from the first that it would be best for the company, as well as the dissenting stockholders, to ascertain what the legal conditions really are."

The Raritan Structural Steel Company was incorporated in the state of New Jersey today with a capital of $800,000. The incorporators are Charles E. Terney, W. S. Thorp and J. N. Pinkney, all of whom give their address as No. 927 Townsend street, New Brunswick, N. J. The charter of the company permits it to engage in all branches of the iron and steel business. E. W. HARDEN.

Extreme Dullness in Wall Street

MISSOURI PACIFIC THE BIG FACTOR OF YESTERDAY

Despite Dividend Payment Nearly 36,000 Shares Changed Hands.

STEEL STOCKS ARE ACTIVE

The Report of the Last Quarter Regarded as an Astounding Exhibit of Active and Prosperous Conditions in the Trade.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, July 2.—The stock market was extremely dull today and the only notable activity was concentrated in a few stocks. In some of these there were new developments to give an ostensible cause for their strength, in others there was an appearance of manipulation with the purpose of sustaining the general market. The speculation was light, owing to the large operations in progress in the money market on account of the July settlement and of syndicate operations.

There were large transactions all day in Missouri Pacific, which sold ex the semi-annual dividend of 2½ per cent, but the price range all day was restricted to a fraction. Louisville was in active demand at an extreme advance of 3¼. The movement seemed to be based upon the formal announcement that the purchase in behalf of the company of the Chicago, Indianapolis & Louisville was in effect. Colorado Fuel made another spurt, which was supposed to be due to a struggle for control, but which incidentally involved forced buying by a distressed short interest.

Sugar Helped by Shorts.

Short covering was also an element in the advance of Sugar and the rise in the price of raw sugar also helped that stock. The buying of Amalgamated Copper was attributed to a more confident feeling over the trade outlook.

The United States Steel stocks were firm because of the increased net earnings reported for the last quarter. The statistics of iron and steel production for the past year issued by the American Iron & Steel association were regarded as an astounding exhibit of active and prosperous conditions in the trade. The steel stocks nevertheless met a considerable volume of selling at the advance, a large portion of which was for London account. The statement of May net earnings of the Pennsylvania system, showing an increase of over a million dollars compared with May of last year, was taken as an index of the large profits accruing to the soft coal carriers as a result of the anthracite strike. The May statement of Norfolk & Western corroborated the showing and led to the firmness of the soft coal carriers, in which, however, Pennsylvania shared but slightly.

Holiday Traffic Figures.

The early firmness of the local traction stocks was fostered by the increased net earnings reported by the Brooklyn Transit system and by hopes of large profits from the coming holiday traffic. The rate for call loans showed further ease today, but foreign exchange advanced.

The London money market showed additional ease, but pressure was transmitted from Paris, where there was an abrupt decline of 2 centimes in the sterling rate.

Yesterday's money market operations resulted in balances to be met between the clearing house banks this morning of $24,943,457, which is the largest on record for that item. Payments today to the underwriting syndicate for the Burlington purchase released large sums to the market and the disbursements of government interest afford relief from any sub-treasury requirements. Today there was paid out by that institution on account of Klondike gold $590,000, the first of the season. Advices are received of an additional half million to be received from the same source this week.

The market closed dull and easy. The bond market was dull and irregular. Total sales, par value, $2,750,000.

United States bonds were all unchanged on the last call.

NEWS FROM THE MINES

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, July 2.—Idaho seems to be leading all the mining states in gold discoveries this year. Two important finds were recorded in these dispatches yesterday, and now comes news that a rich ledge of free-milling ore of sensational value has been found in the Irish Girl, near Pocatello. The ledge is a contact vein with a well defined line foot wall and quartzite hanging wall. It is 30 feet wide in some places, and is filled with white horsey-rotted quartz. Prospectors are more active in the state than ever before, owing largely to the Thunder mountain excitement. As the deposits of Idaho are great and widespread, we may expect more new discoveries as the season progresses.

A Salt Lake correspondent writes that while the stock exchange is dull and prices of mining shares weak, great progress is being made in mining proper. The smelter situation is also improving. One of the 32 stacks of the great plant of the American Smelting and Refining Company is now in operation, and others will soon be blown in. The Bingham consolidated smelter is to add a new stack to its plant. The big smelter of the United States Coal & Coke company, at Castle Gate, Utah, is nearing completion. Besides this, there is the Highland Boy smelter, which is handling 500 tons of ore per day. When all of these smelters are running at their full capacity prices of ores are likely to advance, or treatment rates will be reduced, which will amount to the same thing, so far as the mines are concerned.

A Telluride syndicate which is operating near the Park group at Marysvale, Utah, has encountered a streak of ore showing 36.984 gold and 84 ounces silver to the ton.

In the Plymouth claim of the Manhattan Mining Company, at Pine Nevy, ore has been disclosed that assays 3,000 ounces of silver and $36 gold to the ton.

High-grade ore has been struck in the bottom of the new working shaft of the Arizona in the Silver district, New Mexico.

A big concentrating proposition has been uncovered in the Iron Hand, White Water district, Colorado. The ledge is 100 feet wide, five feet wide and full of galena, with gold values of $4 to the ton. Silver runs from 80 to 120 ounces, with 35 to 40 per cent lead.

The Pride of Bull Hill mining property, which is now owned by the Neptune Mining Company, has resumed operations. It is believed that there will soon be a general resurrection of the old lead producers of the district.

Joplin's output last week was 10,404,200 pounds of zinc ore, valued at $168,977, and 1,000,000 pounds of lead, valued at $42,000. The price of lead advanced to $37, zinc sold at $31. The total sales for the six months of 1902 aggregated $36,007 tons of zinc and 16,051 tons of lead, an average of 6,281 tons of zinc and 618 tons of lead per week; the average week's run was 875,500.

Helena, Mont., denies the report that Elkhorn has shut down. The negotiations between the smelter company in New York and the owners of the mine are still in progress.

The Metal Market.

At London prices for copper were unchanged, with spot closing at £82 15s and futures at £83 0d. The New York market was irregular and quiet, with standard unchanged, Lake Superior and electrolytic and casting easier. Standard spot to August closed at $11 37½@11 75; lake, $12 12½ to $12 75; electrolytic at $11 85 to $11 95, and casting at $11 75 to $11 95. Tin was quiet locally, but about 25 points higher owing to a sharp upward advance. The local price was $28.00 to $28 10. London closed £18 higher, with spot at £124 15s and futures at £122 5s. Lead was steady and unchanged at home, with London 1s 3d higher at £11 5s 3d. Spelter was higher and firm here at 5½c and London closed 2s 6d higher at £24 15s. Iron continued steady at home and abroad. Local prices were unchanged, with warrants nominal. No. 1 foundry, northern, $22 00@23 00; No. 2 foundry, northern, $21 00@22 00; No. 1 foundry, southern, $21 50@22 50; No. 1 foundry, southern, soft, $21 50@22 50. Glasgow closed 54s 9d and Middlesboro at 49s 10½d.

FOURTH AVENUE LOT SOLD.

Farmers Deposit National Bank Gets $90,000 For It.

The Farmers Deposit National bank, through the agency of Samuel W. Black & Co., has sold the property south of its banking house in Fourth avenue. The identity of the purchaser is withheld, but it is said to be a business corporation, which will improve the property. The purchase price was $90,000. The lot has a frontage of 29 feet and is 85½ feet deep. There is a four-story brick building on the property, the street numbers being 216 and 218 Fourth avenue.

A short time ago Samuel W. Black & Co. sold for the Farmers Deposit National bank the banking house property adjoining. This was sold to Whitney & Stephenson.

Another Sharp Advance in Corn and Oats

PITTSBURGH PRICES FOR FARM PRODUCTS

Fruits and Produce Very Active—Egg Market Strong.

Hay, Grain and Feed.

Light receipts, reports of strong markets in the west and fairly active trading kept the local grain market on its upward course yesterday, and higher levels were reached for both corn and oats. What few offerings there were on change were at high figures, as bidders were not out to large numbers, there being an apparent uncertainty as to actual values. Eighty cents was asked for car corn spot, but the highest bid did not come within several cents of that price. Hay quotations remain unchanged.

Receipts reported: Pennsylvania lines, 4 cars hay, 8 cars oats, 1 car husks, 1 car feed; Pittsburgh & Lake Erie railroad, 1 car oats, 1 car corn; Pittsburgh & Western railroad, 1 car hay. Total receipts, 14 cars.

Following are the official quotations for hay, milfeed, corn, oats and straw, corrected by the superintendent of the Pittsburgh grain exchange:

Straw—Oat, $7 00@7 50; wheat, $7 00@7 50; rye, $8 00@8 50.

Hay—Choice timothy, $15 00@15 50; No. 1 do, $14 00@15 00; No. 2 do, $12 50@13 50; No. 1 mixed, $10 50@11 00; No. 1 clover, $10 00@10 25; prairie, $10 50@11 00; packing, $8 00@10 00; loose from wagon, $10

Excellent Showing of the Big Corporation Was a Bull Card.

BANK STOCKS IRREGULAR

Sharp Fluctuations Occurred in Some of the Issues—Window Glass and Crucible Steel Reacted—The Coal Stocks Were Very Dull.

The market on the Pittsburgh stock exchange yesterday was considerably more active and somewhat firmer than has been in some days. The principal factor was, doubtless, the showing (generally regarded as very fine) made by the United States Steel Corporation for the first quarter of the new fiscal year. The net profits for the period were more than $37,691,- an increase of more than $11,329,- over the corresponding quarter a year ago, and by far the largest in the corporation's existence. The result was generally better sentiment, though the corporation's plans have been subjected to so much adverse criticism that it was not as bullish as it otherwise might have been. Still it created a favorable atmosphere throughout the general market and inspired more confidence. The common stock was the most active issue of the day, over 1,300 shares being dealt in. It opened at 38 and went up to 38¼, but closed ⅛ lower, leaving a gain for the day of ⅛. The preferred was also firmer and ⅝ higher at the close at 89⅝, 210 shares having changed hands. Crucible Steel was more active but weak, over 900 shares selling at 21¼@21⅝, a decline of ⅝ for the day. The preferred was very dull, only 50 shares coming out at 85⅞ @85¾, an advance of ⅛. The feature of the remaining business of the day was in the building group, which was quite irregular. Allegheny National sold at 118, a loss of 11. Federal National opened at 134 and advanced to 136, but reacted to 135, sales and bid, leaving a gain for the day of $4. Colonial Trust sold 13 shares at 390, a decline of $5, and the best bid afterward was 386. Only one more share offered at 390. Commonwealth Real Estate and Trust Company opened at 225, against a close of 220 Tuesday, and went up to 226, leaving a loss for the day of $4. Pennsylvania Trust was firm and unchanged and United Realty Trust was in the same state. Real Estate Trust was very erratic and quite active, 510 shares selling. It opened at 290½ and advanced to 292½, but closed finally at 291, with offers at 291½ and a bid of 290. In the Gates stock at something above 150, and that at the directors' meeting July 9 the Louisville & Nashville dividend will be increased to 6 per cent.

If you want to put anyone into a stock for a long pull, something that may last several years but is bound to win out with a big profit, take Chesapeake & Ohio. It is earning as much money as Norfolk & Western, and in my opinion will sell at par somewhere in the reasonably near future. It is being picked up by the Vanderbilts, just as was Big Four around the same price, and I think that it will do the same thing that that stock did.—Dick.

Members of the underwriting syndicate of the Burlington joint 4 per cent bonds will receive checks today for the entire amount of cash subscribed plus profits of nearly 12½ per cent. In all about $18,000,000 will be distributed by the banking house of J. P. Morgan & Co., the syndicate managers. This represents $16,000,000 which the syndicate furnished and $2,000,000 in profits. When the bonds were floated a syndicate was formed which agreed to supply $75,000,000 to assure their successful issue. Of this amount only $16,000,000 was called in. All the bonds were sold.

The net earnings of Brooklyn Rapid Transit for May were $126,102, an increase of $65,177.

It is believed that the manipulators of Texas Pacific have been marking the stock up without accumulating very much.

Bull tips are out on Amalgamated Copper preferred, but insiders still seem to consider the trade condition a poor one.

During the month of June exports of copper from this country were 12,500 tons, as compared with the exports of a year ago of 9,428 tons.

Consolidated Gas preferred, which has stood at 44 for a year at least, yesterday advanced ½ and caused some comment at its getting out of the rut.

The Mellon National bank has been approved as the reserve agent of the First National bank of Fayette City and the First National bank of Mt. Pleasant.

When the stock and grain exchanges of the country close today they will remain closed until Monday. The banks will be closed Friday, but will reopen Saturday.

Window Glass will sell ex-dividend today, as the dividend goes to stock of record July 8, and sales made today, except for cash, will not be deliverable until Monday.

It is claimed that the Gates party is forcing the shorts in Colorado Fuel and Iron to cover and that the earnings of the American Sugar Company are so large that a restoration of the old dividend rate is not unlikely.

The Pittsburgh Trust Company's statement as of June 30 shows surplus and undivided profits of $4,185,200, an increase for the month of $30,427. Savings deposits amount to $1,356,776, as compared with $3,211,549 a month ago.

SALE OF CHURCH IN ALLEGHENY IS ABOUT COMPLETE

Central Presbyterian Property Likely to Go to P. D. Armour & Co.

DEAL INVOLVES $40,000

Water Street Property Brings $50,000—Another Farm Near Mt. Lebanon Secured—Good Sales in East End—Downtown Deals Pending.

A sale has practically been consummated of the Central Presbyterian church property at the northwest corner of Anderson and Lacock streets, Allegheny. The consideration is $40,000, and the deal has been made through the office of George Bros. About a month ago the trustees received an offer of $35,000 from the same source, but at a meeting of the congregation it was decided not to sell, as many of the members favored holding out for $50,000. The trustees have recommended the sale at the new offer of $40,000, and the congregation will meet July 14 to ratify their action. The lot on which the church stands measures 87x92 feet. The church was built in 1852 and is in excellent condition. The reputed purchaser is P. D. Armour & Co., whose property in Church avenue is badly wanted by the Pittsburgh, Ft. Wayne & Chicago railroad for track improvements. A condition of the latter's securing the parking house is that it shall provide a site for a new building and the church property, together with the Alexander Beggs lot, assuring it a splendid location for the meat company. Negotiations are now pending for the purchase of the latter, and will probably be closed this week.

Big Warehouse for Forbes Street.

The Shanahan Transfer Company has purchased a part of the Jane Magee estate in Forbes street for $30,000, and will erect thereon a warehouse to cost $50,000. The plot measures 100x120 feet in the north side of Forbes street near Magee street, and is vacant, except for a couple of frame shanties. The warehouse to be built will be a six-story brick structure and will be started at once.

The property at Nos. 247 and 249 Water street has been sold by John D. Thompson to James C. Thompson for $50,000. The lot has a frontage of 30.5 feet in Water street just west of Wood street, and a depth of 80 feet. It is improved with a three-story brick building. The property lies between the Conestoga building and the Boggs & Buhl lot.

Arthur Wessel has purchased 25 acres of the Lau farm, near Mt. Lebanon, for $22,500. The land adjoins the Sawyer farm of 100 acres, which Mr. Wessel bought last week for $50,000. Both farms lie on the ridge, through which the Washington electric road will run, making them valuable for lot plans. It is said that both purchases were made in the interest of William Flinn, and that the Beechwood Improvement Company, limited, will plot and handle the property.

Fine Residence Sold.

William B. Lawton has sold to Wayland Rupert a fine residence property at the southeast corner of Denniston avenue and Aurelia street, Twentieth ward, for $22,000. The lot is 95x113 feet, and is improved with a modern brick house of 12 rooms, which the purchaser will occupy as a home.

William H. Whitfield is preparing to build two center hall brick houses in the East End, at a cost of $15,000. One will be located in the east side of Chislett street, near Wellesley avenue, and the other in the west side of Heath street, near the same avenue. Both houses will contain 12 rooms, with all modern conveniences.

E. Cohen has bought from Henry Cooper a three-story brick house at the southwest corner of Arch and South Dimmond streets, Allegheny, for $13,500. The lot is 40x100 feet.

John Frazier has sold to Damian Wahl a property, 50x140 feet, on the north side of Monticello street, Twenty-first ward, for $10,000. The lot is improved with two new reception hall brick houses of 10 rooms each.

Through the Commonwealth Real Estate & Trust Company, William F. Whalen has sold to C. C. Mellor the property at No. 524 Second avenue, for $11,000 cash. The lot measures 24x66 feet and has erected on it a three-story brick house. The purchase was made for an investment.

Market in Good Condition.

As showing that there is a strong undercurrent of activity in the real estate market, and that the large buyers have by no means abandoned the field, two pending deals came to light yesterday. One of them was in the nature of an offer submitted two weeks ago, for a lot, 15x100 feet, in Fifth avenue. The offer was for $125,000 spot cash, or at the rate of $9,000 a front foot. This offer, however, was promptly turned down and it is doubtful if the owner would sell at all at present. The same property was sold 15 years ago for $30,000. The other deal involves over $200,000 worth of downtown property and is progressing favorably. Two brokers are interested in the transaction, but neither would give out any particulars of the deal. For midsummer weather, when a big slump is expected in realty deals, the market is keeping up wonderfully. So far this week, the record of actual cash transactions has been better than for several weeks. Tuesday and Wednesday 46 and 25 deeds respectively were registered at the city hall, amounting to about $500,000. The transfers yesterday were nearly all for good average sales in localities where property is moving rapidly.

Squirrel Hill Transactions.

The Beechwood Improvement Company, Limited, has sold the following lots in the Squirrel Hill plan of lots: No. 48 to H. W. Miller, for $1,050; No. 53 to F. Keeland, for $2,500, and No. 5 to A. J. Myers, for $5,548. Also sold the following lots in the Belmar Place plan; No. 776 to M. Clary, for $1,100; No. 777 to J. Carroll, for $1,000, and No. 655 and one-half of 656 to O. Maerner, for $1,075.

Center avenue: Henry Arnold & Co. sold for Mrs. M. Walther to I. Sider an improved lot, 20x76 feet, on the north side of Center avenue, Eleventh ward, for $4,500.

Allegheny: The Allegheny Real Estate Company sold for Richard Theophilus, clerk of the house of representatives, Washington, D. C., to Frank L. Stalder, a six-room frame house and one acre of ground, at the corner of Marshall and Irwin avenues, Tenth ward, Allegheny, for $2,700.

Dallas avenue: H. W. Stevenson & Co. sold for R. D. McGonible to an East End business man a lot, 174x145 feet, at the northwest corner of Dallas and Dalzell avenues, Twenty-second ward, for $8,700. The purchaser will build three $5,000 brick houses. In return for the frontage Mr. McGonigle received a two-story flat building, lot 20x120 feet, in Frankstown avenue, Twenty-first ward, valued at an equal sum.

Bought in Liberty Avenue.

Liberty avenue: Thomas MacConnell sold to George H. Shickler a lot, 50x120 feet, on the north side of Liberty avenue, near Mathilda street, Twentieth ward, for $8,500.

Simen avenue: Samuel R. Rush sold to Peter Wertz an improved lot, 40x103 feet, in Simen avenue, near Linden avenue, Twenty-first ward, for $8,600.

Emerson avenue: William M. Stieren sold to L. A. Clark an improved lot, 30x115 feet, on the west side of Emerson avenue, near Kentucky avenue, Twentieth ward, for $8,000. Mr. Clark resold the same property Tuesday, to Eleanor G. Hunter, for $8,500.

Frankstown avenue: Isaac R. Whitaker bought at sheriff's sale the Charles H. Camp property, an improved lot, 30x125 feet, in Frankstown avenue, Twenty-first ward, for $6,050.

Kincaid street: J. Irwin Green sold to Ira D. Smith an improved lot, 22.5x97 feet, on the south side of Kincaid street, near Vista street, Nineteenth ward, for $3,000.

Roberts street: William J. Bremen sold to Louis Schwartz an improved lot, 20x100 feet, on the east side of Roberts street, Eleventh ward, for $2,800.

An East End Transfer.

Shakespeare street: Michael O'Brien sold to John W. Reed an improved lot, 20x100 feet, on the southwest side of Shakespeare street, Twentieth ward, for $3,100.

Pike street: Edward W. McKenna sold to Minnie R. Kuhn an improved lot, 20x100 feet, at the southwest corner of Pike street, near Fourteenth street, Ninth ward, for $2,375.

Norton avenue: Mary Dilworth sold to Jacob Minsinger 16 lots fronting in Norton and Railroad avenues, for $3,200.

Carson street: Mark Schmidt sold to Roberts Irving two lots, 48x129 feet, on the north side of Carson street, extending through to Slater's alley, Twenty-fourth ward, for $3,000.

Braddock avenue: George W. Guthrie, trustee for William Wilkins, sold to Charles A. Meeds a lot, 50x120 feet, at the southwest corner of Braddock avenue and Biddle street, Twenty-second ward, for $3,500.

Patterson street: Edward Jones sold to Frank Wertman a lot, 20x100 feet, on the south side of Patterson street, near Eleanor street, Twenty-seventh ward, for $1,800.

Small Home Purchases.

Woodville street: Frederick Beemer sold to Waigard Kern a lot, 53x147 feet, on the east side of Woodville street, near Elm street, Thirty-fifth ward, for $1,200.

Jancey street: William Charlton sold to Louisa P. Marvin a lot, 100x144 feet, at the northwest corner of Jancey and McCully streets, Eighteenth ward, for $5,150.

Tacoma street: J. W. Sherrer sold for Jonas I. Hess to Wilhelmina M. L. Turastail, an improved lot, 25x120 feet, on the south side of Tacoma street, Thirty-seventh ward, for $3,500.

Race street: DeWitt C. Kissell sold to George A. Allison an improved lot, 30x93 feet, on the south side of Race street, Twenty-first ward, for $5,400.

Euclid avenue: Mrs. J. E. Badger bought at sheriff's sale the J. A. Miller property, an improved lot, 22x92 feet, in Euclid avenue, near Broad street, Nineteenth ward, for $2,797.

Bouquet street: James Coyle sold to Louise Ward an improved lot, 42.5x100 feet, at the southwest corner of Bouquet and Ellet streets, Fourteenth ward, for $2,500.

Henry W. Armstrong sold for the Columbia National bank of Pittsburgh, to A. Bion Boggs a lot at the northeast corner of Dickson avenue and Brighton road, Ben Avon, average 286x150 feet, for $4,350 cash. The purchaser will improve at once by he erection of a handsome residence.

New Stock Brokers.

Mr. George A. Levy, who for years has been engaged in the newspaper enterprises of this city, has established a new stock brokerage under the style of George A. Levy & Co. The office of the firm is on the fourth floor of the Peoples Savings bank building, room 401. It is the intention to conduct a first-class stock brokerage business, giving special attention to local securities. The business will be under the personal management of Mr. Levy, whose broad experience and acquaintanceship will doubtless obtain for his firm a full share of success.

AFTER THE FIREWORKS

You May Go to Cleveland on $4.00 Excursion Tickets Friday.

Round trip tickets to Cleveland, via Pennsylvania lines, will cost $4 July 3rd and 4th. They will be good on train leaving Pittsburgh Union station at 11 o'clock central time, Friday night, after the fireworks. An excellent opportunity to leave for Cleveland and the lakes after the big celebration, and enjoy Saturday and Sunday in the Forest City, or at Put-in-Day, Detroit and other lake resorts. Last train on which tickets will be good returning will leave Cleveland Monday night at 11:30 o'clock.

Coal Will Be Dearer.

The anthracite miners' strike has now settled down to a long struggle and there is every probability of the bituminous miners quitting work. Coal will cost more. Why worry or bother with coal when you can use natural gas? Burned economically it costs less than coal. It's clean—no smoke or ashes—and it does not heat—a house in summer. The Philadelphia Company is now making connections and setting meters free of charge to non-consumers. Ask at 610 Wood street.
